carriers providing small hub/non-hub service. Second, it would ensure that there would be a continued finite number of exemption slots available for new entrant service and small hub/non-hub service and represent an opportunity for equitable allocation of exemptions slots between competing categories. Lastly, it puts in place a process to provide opportunity to maintain parity.

Finally, the FAA proposes that a carrier will have three business days from the date of the FAA offer of an available exemption slot to accept or reject offered exemption slots. This procedure would provide a definitive timeframe for decisionmaking and assist in ensuring that exemption slots do not go unused for an extended period of time. From the date of acceptance of an offered exemption slot, a carrier has 120 days to begin using that exemption slot. (See adopted lottery procedures for the August 15, 2001 lottery.)

The reallocation procedures adopted in the August 7, 2001, notice will be followed for the reallocation of returned or withdrawn exemption slots pending a decision on these proposed procedures after the close of the comment period. The proposed, applicable conditions are restated as follows:

- 1. The cap on AIR–21 exemption slots (7:00 a.m. through 9:59 p.m.) will remain in effect through October 30, 2004.
- 2. The FAA may approve the transfer of exemption slot times between carriers only on a temporary one-for-one basis for the purpose of conducting the operation in a different time period. Carriers must certify to the FAA that no other consideration is involved in the transfer.
- 3. Phase I: If any exemption slots are returned to the FAA or are withdrawn for non-use, the FAA would make the first four exemption slots available on a first-come, first serve basis to a carrier that was not operating at LaGuardia as of August 15, 2001, certified to the Department in accordance with the procedures articulated in OST Order 2000-4-10, and has a written request on file with the Slot Office. Any of the first four returned or withdrawn exemption slots that are not selected by such a carrier would be available to the carriers that have less than 20 slots and exemption slots at LaGuardia for selection in accordance with the August 15 established rank order, with each carrier able to select two exemption slots. Any exemption slots not selected during this process then would be made available to the carriers providing small hub/non-hub service using the

December 4 rank order. This concludes Phase I.

- 4. Phase II: If any subsequent exemption slots become available for reallocation and there is an eligible carrier not conducting service at the airport seeking exemption slots, then the available exemption slots would be offered to that carrier first, provided that the total number of exemption slots allocated to carriers providing small hub/non-hub service is not below 76. If a new, eligible carrier does not select the exemption slots, then they would be offered to the category of carriers that is below parity, up to the level of reestablishing parity (using respective rank order). If the exemption slots are not selected or there are available exemption slots remaining, then they would be offered to carriers in the same category from which the exemption slots came. Any remaining exemption slots not selected would be offered to the other category of carriers, using its respective rank order.
- 5. A carrier would have three business days after an offer from the Slot Office to accept the offered exemption slot time. Acceptance must be in writing to the Slot Office. If the Slot Office does not receive an acceptance to an offer within three business days, the carrier would be recorded as rejecting the offer and the next carrier on the list would be offered the available exemption slot times.
- 6. Carriers that are offered exemption slot times by the Slot Office must recertify to the Department of Transportation in accordance with the procedures articulated in OST Orders 2000–4–10 and 2000–4–11 prior to operations, and provide the Department and the FAA with the markets to be served, the number of exemption slots, the frequency, and the time of operation, before the exemption slot times will be allocated by the FAA to the carrier.
- 7. All operations allocated under the post-lottery procedures must commence within 120 days of a carrier's acceptance of an available exemption slot.
- 8. The Chief Counsel will be the final decisionmaker concerning eligibility of carriers to participate in the allocation process.

Issued on July 1, 2002, in Washington, DC. **David G. Leitch**,

Chief Counsel.

BILLING CODE 4910–13–M

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

Federal Highway Administration

Designation of Transportation Management Areas

AGENCIES: Federal Transit Administration (FTA), Federal Highway Administration (FHWA), DOT. **ACTION:** Notice of designation.

SUMMARY: The Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA) are announcing that all urbanized areas (UZAs) with populations greater than 200,000 as determined by the 2000 Census, are hereby designated as Transportation Management Areas (TMAs). The FTA and the FHWA are taking this action in compliance with the agencies' authorizing statutes, 23 U.S.C. 134, and 49 U.S.C. 5305. This action supersedes the agencies designations of TMAs made in the Federal Register on May 18, 1992, at 57 FR 21160.

DATES: This notice is effective July 8, 2002.

FOR FURTHER INFORMATION CONTACT: For FTA related questions, Paul L. Verchinski, Office of Planning Operations (TPL-11), (202) 366–1626, Federal Transit Administration, 400 Seventh Street SW., Washington, DC 20590. e-mail:

Paul.verchinski@fta.dot.gov. Scott Biehl, Office of Chief Counsel (TCC), (202) 366–4063, Federal Transit Administration, 400 Seventh Street SW., Washington, DC 20590. e-mail: scott.biehl@fta.dot.gov. Office hours for the FTA are from 8:30 a.m. to 5 p.m., e.t., Monday through Friday, except Federal holidays.

For FHWA related questions, Sheldon Edner, Office of Metropolitan Planning (HEPM), (202) 366–4066, Federal Highway Administration, 400 Seventh Street SW., Washington, DC 20590. e-mail: sheldon.edner@fhwa.dot.gov. Reid Alsop, Office of Chief Counsel (HCC), (202) 366–1371, Federal Highway Administration, 400 Seventh Street SW., Washington, DC 20590. e-mail: reid.alsop@fhwa.dot.gov. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION: Titles 23 and 49 of the United States Code (23 U.S.C. 134 (i), and 49 U.S.C. 5305, respectively) require the Secretary of Transportation to designate urbanized areas over 200,000 population as Transportation Management Areas

(TMAs). A number of Census Bureau defined areas across the United States have recently exceeded 200,000 in population as determined by the 2000 Census. Accordingly, this notice hereby designates such areas as TMAs. Designated TMAs are subject to special planning and programming requirements. The FTA and the FHWA have developed a series of "Questions and Answers" related to applying 2000 Census data to Urbanized and Urban areas in the FTA and FHWA planning processes. More information can be found at http://www.fhwa.dot.gov/ planning/census/faqa2cdt.htm or http:// www.fta.dot.gov/library/planning/ census/qa.html. These requirements apply to the metropolitan planning area that must be determined jointly under 23 U.S.C. 134(c), and 49 Ú.S.C 5303(d).

Additional areas shall be designated as TMAs upon request of the Governor and the MPO or affected local officials. Notification of any additional TMAs will be issued through a Secretarial Memorandum to the appropriate State Governors and MPOs, not as a notice published in the **Federal Register**. The UZAs with populations over 200,000, which are hereby designated as TMAs, are listed below. Three areas were

previously designated TMAs at Gubernatorial request; Santa Barbara, California; Southern New Jersey, New Jersey; and Petersburg, Virginia. Of these three areas, only Santa Barbara, California did not meet the statutory population threshold for formal designation. However, Santa Barbara continues to be designated as a TMA as a result of the previous request.

There have been significant changes in the Census 2000 universe of urbanized areas from those defined, based on the 1990 census and criteria. These changes include new areas, areas formed by splits or mergers, name changes, and areas with significant boundary changes.

For multi-state urbanized areas over 200,000 population, the urbanized area is listed under the State with the largest share of the population. However, the TMA designation applies to the entire multi-state urbanized area. Montgomery, Alabama was previously designated a TMA, but fell below 200,000 in population and thus no longer meets the minimum population threshold to be classified as a TMA and is not included in the list of TMAs. Lorain-Elyria, Ohio was also previously designated as a TMA but is not included in the current

list, since its Census designated population no longer meets the 200,000 threshold after a portion of the area has been absorbed by another, larger TMA (Cleveland).

The Census Bureau defined the Census 2000 urbanized areas using the criteria published in the **Federal** Register on March 15, 2002 (67 FR 11663). As a result of using these definitions, there were significant changes in the Census 2000 universe of urbanized areas from those defined, based on the 1990 census and criteria. A detailed description of the terminology and changes noted in the column entitled "Area Comparison to 1990 Census TMAs" is presented in the Census Bureau's notice of "Qualifying Urban Areas for Census 2000" in the Federal Register on May 1, 2002 (67 FR

Authority: 23 U.S.C. 315; 23 U.S.C. 134(i), 49 U.S.C. 5305, 49 CFR 1.48 and 1.51.

Issued on: July 1, 2002.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA 2002-11420, Notice 2]

DaimlerChrysler Corporation, Inc., Grant of Application for Decision of Inconsequential Noncompliance

DaimlerChrysler Corporation, Inc., (DaimlerChrysler) has determined that approximately 28,265 of its model year 2002 RS vehicles (Dodge and Chrysler mini-vans) do not meet the labeling requirements of paragraph S5.3 of Federal Motor Vehicle Safety Standard (FMVSS) No. 120 "Tire Selection and Rims for Motor Vehicles Other than Passenger Cars." Pursuant to 49 U.S.C. 30118(d) and 30120(h), DaimlerChrysler

has petitioned for a determination that this noncompliance is inconsequential to motor vehicle safety and has filed an appropriate report pursuant to 49 CFR section 573, "Defect and Noncompliance Reports."

Notice of receipt of the application was published, with a 30-day comment period, on February 6, 2002, in the **Federal Register** (67 FR 5640). NHTSA received no comments.

DaimlerChrysler determined that the rim size was inadvertently omitted from the tire size designation included on the certification label affixed to 28,265 of its model year 2002 RS vehicles. The recommended tire size designation for these vehicles is P215/65R16. Due to an error in the printing process, the rim size designation number, specifically the number 16, was inadvertently omitted from the certification label. As a result, the recommended tire size designation on the vehicle's certification

label reads as "P215/65R," rather than "P215/65R16."

DaimlerChrysler believes that the noncompliance is inconsequential to motor vehicle safety for several reasons. First, the noncompliant 2002 RS vehicles were constructed with P215/ 65R16 tires. DaimlerChrysler believes that most vehicle owners, dealers, and tire service technicians would refer to the vehicles' existing tires (specifically P215/65 R16 tires) to determine the appropriate size for a replacement tire rather than to the certification label. Second, the certification label lists the complete designated rim size, including the rim diameter, appropriate for the P215/65 R16 tires.

The agency believes the true measure of inconsequentiality with respect to the noncompliance with FMVSS No. 120, paragraph S5.3, is whether the tire rim size information is indicated to the consumer on the certification label. Normally, both the tire size and rim
