Bonneville Power Administration; Notice of Filing

September 11, 2002.

Take notice that on July 31, 2002, the Bonneville Power Administration (Bonneville) tendered for filing with the Federal Energy Regulatory Commission (Commission) a proposed adjustment to its ACS-02 Generation Imbalance Service rate pursuant to section 7(a)(2) of the Pacific Northwest Electric Power Planning and Conservation Act, 16 U.S.C. 839e(a)(2). Pursuant to Commission regulation 300.21, 18 CFR 399.21, Bonneville seeks final or interim confirmation and approval of the amended Generation Imbalance Service rate effective October 1, 2002. Bonneville seeks rate approval for use during the period October 1, 2002 through September 30, 2003.

Bonneville's proposed Generation Imbalance Service rate exempts wind

generation resources from the Generation Imbalances outside the Generation Imbalance kilowatt-hour penalty rate for imbalances outside the Generation Imbalance Deviation Band when the actual energy delivered from a wind resource in Bonneville's Control Area in a schedule hour is less than the energy scheduled for that hour. When energy delivered by a wind generation resource is less than the energy scheduled, the charge will be Bonneville's incremental cost plus 10%.
