[Project No. 11566-000]
- Ridgewood Main Hydro Partners, L.P.; Notice Modifying a Restricted Service List for Comments on a Programmatic Agreement for Managing Properties Included in or Eligible for Inclusion in the National Register of Historic Places**
- July 10, 2002.
- On October 18, 2001, the Federal Energy Regulatory Commission (Commission) issued a notice for the Damariscotta Mills Hydroelectric Project (FERC No. 11566-000) proposing to establish a restricted service list for the purpose of developing and executing a Programmatic Agreement for managing properties included in or eligible for inclusion in the National Register of Historic Places. On February 7, 2002, the Commission issued a notice

modifying the restricted service list in order to include representatives of the Towns of Nobleboro, Jefferson, and Newcastle, and Land & Water Associates. The Damariscotta Mills Hydroelectric Project is located on the Damariscotta River, in Lincoln County, Maine. Ridgewood Maine Hydro Partners, L.P. is the licensee.

Rule 2010 of the Commission's Rules of Practice and Procedure provides that, to eliminate unnecessary expense or improve administrative efficiency, the Secretary may establish a restricted service list for a particular phase or issue in a proceeding.¹ The restricted service list should contain the names of persons on the service list who, in the judgment of the decisional authority establishing the list, are active participants with respect to the phase or issue in the proceeding for which the list is established.

As a result of Commission notice issued July 1, 2002, the following two additions are made to the restricted service list notice issued on October 18, 2001, for Project No. 11566-000:

Jim Kardatzke, Bureau of Indian Affairs, ERO, 711 Stewards Ferry Pike, Nashville, TN 37214.

Franklin Keel, Director, Bureau of Indian Affairs, ERO, 711 Stewards Ferry Pike, Nashville, TN 37214.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7246-5]

Agency Information Collection Activities: Proposed Collection; Comment Request; Clean Water Act Section 404 State-Assumed Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): Clean Water Act Section 404 State-Assumed Programs; OMB No. 2040-0168; EPA No. 0220.08; expiration date January 31, 2003. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before September 16, 2002.

ADDRESSES: Comments should be sent to Lori Williams, at US Environmental Protection Agency, Wetlands Division (4502T), 1200 Pennsylvania Avenue NW, Washington, DC 20460 or williams.lorraine@epa.gov. Interested persons may obtain a copy of the ICR without charge by contacting the person identified above and referencing the EPA ICR Number, 0220.08, or by downloading a copy off the Internet at <http://www.epa.gov/icr>.

FOR FURTHER INFORMATION CONTACT: Lori Williams by phone at 202-566-1376; by facsimile at 202-566-1375; or by email at williams.lorraine@epa.gov.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are those State/Tribes requesting assumption of the Clean Water Act Section 404 permit program; States/Tribes with approved assumed programs; and permit applicants in States or Tribes with assumed programs.

Title: Section 404 State-Assumed Programs; OMB No. 2040-0168; EPA No. 0220.08; expiration date January 31, 2003.

Abstract: Section 404(g) of the Clean Water Act authorizes States [and Tribes] to assume the Section 404 permit program. States/Tribes must demonstrate that they meet the statutory and regulatory requirements (40 CFR part 233) for an approvable program. Specified information and documents must be submitted by the State/Tribe to EPA to request assumption. Once the required information and documents are submitted and EPA has a complete assumption request package, the statutory time clock for EPA's decision to either approve or deny the State/Tribe's assumption request starts. The information contained in the assumption request is made available to the other involved Federal agencies (Corps of Engineers, Fish and Wildlife Service, and National Marine Fisheries Service) and to the general public for review and comment.

States/Tribes must be able to issue permits that comply with the 404(b)(1) Guidelines, the environmental review criteria. States/Tribes and the reviewing Federal agencies must be able to review proposed projects to evaluate and/or minimize anticipated impacts. EPA's assumption regulations establish recommended elements that should be included in the State/Tribe's permit application, so that sufficient information is available to make a thorough analysis of anticipated impacts. These minimum information requirements are based on the information that must be submitted when applying for a Section 404 permit from the Corps of Engineers.

EPA is responsible for oversight of assumed programs to ensure that State/Tribal programs are in compliance with applicable requirements and that State/Tribal permit decisions adequately consider and minimize anticipated impacts. States/Tribes must evaluate their programs annually and submit the results in a report to EPA. EPA's assumption regulations establish minimum requirements for the annual report. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

¹ 18 CFR 385.2010.
