Reporting and Recordkeeping Hour Burden:

Abstract: The 2004 National Postsecondary Student Aid Study is being conducted to meet the continuing need for national-level data about significant financial aid issues for students enrolling in postsecondary education. Information about financial aid policies and postsecondary affordability is critical to policymakers who determine the need analysis formulas for Pell Grants, maximum amounts for student loans and other need-based federal programs, and estimate the continuing and future burden that ensuring federal aid places on the Federal Government. For the first time this study will also collect representative data on state aid and tuition policies which have been previously unavailable at the student level. This clearance request covers field test and full-scale activities. This interview will collect information on background, program of study, enrollment status, federal aid amounts, state aid amounts, other types of aid, tuition, school-related expenses, student and parent finances, student employment, credit card usage, and educational expectations.
