

(approximately 175,000 industry members), however, do incur the cost of procuring (and replacing) fuel dispenser labels to comply with the Rule. According to industry input, the price per label is about thirty-eight cents. Based on ranging industry estimates of a 6–10 year useful life per dispenser label, staff will conservatively factor into its calculation of labeling cost the shortest assumed useful life, *i.e.*, 6 years. Staff believes that the average retailers has six dispensers, with all of them being obtained either simultaneously or otherwise within the same year. Assuming that, in any given year, $\frac{1}{6}$ of all retailers (29,167 retailers) will replace their dispenser labels, staff estimates total labeling cost to be \$66,500 ($29,167 \times 6 \times .38$).

ACTION: Award announcement.

SUMMARY: Notice is hereby given that a noncompetitive grant award is being made to the Community Nutrition Institute to support a nationwide initiative for the Community Food and Nutrition Program (CFNP). The nationwide initiative is a national research project to study the impact of current CFNP projects on low-income communities, families, and children nationwide. Administration for Children and Families

Grant to the Hebrew Immigrant Aid Society

AGENCY: Office of Refugee Resettlement (ORR), HHS.

ACTION: Grant Award Announcement.

SUMMARY: Notice is hereby given that an award is being made to the Hebrew Immigrant Aid Society of New York, in the amount of \$850,000 to further the integration and self-sufficiency of recently arrived refugees by implementing programs to strengthen refugee families and marriages and to promote responsible fatherhood. The funds provided will be utilized to develop programs in 10 pilot sites. The period of this funding will extend through September 29, 2004.

After an appropriate review, it has been determined that the need for the cited services by this population is imperative and the applicant has over two hundred years of experience in resettling such refugees. The proposed activities—family strengthening programs for struggling refugee families—strongly support the Administration's defined goals. These programs reflect current social science research in family relationships and have a strong track record in successful outcomes in mainstream populations. Their extension to refugee populations will be a welcome addition to ORR's social services emphasis. No other grant program currently includes these programs.
