Background

On March 12, 2001, the Department received a petition from Great Eastern Mussel Farms, Inc. (Great Eastern) alleging that live processed blue mussels from Canada were being sold, or were likely to be sold, in the United States at less than fair value. On April 6, 2001, the Department initiated an antidumping investigation of live processed blue mussels from Canada for the period April 1, 2000 through March 31, 2002 in order to determine whether merchandise imported into the United States is being sold at dumped prices. On October 18, 2001, the Department published in the Federal Register a notice of preliminary determination of sales at less than fair. See Notice of Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination: Live Processed Blue Mussels from, 66 FR 52888 (October 18, 2001). On January 7, 2002, Great Eastern withdrew its petition citing improved market conditions.

Termination of the Antidumping Investigation

Pursuant to 19 CFR 351.207(b)(1), the Department may terminate an investigation upon withdrawal of the petition by the petitioner provided that the termination of the investigation is in the public interest. We contacted all interested parties to the investigation and notified them in writing of our

intent to terminate the investigation and informed them that they had seven days in which to comment on this termination. No domestic interested party has objected to termination of this investigation. As no domestic interested party objects to this termination and the Department is not aware of evidence to the contrary, the Department finds that termination of this investigation is in the public interest. As such, we are terminating this antidumping investigation and will issue instructions directly to the U.S. Customs Service to terminate the suspension of subject merchandise.

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination and notice are in accordance with section 734(a) of the Act and section 19 CFR 351.207(b) of the Department's regulations.

ENVIRONMENTAL PROTECTION AGENCY

Coastal Nonpoint Pollution Control Program: Approval Decisions on Delaware and United States Virgin Islands Coastal Nonpoint Pollution Control Programs

AGENCY: National Oceanic and Atmospheric Administration, U.S.

Department of Commerce, and The U.S. Environmental Protection Agency.

ACTION: Notice of intent to approve the Delaware and United States Virgin Islands coastal nonpoint programs.

SUMMARY: Notice is hereby given of the intent to fully approve the Delaware and United States Virgin Islands Coastal Nonpoint Pollution Control Programs (coastal nonpoint programs) and of the availability of the draft Approval Decisions on conditions for the Delaware and United States Virgin Islands coastal nonpoint programs. Section 6217 of the Coastal Zone Act Reauthorization Amendments (CZARA), 16 U.S.C. 1455b, requires states and territories with coastal zone management programs that have received approval under section 306 of the Coastal Zone Management Act to develop and implement coastal nonpoint programs. Coastal states and territories were required to submit their coastal nonpoint programs to the National Oceanic and Atmospheric Administration (NOAA) and the U.S. Environmental Protection Agency (EPA) for approval in July 1995. NOAA and EPA conditionally approved the Delaware coastal nonpoint program on October 3, 1997 and the United States Virgin Islands coastal nonpoint program on November 18, 1997. NOAA and EPA have drafted approval decisions describing how Delaware and the United States Virgin Islands have satisfied the conditions placed on their programs and therefore have fully approved coastal nonpoint programs.

NOAA and EPA are making the draft decisions for the Delaware and United States Virgin Islands coastal nonpoint programs available for 30-day public comment periods. If no comments are received, the Delaware and United States Virgin Islands programs will be approved. If comments are received, NOAA and EPA will consider whether such comments are significant enough to affect the decision to fully approve the programs.

Copies of the draft Approval Decisions can be found on the NOAA Web site at <http://www.ocrm.nos.noaa.gov/czm/6217/> or may be obtained upon request from: Joseph P. Flanagan, Coastal Programs Division (N/ORM3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland, 20910, tel. 301-713-3155, extension 201, e-mail joseph.flanagan@noaa.gov.
