

Unfunded Mandates

The Unfunded Mandates Reform Act requires, at 2 U.S.C. 1532, that agencies prepare an assessment of anticipated costs and benefits before developing any rule that may result in an expenditure by State, local, or tribal governments, in the aggregate, or by the private sector of \$100 million or more in any given year. This rule would have no consequential effect on State, local, or tribal governments.

Approval and Promulgation of Air Quality Implementation Plans; Utah; New Source Performance Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On January 8, 1999 and December 10, 1999, the Governor of Utah submitted revisions to the New Source Performance Standards (NSPS) rules in Utah's Air Conservation Regulations. We are proposing to approve updates to the NSPS "Delegation Status of New Source Performance Standards" table to indicate the State has been delegated the authority to implement and enforce NSPS and to add entries for newly delegated NSPS. Also, given that the State has been delegated the authority for implementation and enforcement of the NSPS, we are proposing to remove the NSPS rules from the Utah SIP. These actions are being taken under sections 110 and 111 of the Clean Air Act.

In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

DATES: Comments must be received in writing on or before October 21, 2002.

ADDRESSES: Written comments may be mailed to Richard R. Long, Director, Air and Radiation Program, Mailcode 8P-AR, Environmental Protection Agency (EPA), Region 8, 999 18th Street, Suite 300, Denver, Colorado, 80202. Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air and Radiation Program, Environmental Protection Agency, Region 8, 999 18th Street, Suite 300, Denver, Colorado, 80202. [FRL-7379-2]

Approval of Section 112(I) Authority for Hazardous Air Pollutants; Delegation of Section 111 and Section 112 Standards; State of New Hampshire

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve New Hampshire Department of Environmental Services' (NH DES) request for delegation of authority to implement and enforce its New Source Performance Standards (NSPSs) and National Emission Standards for Hazardous Air Pollutants (NESHAPs) that have been adopted by reference into New Hampshire's state regulations from the Federal requirements set forth in the Code of Federal Regulations. In addition, EPA proposes to approve NH DES's mechanism for receiving delegation of future NESHAPs and NSPSs. Approval of this action would delegate existing standards for both major and area sources and would automatically delegate future

regulations and amendments to regulations once NH DES incorporates these regulations and amendments into its regulations. EPA is taking this action in accordance with the Clean Air Act (CAA).

In the final rules section of this **Federal Register**, EPA is approving NH DES's request as a direct final rule without prior proposal because the Agency views this as a noncontroversial action and anticipates no relevant adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, EPA will not take further action on this proposed rule. If the EPA receives relevant adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will then address all public comments received in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period.

DATES: Written comments must be received on or before October 21, 2002.

ADDRESSES: Written comments should be mailed concurrently to the addresses below:

National Oil and Hazardous Substance Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Notice of intent to delete the Basic Microelectronics, Incorporated (BMI)-Textron Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region 4 is issuing a notice of intent to delete BMI-Textron Superfund Site (Site) located in Lake Park, West Palm Beach County, Florida, from the National Priorities List (NPL) and requests public comments on this notice of intent. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found at appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Florida, through the Florida Department of Environmental Protection, have determined all the Potentially Responsible Parties (PRPs) have implemented all appropriate response actions under CERCLA, other than operation and maintenance and five-year reviews. However, this deletion does not preclude future actions under Superfund.

In the "Rules and Regulations" section of today's **Federal Register**, we are publishing a direct final notice of deletion of BMI-Textron Superfund Site without prior notice of intent to delete because we view this as a noncontroversial revision and anticipate no adverse comment. We have explained our reasons for this deletion in the preamble to the direct final deletion. If we receive no adverse comment(s) on the direct final notice of deletion, we will not take further action on this notice of intent to delete. If we receive adverse comment(s), we will withdraw the direct final notice of deletion and it will not take effect. We will, as appropriate, address all public comments in a subsequent final deletion notice based on this notice of intent to delete. We will not institute a second comment period on this notice of intent to delete. Any parties interested in commenting must do so at this time. For additional information, see the direct final notice of deletion which is located

in the Rules section of this **Federal Register**.

DATES: Comments concerning this Site must be received by October 21, 2002.
