<input type="checkbox"/> b. High Occupancy HA: five or fewer vacant units after Modernization Adjustment	→ Use line 41 for the Projected Occupancy Percentage on Part B, line 11 of form HUD-52723

**Part I. Adjustment for Long Term Vacancies** If the HA estimates that it will have a vacancy percentage of more than 3% for its RBY and more than five vacant units after adjusting for vacant units undergoing modernization and vacancies beyond its control, the HA will exclude all of its long-term vacancies (if any) from its count of units available for occupancy and use this section to determine its projected occupancy percentage.

60. Total Long-term Vacancies (Subtract vacant units shown on lines 21, 26a, and b from line 12. Analyze remaining vacancies and identify those units that have been vacant for more than 12 months as of the Report Date.)	
61. Unit Months of Vacancy Associated With Long-Term Vacancies (Multiply line 60 by 12)	
62. Total Unit Months Available for Occupancy in RBY Adjusted for Long-Term Vacancies (Subtract line 61 from line 31(c)) Use this UMA number in all other PFS calculations.

64. Average Number of Vacant Units in RBY after All Adjustments (Subtract line 60 from line 58)	
65. Total Unit Months of Vacancy in RBY after All Adjustments (Subtract line 61 from line 56)	
66. Vacancy Percentage for RBY Adjusted for Long-Term Vacancies (Divide line 65 by line 62; multiply by 100 and round to nearest whole)	%
67. If the result on line 63 is 97% or higher or if the result on line 64 is five or less or if the result on line 66 is 3% or less, then check the appropriate box below. You have completed the form and do not need to proceed further.	
<b>Stop &amp; Note</b> <input type="checkbox"/> a. High Occupancy HA: Occupancy Percentage is 97% or higher for the RBY after Long-Term Vacancies Adjustment	→ Use 97% as the Projected Occupancy Percentage on Part B, line 11 of form HUD-52723. <b>Use the UMA result on line 62 in calculating PFS eligibility.</b>
<input type="checkbox"/> b. High Occupancy HA: Five or fewer vacant units after Adjustment for Long-Term Vacancies	→ Use line 63 as the Projected Occupancy Percentage on Part B, line 11 of form HUD-52723. <b>Use the UMA result on line 62 in calculating PFS eligibility.</b>
<input type="checkbox"/> c. High Occupancy HA: Vacancy Percentage is 3% or lower for the RBY after Long-Term Vacancies Adjustment	→ Use line 63 as the Projected Occupancy Percentage on Part B, line 11 of form HUD-52723. <b>Use the UMA result on line 62 in calculating PFS eligibility.</b>

**Part J. Projected Occupancy Percentages for Low Occupancy HAs** If the HA cannot determine an acceptable Projected Occupancy Percentage for the RBY using the above approach, it will use this section. The HA will use the lower of either 97% or that percentage based on having five units vacant for the RBY. Either percentage can be adjusted for vacant units undergoing modernization construction and vacancies beyond its control. Small HAs of 140 units or less will generally want to use a percentage based on five vacant units.

68. Enter 97% if HA has more than 140 units. If 140 or fewer units, determine occupancy percentage based on 5 vacant units, for RBY. (Take 60 unit months and divide by line 62; multiply by 100 and round to nearest whole. Subtract result from 100%)	%
69. Percentage Adjustment for Modernization and Beyond Control Vacancies (Add lines 48 plus 55; divide that sum by line 62; multiply by 100 and round to nearest whole)	%
70. Projected Occupancy Percentage for Low Occupancy HA (Take the percentage on line 68 and subtract the percentage shown on line 69. Use the result as the Projected Occupancy Percentage on Part B, line 11 of form HUD-52723. <b>Use the UMA result on line 62 in calculating PFS eligibility</b> )	%

Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

### Instructions for Preparing Form HUD-52728, HA Calculation of Occupancy Percentage for a Requested Budget Year (RBY)

The purpose of this form is to provide a structured format for Public Housing Authorities (PHAs), Indian Housing Authorities (IHAs), and, if applicable, Resident Management Corporations (RMCs) to use in developing an appropriate and justifiable projection of occupancy for the RBY. The projected occupancy percentage that is developed will be used as one element in the calculation of operating subsidy under the Performance Funding System (PFS), 24 CFR Parts 950 and 990, as applicable. The term Housing Authority (HA) will be used to collectively describe both PHAs and IHAs. The form is **not** for use by HAs requesting operating subsidy solely to cover the cost of an Independent Audit (IA).

The instructions should be read carefully since it may not be necessary for a HA to complete all sections of the form in order to determine an acceptable projected occupancy percentage for the RBY. The form has been designed to go from the most simple situation to the relatively more complex cases. If, at any point, an HA is able to classify itself as a High Occupancy HA, it does not need to proceed further with the form.

#### Headings:

**RBY Beginning.** Enter the beginning month, day and year of the requested budget year for which this form is submitted.

**Type of Submission.** Indicate whether this form is (1) the original submission for the RBY or (2) a revision of the latest approval for the subject fiscal year. If a revision, enter the revision number.

**ACC Number.** Enter the number of the Annual Contributions Contract (ACC) covering the projects for which this form is submitted.

**PAS/LOCCS Project No.** Enter the PAS/LOCCS Project Number applicable to the corresponding Calculation of Performance Funding System Operating Subsidy, form HUD-52723.

**Report Date.** Enter the date of the occupancy data collected to determine the actual occupancy percentage. **Unless otherwise approved by HUD,** that date will be the last day of the month ending six months before the start of the HA's RBY or the monthly average for the month ending six months before the start of its budget year. Check whether actual day data was used or an average was constructed using actual data for the month.

**Data Source.** Indicate the data source used to calculate the actual occupancy percentage.

#### Part A. Actual Occupancy Data as of Report Date

Using actual occupancy data as of the Report Date, an HA will determine its actual occupancy percentage and number of vacant units. For many HAs, this will be the only section that will need to be completed.

#### Part B. Distribution of Actual Vacancies By Major Cause

This part allows the HA to present data and supporting narrative on the number of units that are vacant for reasons that are beyond the control of the HA to correct. For a further description of allowable reasons, please refer to § 990.102 and the definition of units vacant due to circumstances and actions beyond the HA's control.

#### Part C. Status of Units Undergoing Modernization

Data in this part will be used in determining the occupancy percentage for the RBY. If the RBY occupancy percentage is less than 97% and HA will have more than five vacant units, data from this part will be used in Part G to determine if the RBY occupancy percentage is justified. Report occupied units, as appropriate, on lines 26a., 26b., and 27, if they will be subsequently

vacated in order for construction work to be performed and then reoccupied upon completion. If changes occur after the Report Date but prior to the submission of this form, the most current status will be shown.

**Line 26.** Enter data on the number of protected units, both vacant and occupied, as of the Report Date, which may fall into two categories: (a) the number of units that are under construction (contract awarded or force account work started); or (b) the number of units not under construction contract but included in a HUD-approved modernization budget where the time period for placing the units under construction (two Federal Fiscal Years (FFYs) after the FFY of approval) has not yet expired.

**Line 27.** Enter data on the number of unprotected units, both vacant and occupied, as of the Report Date, which are the number of units included in a HUD-approved modernization budget where the time period for placing the units under construction (two FFYs after FFY of approval) has expired and the units are not yet under construction. Note: When such units subsequently reach construction, they will become protected units. If a change in status occurs after the initial subsidy calculation has been approved, an HA may recalculate its subsidy eligibility as part of its year-end adjustments.

#### Part D. Units Estimated to be Available for Occupancy During RBY

Data which is entered on **line 29** or **line 30** must only reflect actions that have been approved by HUD, including approvals made after the Report Date but prior to the submission of this form. If there are pending applications for HUD approval of actions that would increase or decrease the number of units available for occupancy at the time of submission, that data will be excluded.

#### Part E. Units Estimated to be Occupied During RBY

**Line 33.** Use this line to show the number of units on line 29. (if any) that will be occupied during the RBY.

**Line 34.** Use this line to show the number of units on line 21. (if any) that will be occupied during the RBY.

**Line 35.** Use this line to show the number of vacant units on lines 26a and 26b. (if any) that will be reoccupied during the RBY.

**Line 36.** Use this line to show the number of occupied units on lines 26a, 26b, and 27. (if any) that will be vacated during the RBY.

**Line 37.** Use this line to show the number of units on line 30. (if any) that will be vacated during the RBY.

#### Part G. Vacancy Percentage for RBY Adjusted for Modernization

Note that this section deals with units that meet the definition of being vacant units undergoing modernization. The units must be under construction and on-schedule or funded for construction with the time period (two-year maximum after award) for fund obligation not expiring.

#### Part I. Adjustment for Long Term Vacancies

Note that if this section is used, the HA will be recalculating its Unit Months Available (UMAs) to exclude long-term vacancies and must use the recalculated result in its determination of PFS eligibility. If the UMAs for occupancy have been adjusted for long term vacancies, the unit months associated with those vacancies, line 61, shall be multiplied by 20% of the AEL (Part A, line 8 of the HUD-52723 prepared for RBY) and the result displayed on Part D, line 7 of the HUD-52723.
