II. Background

In response to OMB's guidelines (67 FR 8452, February 22, 2002), EPA has developed Draft Guidelines for Ensuring and Maximizing the Quality, Objectivity, Utility, and Integrity of Information Disseminated by the Environmental Protection Agency (Draft EPA Information Quality Guidelines; 67 FR 21234, April 30, 2002). The Draft EPA Information Quality Guidelines are available at EPA's site, <http://www.epa.gov/oei/qualityguidelines>. The Draft EPA Information Quality Guidelines address the various sources of information submitted to or obtained by the Agency for use in making decisions, and, in particular, discuss one category of information that includes information voluntarily submitted to the Agency or information that the Agency obtains from external third party sources. During development of these guidelines, EPA requested comments and held a public meeting. Subsequently, EPA developed a document, "Assessment Factors for Evaluating the Quality of Information from External Sources," that specifically addresses assessment factors and considerations relevant to evaluating and using external sources of data and information. EPA is holding a public meeting on September 20, 2002 to obtain public input on factors and considerations they feel are useful to assess the quality of information voluntarily provided by external sources to the Agency or obtained by EPA for specific purposes. In addition, EPA is seeking comments from the public on the document, "Assessment Factors for Evaluating the Quality of Information from External Sources."
