

AA88, [49 FR 30742]. This rule proposed alternative ways to consolidate and simplify several consumer protection notices displayed by carriers on counter signs.

Comments: The Department received comments from certain members of the Air Transport Association of America, the travel industry, and the U.S. Office of Consumer Affairs.

Reason for withdrawal: Since publication of the NPRM, the increased use of information technology has resulted in many changes in the airline industry. Because of these substantial changes, this rulemaking is no longer necessary.

5. Rules of Practice in Board Proceedings; Fees and Charges for Special Services; and Statements of General Policy, NPRM published on October 5, 1984, under Docket No. 42497, RIN 2105-AA82, [49 FR 39337]. This rule proposed to revise requirements and procedures for applying for exemptions under section 416(b) of the Federal Aviation Act.

Comments: According to the document receipt ledger, no comments were received on this NPRM.

Reason for withdrawal: The Department included most of the proposed provisions from this NPRM in a rule that transferred CAB rules to DOT (50 FR 451, January 1, 1985). Therefore, this NPRM is no longer necessary and is withdrawn.

6. Tariffs; Baggage Liability Notices in International Air Transportation, NPRM published on December 18, 1984, under Docket No. 41690, RIN 2105-AA84, [49 FR 49111]. The NPRM was based on a petition for rulemaking to amend the regulations to clarify that carriers may have some liability for fragile or perishable articles.

Comments: The Department received comments from the International Air Transport Association and the Air Traffic Conference of America.

Reason for withdrawal: Since publication of the NPRM, the purpose of the proposal has been overtaken by changes to other Department rules, which makes this rulemaking unnecessary.

7. Price Advertising, NPRM published on July 26, 1989, under Docket No. 46410, RIN 2105-AB50, [54 FR 31052]. This rule proposed to amend the price advertising requirements to codify long-standing enforcement policy.

Comments: The Department received comments from the airline, travel, and advertising industries, State and local governments, and various consumer groups. A few of the comments urged the Department to adopt the proposals in the NPRM. Comments from State and

local agencies expressed concern about the preemptive effects of the NPRM. Other comments stated that the proposals supported unfair and deceptive practices by the airlines.

Reason for withdrawal: Since issuance of the NPRM, the substance of the proposed rule has been covered in numerous DOT enforcement orders, which provide guidance to the industry. Additionally, significant changes in marketing and ticket distribution systems, particularly use of the Internet, have rendered the NPRM inappropriate.

8. Procedures for Transportation Workplace Drug Testing Programs, NPRM published on July 13, 1990, under Docket No. 45928, RIN 2105-AB71, [54 FR 28782]. This rule proposed to amend requirements specifying who may receive negative drug test results.

Reason for withdrawal: The issues raised in this NPRM pertaining to who receives negative drug test results and the comments received on it were addressed in a final rule entitled Procedures for Transportation Workplace Drug and Alcohol Testing Program, under Docket OST-99-6578, published December 19, 2000, 65 FR 79462.

9. Transportation for Individuals with Disabilities, NPRM published on June 20, 1994, under Docket No. 49602, RIN 2105-AC06, [59 FR 31818]. This rule proposed to amend the Department's rules implementing the Americans with Disabilities Act (ADA) by adopting revised accessibility guidelines issued by the Architectural and Transportation Barriers Compliance Board.

Reason for withdrawal: The Department has published a more recent notice of proposed rulemaking entitled Americans with Disabilities Act Accessibility Standards, under Docket No. OST-2000-7703, published August 8, 2000, 65 FR 48444, and intends to consider the issues raised in the 1994 NPRM and comments received on the proposal in this 2000 NPRM.

10. Amendments to Pre-Employment Alcohol Testing Requirements, NPRM published on May 9, 1996, under Docket No. OST-96-1333, RIN 2105-AC50, [61 FR 21149]. This rule proposed a change to pre-employment alcohol testing provisions to harmonize the regulations with the OMNIBUS Transportation Employee Testing Act of 1991 by making pre-employment testing voluntary for employers.

Reason for withdrawal: The pre-employment alcohol testing requirements and the comments received on the NPRM were addressed in a final rule entitled Procedures for Transportation Workplace Drug and

Alcohol Testing Program, under Docket OST-99-6578, published December 19, 2000, 65 FR 79462.

While the Department is withdrawing the above-mentioned NPRMs and removing them from the semi-annual Regulatory Agenda, if it is determined that future action is needed, the Department will open new rulemakings.

Issued in Washington, DC on September 24, 2002.

Norman Y. Mineta,

Secretary of Transportation.

Amelioration of Fruit and Agricultural Wines; Technical Amendments (2001R-197P)

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: Notice of proposed rulemaking.

Jennifer Berry, Bureau of Alcohol, Tobacco and Firearms, Regulations Division, 111 W. Huron Street, Room 219, Buffalo, NY 14202-2301; telephone 716-434-8039.

SUPPLEMENTARY INFORMATION:

Background

The Bureau of Alcohol, Tobacco and Firearms administers regulations published in chapter I of title 27 CFR. In a recent review of part 4 of this chapter, Labeling and Advertising of Wine, ATF noted an error at § 4.22(b)(5)

regarding the amelioration of fruit (non-grape) and agricultural wines. We propose to correct this error, and make several other technical amendments to the regulations in part 4.

Amelioration Error

The regulations at § 4.22(b)(5) state that fruit (non-grape) and agricultural wines may be treated with sugar or water in excess of the quantities prescribed for their standards of identity without ATF viewing such treatment as an alteration of class and type, if, among other conditions, "the content of natural acid is not less than 7.5 parts per thousand." [Italics added.] This limitation of 7.5 parts per thousand is incorrect. Pursuant to 26 U.S.C. 5383 and 5384, the correct minimum acid level should be 7.69 parts per thousand. This level is correctly stated in § 24.178(b)(3) as 7.69 grams per liter. "Grams per liter" is equivalent to "parts per thousand." In order to make these regulations accurate and consistent, we are amending the minimum acid limitation in § 4.22(b)(5) to 7.69 grams per liter.

Technical Amendments

ATF has identified a typographical error at § 4.21(h)(2), the standard of identity for imitation and substandard or other than standard wine. The phrase "other than standard wine" has been omitted from this section. The corrected regulation will read as follows:

(2) "Substandard wine" or "other than standard wine" shall bear as a part of its designation the words "substandard" or "*other than standard*," * * *. [Addition in italics.] We have also identified two technical errors at § 4.30(a). Both the first and second sentences of this section use the word "article" to refer to regulatory subparts. "Article" was the term used for subparts when the wine labeling regulations were written in 1935. Later revisions replaced "article" with "subpart," but these two instances were overlooked. We propose to correct this oversight.

We also propose to remove three obsolete sections from part 4. All three have been replaced with newer sections, and their requirements have been obsolete for years.

- § 4.25, Appellation of origin, obsolete since January 1, 1983, has been replaced with § 4.25a.
- § 4.35, Name and address, obsolete since July 28, 1994, has been replaced with § 4.35a.
- § 4.72, Standards of fill, obsolete since January 1, 1979, has been replaced with § 4.73.

We are assigning the old numbers to the newer sections to improve the organization of part 4. We believe that removing these obsolete sections will make it much easier for readers to find current requirements.

Public Participation
