

III. Definition of Forced/Indentured Child Labor

Under Section 6c of Executive Order 13126—

Forced or indentured child labor means all work or service—

(1) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or

(2) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.

IV. Information Sought

The Department is requesting information about the specific child labor incident described above or any other similar incidents where children have been forced to manufacture fireworks in China as well as efforts made by the Government of China to address this problem.

This notice is a general solicitation of comments from the public. All submitted comments will be made a part of the record of the review referred to above and will be available for public inspection.

Signed at Washington, DC, this 15th day of August, 2002.

Thomas B. Moorhead,

Deputy Under Secretary for International Labor Affairs.

[TA–W–40,609, TA–W–40,609A, TA–W–40,609B, TA–W–40,609C, and TA–W–40,609D]

Leybold Vacuum USA, Inc.; Export, Pennsylvania, Tempe, Arizona, Milwaukee, Oregon, Austin, Texas, San Jose, California; Amended Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on June 12, 2002, applicable to workers of Leybold Vacuum USA, Inc., Export, Pennsylvania. The notice was published in the **Federal Register** on June 24, 2002 (67 FR 42583).

At the request of the petitioners, the Department reviewed the certification

for workers of the subject firm. New information shows that worker separations occurred at the Tempe, Arizona, Milwaukee, Oregon, Austin, Texas and San Jose, California locations of Leybold Vacuum USA, Inc. These employees provided sales and direct field support services supporting the production of dry vacuum pumps and other pumps at the Export, Pennsylvania location of the subject firm.

Based on these findings, the Department is amending this certification to include employees of the Tempe, Arizona, Milwaukee, Oregon, Austin, Texas and San Jose, California facilities of Leybold Vacuum USA, Inc.

The intent of the Department's certification is to include all workers of Leybold Vacuum USA, Inc. who were adversely affected by increased imports.

The amended notice applicable to TA–W–40,609 is hereby issued as follows:

All workers of Leybold Vacuum USA, Inc., Export, Pennsylvania (TA–W–40,609), Tempe, Arizona, (TA–W–40,609A), Milwaukee, Oregon (TA–W–40,609B), Austin, Texas (TA–W–40,609C) and San Jose, California (TA–W–40,609D) who became totally or partially separated from employment on or after December 7, 2000, through June 12, 2004, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC this 15th day of August, 2002.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

[NAFTA–6022]

Motorola, SDS, BMC, Mesa, Arizona; Notice of Termination of Investigation

Pursuant to Title V of the North American Free Trade Agreement Implementation Act (P.L. 103–182) concerning transitional adjustment assistance, hereinafter called (NAFTA–TAA), and in accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 USC 2273), an investigation was initiated on March 25, 2002, in response to a petition filed on behalf of workers at Motorola, SDS, BMC, Mesa, Arizona.

The petition has been deemed invalid. The three petitioners were separated from the subject firm more than one

year prior to the date of the petition. Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed in Washington, DC this 13th day of August 2002.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

BILLING CODE 4510–30–P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Proposed Information Collection Request, Submitted for Public Comment and Recommendations; Preparation and Maintenance of Accurate and Up-to-date Certified Mine Maps for Surface and Underground Coal Mines; Submittal of Underground Mine Closure Maps; and, Notification of MSHA Prior to Opening New Mines or the Reopening of Inactive or Abandoned Mines

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to the Record of Mine Closure addressed in 30 CFR 75.1204 and 75.1204–1; the inclusion of standards requiring MSHA notification and inspection prior to mining when opening a new mine or reopening an inactive or abandoned mine addressed in 30 CFR 75.373 and 75.1721; and, the inclusion of standards requiring underground and surface mine operators to prepare and maintain accurate and up-to-date mine maps addressed in 30 CFR 75.1200, 75.1200–1, 75.1201, 75.1202, 75.1202–1, 75.1203, 75.372, 77.1200, 77.1201 and 77.1202.

MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request can be obtained by contacting the employee listed below in the For Further Information Contact section of this notice, or viewed on the Internet by accessing the MSHA home page (<http://www.msha.gov>) and then choosing "Statutory and Regulatory Information" and "Federal Register Documents."

DATES: Submit comments on or before October 21, 2002.

ADDRESSES: Send comments to David . Meyer, Director, Administration and Management, 1100 Wilson Boulevard, Room 2125, Arlington, VA 22209-3939. Commenters are encouraged to send their comments on a computer disk, or via Internet E-mail to *Meyer-David@msha.gov*, along with an original printed copy. Mr. Meyer can be reached at (202) 693-9802 (voice), or (202) 693-9801 (facsimile).

FOR FURTHER INFORMATION CONTACT: Jane E. Tarr, Management Analyst, Records Management Group, U.S. Department of Labor, Mine Safety and Health Administration, Room 2171, 1100 Wilson Boulevard, Arlington, VA 22209-3939. Ms. Tarr can be reached at *Tarr-Jane@msha.gov* (Internet E-mail), (202) 693-9824 (voice), or (202) 693-9801 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Title 30 CFR 75.1200, 75.1200-1, 75.1201, 75.1202, 75.1202-1, and 75.1203 require underground coal mine operators to have in a fireproof repository in an area on the surface of the mine chosen by the mine operator to minimize the danger of destruction

by fire or other hazards, an accurate and up-to-date map of such mine drawn on scale. These standards specify the information which must be shown, the range of acceptable scale, the surveying technique or equivalent accuracy required of the surveying which must be used to prepare the map, that the maps must be certified as accurate by a registered engineer or surveyor, that the maps must be kept continuously up-to-date by temporary notations and must be revised and supplemented to include the temporary notations at intervals not more than 6 months. In addition, the mine operator must provide the MSHA District Manager a copy of the certified mine map annually during the operating life of the mine. These maps are essential to the planning and safe operation of the mine. In addition, these maps provide a graphic presentation of the locations of working sections and the locations of fixed surface and underground mine facilities and equipment, escapeway routes, coal haulage and man and materials haulage entries and other information essential to mine rescue or mine fire fighting activities in the event of mine fire, explosion or inundations of gas or water. The information is essential to the safe operation of adjacent mines and mines approaching the worked out areas of active or abandoned mines. Section 75.372 requires underground mine operators to submit three copies of an up-to-date mine map to the District Manager at intervals not exceeding 12 months.

Title 30 CFR 75.1204 and 75.1204-1 require that whenever an underground coal mine operator permanently closes or abandons a coal mine, or temporarily closes a coal mine for a period of 90 days, the operator shall file with MSHA a copy of the mine map revised and supplemented to the date of closure. Maps are retained in a repository and are made available to mine operators of adjacent properties. The maps are necessary to provide an accurate record of underground areas that have been mined to help prevent active mine operators from mining into abandoned areas that may contain water or harmful gases.

Title 30 CFR 77.1200, 77.1201 and 77.1202 require surface coal mine operators to maintain an accurate and up-to-date map of the mine and specified the information to be shown on the map, the acceptable range of map scales, that the map be certified a registered engineer or surveyor, that the be available for inspection by the Secretary or his authorized representative. These maps are essential for the safe operation of the mine and

provide essential information to operators of adjacent surface and underground mine operators. Properly prepared effectively utilized surface mine maps can prevent outbursts of water impounded in underground mine workings and/or inundations of underground mines by surface impounded water or water and or gases impounded in surface auger mining worked out areas.

Title 30 75.373 and 75.1721 require that after a mine is abandoned or declared inactive and before it is reopened, mine operations shall not begin until MSHA has been notified and has completed an inspection. Standard 75.1721 specifies that the notification be in writing and lists specific information, preliminary arrangements and mine plans which must be submitted to the MSHA District Manager.

II. Current Actions

Mine operators are required to conduct surveying such that mine maps are maintained accurate and up-to-date, the maps must be revised every 6 months and certified accurate by a registered engineer or surveyor and to submit copies of the certified underground maps to MSHA annually and an up-to-date and revised mine closure map whenever an operator permanently closes or abandons a coal mine, or temporarily closes a coal mine for a period of more than 90 days, he or she shall promptly notify the Secretary of such closure.

In addition, mine operators must notify MSHA so that an inspection can be conducted when ever a new mine is opened or a previously abandoned or inactive mine is reopened. The information required to be gathered and recorded on mine maps is essential to the safe operation of the mine and essential to the effectiveness of mandatory inspections and mandated mine plan approval by MSHA. Such information cannot be replaced by any other source and anything less than continuously updated and accurate information would place miner's safety at risk.

The information collected through the submittal of mine closure maps is used by operators of adjacent coal mines when approaching abandoned underground mines. The abandoned mine could be flooded with water or contain explosive amounts of methane or harmful gases. If the operator were to mine into such an area, unaware of the hazards, miners could be killed or seriously injured. In addition, it is in the public interest to maintain permanent records of the locations, extent of workings and potential hazards

associated with abandoned mines. The public safety can be adversely affected by future land usage where such hazards are not known or inaccurately assessed. MSHA collects the closure maps and provides those documents to the Office of Surface Mining, Reclamation & Enforcement for inclusion in a repository of abandoned mine maps. Therefore, MSHA is continuing the certification and application of 30 CFR 75.1204 to assure the required information remains available for the protection of miner's and public safety. In addition, MSHA has added the burden hours and cost estimates for standards which address the preparation and maintenance of certified mine maps for surface and underground coal mines and the notification of MSHA prior to the opening on new coal mines or the

reopening of inactive or abandoned mines.

Type of Review: Reinstatement.
Agency: Mine Safety and Health Administration.

Title: Preparation and Maintenance of Accurate and Up-to-date Certified Mine maps for Surface and Underground Coal Mines; Submittal of Underground Mine Closure Maps; and, Notification of MSHA Prior to Opening New Mines or the Reopening of Inactive or Abandoned Mines.

OMB Number: 1219-0073.

Recordkeeping: Mine operators are required conduct surveying such that mine maps are maintained accurate and up-to-date, the maps must be revised every 6 months and certified accurate by a registered engineer or surveyor and to submit copies of the certified underground maps to MSHA annually and an up-to-date and revised mine closure map whenever an operator

permanently closes or abandons a coal mine, or temporarily closes a coal mine for a period of more than 90 days, he or she shall promptly notify the Secretary of such closure.

In addition, mine operators must notify MSHA so that an inspection can be conducted when ever a new mine is opened or a previously abandoned or inactive mine is reopened. The information required to be gathered and recorded on mine maps is essential to the safe operation of the mine and essential to the effectiveness of mandatory inspections and mandated mine plan approval by MSHA. Such information cannot be replaced by any other source and anything less than continuously updated and accurate information would place miner's safety at risk.

Affected Public: Business or other for-profit.

¹ The total respondents are 893 underground mines or 1,514 surface mines; however, 25% of the mine operators perform these tasks utilizing mine-staff, the remaining 75% utilize contracting services. The contracting services are included as an Operating and Maintenance cost (shown below).

Total Burden Cost (capital/startup):
None.

Total Burden Cost (operating/maintaining): Contract Surveying and Map preparation \$23,803,160.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: August 16, 2002.

Richard L. Brechbiel,

Deputy Director, Office of Administration and Management.

BILLING CODE 4510-43-P

LEGAL SERVICES CORPORATION

Sunshine Act Meeting of the Board of Directors

TIME AND DATE: The Board of Directors of the Legal Services Corporation will meet on August 24, 2002. The meeting

will begin at 9 a.m. and continue until conclusion of the Board's agenda.

LOCATION: The Marriott at Metro Center, 775 12th Street, NW., Washington, DC.

STATUS OF MEETING: Open, except that a portion of the meeting may be closed pursuant to a vote of the Board of Directors to hold an executive session. At the closed session, the Corporation's General Counsel will report to the Board on litigation to which the Corporation is or may become a party, and the Board may act on the matters reported. The closing is authorized by the relevant provisions of the Government in the Sunshine Act [5 U.S.C. 552b(c)(10)] and the corresponding provisions of the Legal Services Corporation's implementing regulation [45 CFR 1622.5(h)]. A copy of the General Counsel's Certification that the closing is authorized by law will be available upon request.

MATTERS TO BE CONSIDERED:

Open Session

1. Approval of agenda.

2. Approval of the minutes of the Board's meeting of June 1, 2002.

3. Approval of the minutes of the Executive Session of the Board's meeting of June 1, 2002.

4. Approval of the minutes of the Board's telephonic meeting of May 23, 2002.

5. Chairman's Report.

6. Members' Report.

7. Acting Inspector General's Report.

8. President's Report.

9. Consider and act on the report of the Board's Committee on Provision for the Delivery of Legal Services.

10. Consider and act on the report of the Board's Operations and Regulations Committee.

11. Consider and act on the report of the Board's Finance Committee.

12. Consider and act on changes to the Board's 2002 meeting schedule.
