

Notices

Federal Register

Vol. 67, No. 158

Thursday, August 15, 2002

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Foreign Agricultural Service

Assessment of Fees for Dairy Import Licenses for the 2003 Tariff-Rate Import Quota Year

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Notice.

SUMMARY: This notice announces that the fee to be charged for the 2003 tariff-rate quota (TRQ) year for each license issued to a person or firm by the Department of Agriculture authorizing the importation of certain dairy articles which are subject to tariff-rate quotas set forth in the Harmonized Tariff Schedule of the United States (HTS) will be \$170.00 per license.

EFFECTIVE DATE: January 1, 2003.

FOR FURTHER INFORMATION CONTACT: Michael Hankin, Dairy Import Quota Manager, Import Policies and Programs Division, STOP 1021, U.S. Department of Agriculture, 1400 Independence Avenue, SW., Washington, DC 20250-1021 or telephone at (202) 720-9439 or e-mail at Michael.Hankin@fas.usda.gov.

SUPPLEMENTARY INFORMATION: The Dairy Tariff-Rate Import Quota Licensing Regulation promulgated by the Department of Agriculture and codified at 7 CFR 6.20-6.37 provides for the issuance of licenses to import certain dairy articles which are subject to TRQs set forth in the HTS. Those dairy articles may only be entered into the United States at the in-quota TRQ tariff rates by or for the account of a person or firm to whom such licenses have been issued and only in accordance with the terms and conditions of the regulation.

Licenses are issued on a calendar year basis, and each license authorizes the license holder to import a specified quantity and type of dairy article from a specified country of origin. The use of licenses by the license holder to import dairy articles is monitored by the Dairy

Import Quota Manager, Import Policies and Programs Division, Foreign Agricultural Service, U.S. Department of Agriculture, and the U.S. Customs Service.

The regulation at 7 CFR 6.33(a) provides that a fee will be charged for each license issued to a person or firm by the Licensing Authority in order to reimburse the Department of Agriculture for the costs of administering the licensing system under this regulation.

The regulation at 7 CFR 6.33(a) also provides that the Licensing Authority will announce the annual fee for each license and that such fee will be set out in a notice to be published in the **Federal Register**. Accordingly, this notice sets out the fee for the licenses to be issued for the 2003 calendar year.

Notice

The total cost to the Department of Agriculture of administering the licensing system during 2002 has been determined to be \$441,700 and the estimated number of licenses expected to be issued is 2,600. Of the total cost, \$214,000 represents staff and supervisory costs directly related to administering the licensing system for 2002; \$50,500 represents the total computer costs to monitor and issue import licenses for 2002; and \$177,200 represents other miscellaneous costs, including travel, postage, publications, forms, and ADP system contractors.

Accordingly, notice is hereby given that the fee for each license issued to a person or firm for the 2003 calendar year, in accordance with 7 CFR 6.33, will be \$170.00 per license.

Issued at Washington, DC the 8th day of August, 2002.

Michael Hankin,

Licensing Authority.

DEPARTMENT OF INTERIOR

Bureau of Land Management

Notice of Intent; Northern Rockies Lynx Amendments

AGENCY: Forest Service, USDA, lead agency; Bureau of Land Management, USDI, cooperating agency.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service and Bureau of Land Management (BLM) have decided to prepare an Environmental Impact Statement (EIS) on a proposal to amend land use/land management plans to incorporate management direction for the Canada lynx for national forests and BLM units within the northern Rocky Mountain area.

A scoping notice for the preparation of an Environmental Assessment was published in the **Federal Register**, September 11, 2001, Vol. 66, No. 176, page 47161. Based on the level of interest expressed during scoping, the Responsible Officials have decided to prepare an EIS. The comments received during the scoping process for the Environmental Assessment will be used in preparation of the EIS; therefore scoping will not be reinitiated.

DATES: The Forest Service and BLM expect the Draft EIS to be released for public, agency, and tribal government comment in the late summer/early fall of 2002, with a Final EIS and associated decision documents expected early in 2003. Information regarding public meetings on the Draft EIS will be posted on the Internet at <http://www.fs.fed.us/r1/planning/lynx.html> and sent to people who commented during scoping or asked to be on the mailing list.

ADDRESSES: Send written comments to Northern Rockies Lynx Amendment, Attn: Jon Haber, Project Manager, Northern Region Headquarters, PO BOX 7669, Missoula, MT 59807.

FOR FURTHER INFORMATION CONTACT: Marcia Hogan, Public Affairs Officer, (406) 329-3300. Information regarding lynx and the planning process can also be found at <http://www.fs.fed.us/r1/planning/lynx.html>.

SUPPLEMENTARY INFORMATION: A scoping notice for the preparation of an Environmental Assessment was published in the **Federal Register**, on September 11, 2001, Vol. 66, No. 176, page 47161. The notice described the land areas involved, background information, purpose and need, proposed action, decision framework, responsible officials, public involvement, preliminary issues, and estimated dates for filing the environmental document, as well as the reviewer's obligation to comment.

The notice stated that the scoping process would be used to evaluate whether or not an EIS is warranted. It further stated, "If an EIS is warranted then written comments resulting from this notice will be used to determine the scope of alternatives and effects in the EIS."

Based on the level of interest expressed during scoping, the Responsible Officials have decided to prepare an EIS. The comments received during the scoping process for the Environmental Assessment will be used in preparation of the EIS; therefore scoping will not be reinitiated. Several alternatives will be considered in the EIS, including the no action alternative. The action alternatives are designed to accomplish the purpose and need as stated in the September 11, 2002, **Federal Register** scoping notice: "To establish management direction that conserves and promotes recovery of the Canada lynx by reducing or eliminating adverse effects from land management activities on these national forests and BLM lands, while preserving the overall multiple-use direction in existing plans," and "to achieve the stated purpose, the selected amendment must provide a level of lynx conservation and recovery comparable to the Lynx Conservation Assessment Strategy." The primary issues include: the agencies' ability to adapt management to new information; scale to which some standards apply; limits on precommercial thinning; limit of salvage less than five acres; effect on winter recreation special use permits and agreements from requiring no-net-increase of groomed or designated routes; and the effect of road guidelines on upgrading of the transportation system. Written comments on the range of alternatives and their effects will be requested and considered when the Draft EIS is released.

The national forests and BLM units and their associated plans included in this amendment are shown below. The **Federal Register** notice prepared for scoping said that 18 land and resource management plans for national forests

in Idaho, Montana, Utah and Wyoming, and 18 BLM land use plans in Idaho and Utah would be amended. This notice corrects that information. There are 20 land and resource management plans that would be amended on 18 National Forests and 9 BLM land use plans that would be amended on 9 BLM Field Offices. Some of the forests have been consolidated, but retain the plans for the original forest. The number of BLM plans has been modified based on additional review of lynx habitat on BLM lands.

NATIONAL FORESTS AND ASSOCIATED LAND MANAGEMENT PLANS

Region 1:	
Bitterroot	Bitterroot Forest Plan
Beaverhead-Deerlodge	Beaverhead Forest Plan,
Clearwater	Deerlodge Forest Plan
