

Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. DHHS, with the DHHS' National Laboratory Certification Program (NLCP) contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, the DHHS will recommend that DOT certify the laboratory (Federal Register, 16 July 1996) as meeting the minimum standards of the "Mandatory Guidelines for Workplace Drug Testing" (59 Federal Register, 9 June 1994, Pages After receiving the DOT certification, the laboratory will be included in the monthly list of DHHS certified laboratories and participate in the NLCP certification maintenance program.

Patricia Bransford,

Acting Executive Officer, SAMHSA.

Endangered and Threatened Species Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications.

SUMMARY: The following applicants have applied for a scientific research permit to conduct certain activities with endangered species pursuant to section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*).

DATES: Written comments on these permit applications must be received within 30 days of the date of publication.

ADDRESSES: Written data or comments should be submitted to the Chief, Endangered Species Division, Ecological Services, PO Box 1306, Room 4102, Albuquerque, New Mexico 87103; (505)

248-6649; Fax (505) 248-6788.

Documents will be available for public inspection by written request, by appointment only, during normal business hours (8:00 to 4:30) at the U.S. Fish and Wildlife Service, 500 Gold Ave. SW., Room 4102, Albuquerque, New Mexico. Please refer to the respective permit number for each application when submitting comments. All comments received, including names and addresses, will become part of the official administrative record and may be made available to the public.

FOR FURTHER INFORMATION CONTACT:

Chief, Endangered Species Division, PO Box 1306, Room 4102, Albuquerque, New Mexico 87103. Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request to the address above for a copy of such documents within 30 days of the date of publication of this notice.

SUPPLEMENTARY INFORMATION:

Permit No. TE-056457

Applicant: Peter Stacey, Albuquerque, New Mexico

Applicant requests a permit for recovery purposes to conduct presence/absence and monitoring surveys for southwestern willow flycatcher (*Empidonax traillii extimus*) within New Mexico.

Permit No. TE-055107

Applicant: Adam Crateau, Santa Fe, New Mexico

Applicant requests a permit for recovery purposes to conduct presence/absence surveys for southwestern willow flycatcher (*Empidonax traillii extimus*) within San Juan Counties of New Mexico and Utah.

Permit No. TE-055111

Applicant: Animas Environmental, Farmington, New Mexico

Applicant requests a permit for recovery purposes to conduct presence/absence surveys for southwestern willow flycatcher (*Empidonax traillii extimus*) within San Juan County, New Mexico.

Permit No. TE-055339

Applicant: USDA, ARS, Grassland, Soil and Water Research Laboratory, Temple, Texas

Applicant requests a permit for recovery purposes to collect live plants and stem cuttings of Johnston's Frankenia (*Frankenia johnstonii*) within Texas.

Permit No. TE-055419

Applicant: Turner Biological Consulting, LLC, Tuscola, Texas

Applicant requests a permit for recovery purposes to conduct presence/absence surveys and assess habitat for black-capped vireo (*Vireo atricapillus*) and to assess habitat for northern aplomado falcon (*Falco femoralis septentrionalis*), golden-cheeked warbler (*Dendroica chrysoparia*), and interior least tern (*Sterna antillarum*). All activities are to occur within Texas.

Permit No. TE-035885

Applicant: Melvin J. Wilhelm, Vernon, Arizona

Applicant requests an amendment to an existing permit to allow presence/absence surveys for southwestern willow flycatcher (*Empidonax traillii extimus*) within Arizona and New Mexico.

Permit No. TE-056119

Applicant: Marlin B. Sawyer, San Antonio, Texas

Applicant requests a permit for recovery purposes to conduct presence/absence surveys within Texas for the following species: black-capped vireo (*Vireo atricapillus*), golden-cheeked warbler (*Dendroica chrysoparia*), red-cockaded woodpecker (*Picoides borealis*), ocelot (*Leopardus pardalis*), jaguarundi (*Herpailurus yagouaroundi cacomitli*), and Houston toad (*Bufo houstonensis*).

Permit No. TE-056118

Applicant: Charles L. Black, Albuquerque, New Mexico

Applicant requests a permit for recovery purposes to conduct presence/absence and monitoring surveys for southwestern willow flycatcher (*Empidonax traillii extimus*) within New Mexico.

Permit No. TE-056471

Applicant: Gregory Tickle, Santa Fe, New Mexico

Applicant requests a permit for recovery purposes to conduct presence/absence surveys within Texas for the following species: black-capped vireo (*Vireo atricapillus*), golden-cheeked warbler (*Dendroica chrysoparia*), and southwestern willow flycatcher (*Empidonax traillii extimus*).

Permit No. TE-038050

Applicant: Trevor Hare, Tucson, Arizona

Applicant requests an amendment to an existing permit to allow presence/absence surveys for desert pupfish (*Cyprinodon macularius*) and Gila

topminnow (*Poeciliopsis occidentalis*) within Arizona.

Susan MacMullin,

Acting Assistant Regional Director, Ecological Services, Region 2, Albuquerque, New Mexico.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[ID-076-4610-00]

Proposed Area of Critical Environmental Concern; Correction

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of correction.

SUMMARY: On June 28, 2002, the Bureau of Land Management published a notice in the **Federal Register** (67 FR 43680) concerning proposed Area of Critical Environmental Concern Designations (ACEC) in Idaho. The notice contained an incorrect date for when the public comment period begins. The correct date is June 28, 2002.

FOR FURTHER INFORMATION CONTACT: Bill Baker, Field Manager, Shoshone Field Office, (208) 732-7286.

Correction

In the **Federal Register** of June 28, 2002 on page 43680 in the third column correct the **DATES** caption to read:

DATES: The public comment period on the proposed ACEC designations begins on June 28, 2002. Written comments on the Shoshone Land Use Plans Draft Amendments/EA must be submitted or postmarked no later than August 27, 2002. Comments, including the names and street addresses of respondents, will be available for public review at the address listed below during regular business hours (7:45 a.m. to 4:30 p.m.), Monday through Friday, except holidays. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

Meetings will be held to receive public comments on the Draft

Amendments/EA; the dates, times, and locations of these public meetings will be announced locally through public mailings and area media.

Dated: June 28, 2002.

Michael Schwartz,

Group Manager, Regulatory Affairs.

Bureau of Land Management

[AZ030-2800-ER-00; AZA-28734]

Notice of Availability of Final Environmental Impact Statement for The Diamond Bar Road Improvement Project

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability of a Final Environmental Impact Statement for the Diamond Bar Road Improvement Project.

SUMMARY: The Bureau of Land Management (BLM), Kingman Field Office, Arizona, has prepared a final environmental impact statement (EIS) in response to an application for a right-of-way across public lands. The EIS analyzes the effects of a proposal to realign and improve approximately 11 miles of the Diamond Bar Road across public lands to access the Hualapai Indian Reservation. The EIS was prepared with assistance from Bureau of Indian Affairs (BIA) and National Park Service (NPS) as cooperating agencies. The BLM will be making the decision to grant a right-of-way, BIA will be making the decision on the expenditure of Federal Highway Trust Funds to construct the road, and NPS has special expertise concerning the effect on the National Natural Landmark, which the proposed road traverses. The analysis was prepared under the authority of the National Environmental Policy Act of 1969 and the Federal Land Policy and Management Act of 1976.

DATES: BLM and BIA will issue separate Records of Decision no earlier than 30 days from the date the Environmental Protection Agency publishes the notice of filing for the final EIS in the **Federal Register**.

ADDRESSES: Copies of the final EIS may be obtained from the Bureau of Land Management, Kingman Field Office, 2475 Beverly Avenue, Kingman, Arizona 86401.

FOR FURTHER INFORMATION CONTACT: Don McClure, phone: (928) 692-4400; e-mail, don_mcclure@blm.gov; address,

BLM, Kingman Field Office, 2475 Beverly Avenue, Kingman, Arizona 86401.

SUPPLEMENTARY INFORMATION: Diamond Bar Road provides access to Grand Canyon West, mainly for commercial and private vehicles originating from Las Vegas. Grand Canyon West is a development on the Hualapai Indian Reservation near the rim of the Grand Canyon. This development now consists of an airport and terminal building, a food service facility, restrooms, and a permit office. Implementing the 1994 Master Plan for Grand Canyon West is expected to increase the number of visitors up to sixfold over a 10-year period. This increase would greatly increase the number of vehicles on Diamond Bar Road. The proposed road improvement would accommodate this increased volume by providing a roadway designed for up to 2,400 vehicles per day.

Management concerns that have been addressed in the final EIS include impacts on vegetation, visual quality, recreation, cultural resources, socioeconomic conditions, public safety, and the Joshua Tree Forest Area of Critical Environmental Concern. Studies conducted include a native plant inventory, biological evaluation, cultural resource survey, traffic study, and visual impact analysis. Tribal consultation is ongoing under section 106 of the National Historic Preservation Act of 1966, as amended. The EIS has been prepared by an interdisciplinary team of resource specialists in vegetation, wildlife, visual quality, archaeological and traditional cultural resources, soils, range management, realty, and roadway design.

There were 41 comment letters received on the draft EIS. The concerns in these letters have been addressed in the final EIS. Most of the concerns were about the Entrance Realignment Option and related to the following: Building the road through a residential area and impacting residential quality of life; traffic, including traffic safety; noise; air quality; wildlife and Joshua trees; visual impacts; private property; access; and economics and efficiency. The BLM Preferred Alternative in the final EIS documents the preference of not using the Entrance Realignment Option. The final EIS addresses the above concerns as well as providing responses to individual comments.

If you wish to comment on the final EIS, please mail or hand deliver comments to the address listed in the **ADDRESSES** section of this notice. Comments will be accepted during this
