BILLING CODE 7537-01-P

NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. *Type of submission, new, revision, or extension:* Revision.

2. *The title of the information collection:* Proposed rule, 10 CFR parts 72 and 73, "Event Notification Requirements."

3. *The form number if applicable:* Not applicable.

4. *How often the collection is required:* The information must be submitted following the occurrence of certain specified events. These events are infrequent and occur at unpredictable times. Following telephonic reports of some of these events, a followup written report must be submitted within 60 days of the initial telephonic report.

5. *Who is required or asked to report:* All specific licensees or general licensees who possess special nuclear material at fixed sites and in transit and plants in which special nuclear material is used.

6. *An estimate of the number of responses:* 212; 29 responses for part 72 and 183 responses for part 73.

7. *The estimated number of annual respondents:* 21 part 72 NRC licensees and 204 part 73 NRC licensees.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 3,300; part 72—707 reporting hours for NRC licensees; part 73—2,592 reporting hours for NRC licensees, or an average of 24 hours per response for part 72 and 13 hours per response for part 73.

9. *An indication of whether Section 3507(d), Public Law 104-13 applies:* Not applicable.

10. *Abstract:* Part 72 establishes licensing requirements for the independent storage of spent nuclear fuel and high-level radioactive waste. It prescribes requirements both for specific licenses for independent spent fuel storage installations and for general licenses for storage of spent fuel at

power reactor sites. Section 72.75 establishes reporting requirements for specific events and conditions, including both emergency notifications and non-emergency notifications, occurring at spent fuel storage installations. Some of the requirements are for information which must be submitted by telephone to NRC's Operations Center. Other requirements are for written followup reports. Section 72.216 specifies the applicability of the reporting requirements in 10 CFR 72.75. Part 73 establishes requirements for the physical protection of special nuclear material at fixed sites and in transit and of plants where special nuclear material is used. Section 73.71 establishes reporting requirements for safeguards events, including both initial telephone notification to the NRC Operations Center and written followup reports. Appendix G to part 73 defines the reportable safeguards.

Submit, by September 26, 2002, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F23, Rockville, MD 20852. The proposed rule indicated in "The title of the information collection" is or has been published in the **Federal Register** within several days of the publication date of this **Federal Register** Notice. The OMB clearance package and rule are available at the NRC worldwide web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html> for 60 days after the signature date of this notice and are also available at the rule forum site, <http://ruleforum.llnl.gov>.

Comments and questions should be directed to the OMB reviewer by September 26, 2002: Bryon Allen, Office of Information and Regulatory Affairs (3150-0002 and -0132), NEOB-10202, Office of Management and Budget, Washington DC 20503.

Comments can also be submitted by telephone at (202) 395-3087.

The NRC Clearance Officer is Brenda Jo. Shelton, 301-415-7233.

Dated at Rockville, Maryland, this 20th day of August 2002.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,
NRC Clearance Officer, Office of the Chief
Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-27; License No. SNM-42]

BWX Technologies, Inc., Lynchburg, VA; Order Modifying License (Effective Immediately)

I

(BWXT) is the holder of Special Nuclear Material License SNM-42 issued by the U.S. Nuclear Regulatory (NRC or Commission) pursuant to 10 CFR part 70. BWXT is authorized by their license to receive, possess, and transfer byproduct, source material, and special nuclear material in accordance with the Atomic Energy Act of 1954, as amended, and 10 CFR part 70. The BWXT license, originally issued on August 22, 1956, was renewed on October 1, 1995, and is due to expire on September 30, 2005.

II

On September 11, 2001, terrorists simultaneously attacked targets in New York, NY, and Washington, DC, utilizing large commercial aircraft as weapons. In response to the attacks and intelligence information subsequently obtained, the Commission issued a number of Safeguards and Threat Advisories to its licensees in order to strengthen licensees' capabilities and readiness to respond to a potential attack on a nuclear facility. The Commission has also communicated with other Federal, State and local government agencies and industry representatives to discuss and evaluate the current threat environment in order to assess the adequacy of security measures at licensed facilities. In addition, the Commission has been conducting a comprehensive review of its safeguards and security programs and requirements.

As a result of its consideration of current safeguards and security plan requirements, as well as a review of information provided by the intelligence community, the Commission has determined that certain compensatory measures are required to be implemented by BWXT as prudent, interim measures to address the current threat environment. Therefore, the

Commission is imposing interim requirements, set forth in Attachment 1¹ of this Order, which supplement existing regulatory requirements, to provide the Commission with reasonable assurance that the public health and safety and common defense and security continue to be adequately protected in the current threat environment. These requirements will remain in effect pending notification from the Commission that a significant change in the threat environment occurs, or if the Commission determines that other changes are needed.

The Commission recognizes that some of the requirements set forth in Attachment 1² to this Order may already have been initiated by BWXT in response to previously issued advisories, or on its own. It is also recognized that some measures may need to be tailored to specifically accommodate the specific circumstances and characteristics existing at BWXT's facility to achieve the intended objectives and avoid any unforeseen effect on safe operation.

Although BWXT's response to the Safeguards and Threat Advisories has been adequate to provide reasonable assurance of adequate protection of public health and safety, the Commission believes that the response must be supplemented because of the current threat environment. As a result, it is appropriate to require certain security measures so that they are maintained within the established regulatory framework. In order to provide assurance that BWXT is implementing prudent measures to achieve an adequate level of protection to address the current threat environment, Special Nuclear Materials License SNM-42 shall be modified to include the requirements identified in Attachment 1 to this Order. In addition, pursuant to 10 CFR 2.202 and 70.81, I find that, in the circumstances described above, the public health, safety and interest and the common defense and security require that this Order be immediately effective.

III

Accordingly, pursuant to sections 63, 81, 161b, 161i, 161o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10

¹ Attachment 1 contains classified information and will not be released to the public.

² To the extent that specific measures identified in Attachment 1 to this Order require actions pertaining to BWXT's possession and use of chemicals, such actions are being directed on the basis of the potential impact of such chemicals on radioactive materials and activities subject to NRC regulation.
