DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WO-320-1990-PB-24 1A]

Extension of Approved Information Collection, OMB Approval Number 1004-0194

AGENCY: Bureau of Land Management,
Interior.

ACTION: Notice and request for
comments.

SUMMARY: In accordance with the
Paperwork Reduction Act of 1995, the
Bureau of Land Management (BLM)
request the Office of Management and
Budget (OMB) to extend an existing
approval to collect information to
ensure operators and mining claimants
meet their responsibilities while
conducting exploration, mining, and
reclamation work on public lands. BLM
uses Forms 3809-1, 3809-2, and 3809-
4 to collect financial guarantee bond
information for surface management
activities. The nonform information
under 43 CFR 3809 authorizes operators
and mining claimants to perform surface
management activities under the
General Mining Law.

DATES: You must submit your comments
to BLM at the address below on or
before September 30, 2002. BLM will
not necessarily consider any comments
received after the above date.

ADDRESSES: You may mail comments to:
Regulatory Affairs Group (WO-630),
Eastern States Office, 7450 Boston Blvd.,
Springfield, Virginia 22153.

You may send comments via Internet
to: WOCComment@blm.gov. Please
include "ATTN: 1004-0194" and your
name and address with your comments.

You may deliver comments to the
Bureau of Land Management,
Administrative Record, Room 401, 1620
L Street, NW, Washington, DC.

Comments will be available for public
review at the L Street address during
regular business hours (7:45 a.m. to 4:15
p.m.) Monday through Friday.

FOR FURTHER INFORMATION CONTACT: You
may contact Rick Deery, Solid Minerals
Group, on (202) 452-0353 (Commercial
or FTS). Persons who use a

telecommunication device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) on 1-800-877-8330, 24 hours a day, seven days a week, to contact Mr. Deery.

SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires that we provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) Ways to enhance the quality, utility, and clarity of the information collected; and

(d) Ways to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Under the General Mining Law, a citizen may enter onto public domain lands that are subject to the law to prospect and explore for valuable mineral deposits. They may do so without seeking the government's permission beforehand. The rights to a deposit of a valuable mineral are granted through the act of discovering the mineral deposit. After making a discovery, a prospector may choose to locate and record a mining claim to protect investments in exploration and to have a secure tenure to discovered valuable mineral deposits. Locating a mining claim is not a prerequisite for conducting operations on the public lands, nor is it even a requirement for carrying out mining operations. BLM uses the regulations at 43 CFR 3809 to govern hardrock mineral exploration and development on the public lands and Federal interests in the lands. The hardrock minerals are subject to the provisions of the 1872 General Mining Law (30 U.S.C. 22, *et seq.*, as amended).

BLM collects nonform information on surface management activities from mining claimants and operators.

Information collection for surface mgmt activities	Estimated hours
Notice Level Activities:	
1. Small exploration operations	16
2. Medium scale exploration operations	48
Plan Level Activities:	
3. Small placer operation ..	80
4. Placer mine operations	160

Information collection for surface mgmt activities	Estimated hours
5. Industrial mineral operations	160
6. Small underground mine	160
7. Open pit mine operations	480
8. NEPA compliance:	
Exploration	320
EA-level mines, simple320.	
EA-level mines, standard	890
EIS-level mines	2,480
9. Section 106 of NHPA	30

You must submit the requested information and forms to the proper BLM office. BLM uses Form 3809-1—Surface Management Surety Bond Form, 3809-2—Surface Management Personal Bond Form, and 3809-4—Generalized Bond Rider Form for submitting financial guarantee on surface management activities.

Based on BLM's experience administering this program, we estimate the public reporting burden is 8 minutes each to complete Forms 3809-1, 3809-2 and 3809-4. These estimates include the time spent on research, gathering, and assembling information, reviewing instructions, and completing the respective forms. In FY 2000, BLM estimated 1,897 surface management activity responses are filed annually, with a total annual burden of 306,536 hours. Respondents vary from individuals and small businesses to large corporations.

Any member of the public may request and obtain, without charge, a copy of BLM Forms 3809-1, 3809-2, and 3809-4 by contacting the person identified under **FOR FURTHER INFORMATION CONTACT**.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of a public record.

Dated: July 23, 2002.

Michael H. Schwartz,

Bureau of Land Management, Information Collection Clearance Officer.
