

Federal Cost: \$80,000.

Number of Forms: 1.

The EEOC received no comment in response to that solicitation.

Abstract: Section 709(c) of Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-8(c), requires employers to make and keep records relevant to a determination of whether unlawful employment practices have been or are being committed and to make reports therefrom as required by the EEOC. Accordingly, the EEOC has issued regulations which set forth the reporting requirement for various kinds of employers. Public elementary and secondary schools systems and districts have been required to submit EEO-5 reports to EEOC since 1974 (biennially in even numbered years since 1982). Since 1996 each school district or system has submitted all of the district data on a single form, EEOC Form 168A. The individual school form, EEOC Form 168B, was discontinued in 1996, greatly reducing the respondent burden and cost.

EEO-5 data are used by the EEOC to investigate charges of employment discrimination against public elementary and secondary school districts. The data are used to support EEOC decisions and conciliations, and for research. The data are shared with the Department of Education (Office for Civil Rights and the National Center for Education Statistics) and the Department of Justice. Pursuant to Section 709(d) of Title VII of the Civil Rights Act of 1964, as amended, EEO-5 data are also shared with 86 State and Local Fair Employment Practices Agencies (FEPAs).

Burden Statement: The estimated number of respondents included in the EEO-5 collection is 5,000 public elementary and secondary school districts. The number of responses per respondent is one report. The annual number of responses is approximately 5,000 and the total hours per response is between one (1) and five (5) hours. Based upon the large number of school districts responding via diskette, the total response burden has been re-estimated to equal 10,000 hours each time the survey is conducted (i.e. biennially). Respondents are continued to be encouraged to report data electronic media such as magnetic tapes and diskettes.

Dated: June 28, 2002.

FEDERAL COMMUNICATIONS COMMISSION

[DA 02-1440]

Freeze on the Filing of TV and DTV "Maximization" Applications in Channels 52-59

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: This document announces an immediate freeze on the filing of "maximization" applications, as defined further, by analog and digital television broadcast stations in the 698-746 MHz spectrum band, currently comprising television channels 52-59. This freeze will assist participants in Auction No. 44, consisting of spectrum licenses in the 698-746 MHz band (Lower 700 MHz band), to determine the areas potentially available in the band for the provision of service by auction winners before the channels are cleared of broadcast stations at the end of the DTV transition.

DATES: The Freeze became effective on June 18, 2002

ADDRESSES: 445 12th Street SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Kim Matthews, Policy Division, Media Bureau, Federal Communications Commission, (202) 418-2120.

SUPPLEMENTARY INFORMATION: Beginning immediately, and until further notice, the Federal Communications Commission ("Commission") will not accept for filing television modification applications that would increase a station's analog or DTV service area in channels 52-59 in one or more directions beyond the combined area resulting from the station's parameters as defined in the following: (1) The DTV Table of Allotments; (2) Commission authorizations (license and/or construction permit); and (3) applications on file with the Commission prior to release of this Notice. We will continue to process applications on file as of June 18, 2002, the date this Notice was released. The Media Bureau may consider, on a case by case basis and consistent with the public interest, amendments to those applications to, for example, resolve interference with other stations or pending applications or resolve mutual exclusivity with other pending applications.

The Bureau will consider, on a case-by-case basis, requests for waiver of this freeze where the modification application: (1) Would permit co-location of transmitter sites in a market in circumstances consistent with the

Commission's policy of encouraging co-location to reduce the cost of construction, particularly of DTV facilities, or to achieve more efficient spectrum use; or (2) is necessary or otherwise in the public interest for technical or other reasons to maintain quality service to the public, such as where zoning restrictions preclude tower construction at a particular site or where unforeseen events, such as extreme weather events or other extraordinary circumstances, require relocation to a new tower site. In particular, we would be inclined to grant waivers of the freeze for broadcast stations that seek new tower sites due to the events of September 11, 2001.

As with any request for waiver of our rules, a request for waiver of the freeze imposed in this Notice will be granted only upon a showing of good cause and where grant of the waiver will serve the public interest.

Federal Communications Commission.

Secretary, Federal Communications Commission.
