

beliefs, and workplace behaviors. Findings from this research will help identify the conditions critical to effective toolbox safety training for mining and construction. The materials developed and evaluated during this study will be made available to the public at the conclusion of the evaluation.

Construction and mining companies who participate in the study will be

randomly assigned to receive eight weekly toolbox safety training sessions that use either a case-study narrative or conventional instructional approach. The training sessions are designed to last fifteen minutes. The impact of these materials will be evaluated through the examination of changes in employee knowledge gains, attitudes toward safety practices, and the use of safety

behaviors prior to and following their participation in the safety training program. Trainers will complete brief response cards each week. A sample of trainers will participate in structured interviews. Findings of the study will be reported to participants and in the literature. There is no cost to respondents.

Respondents	Number of respondent	Number of responses/respondent	Average burden/response (in hours)	Total burden (in hours)
Worker Pre-training Survey (attitude survey)	640	1	15/60	160
Worker Post-training Survey (attitude survey)	640	1	15/60	160
Instructor Feedback Cards	64	8	5/60	43
Total	363

Dated: October 7, 2002.

Nancy E. Cheal,

Acting Associate Director for Policy, Planning, and Evaluation, Centers for Disease Control and Prevention.

[60Day-03-03]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 498-1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and

clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

Survey Development: Child Stress and Toxics—New—Agency for Toxic Substances and Disease Registry (ATSDR). ATSDR is mandated pursuant to the 1980 Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and its 1986 amendments, the Superfund Amendments and Reauthorization Act (SARA), to serve the public by using the best science, taking responsive public health actions, and providing trusted health information to prevent harmful exposures and disease related to toxic substances. For the past 6 years, ATSDR has worked with the U.S. Environmental Protection Agency (EPA), the Substance Abuse and Mental Health Services Administration (SAMSHA), state health departments, and local communities on the issue of psychosocial stress due to the presence of toxic hazards. A significant amount of research has focused on adult psychosocial stress in communities affected by hazardous substances.

Comparatively little is known about levels of psychosocial stress among children or other susceptible populations in these settings.

There is a critical need to develop a research instrument to screen children who live in communities at or near hazardous waste sites for elevated stress levels. The instrument will facilitate the establishment of group norms for levels of stress in children and is not intended to provide clinical or diagnostic information on individual children.

The purposes of this project are to: (1) Develop and pilot-test a scale to assess levels and sources of psychosocial stress in children who live in communities at or near hazardous waste sites, (2) modify the scale based on pilot-test results, (3) validate the scale on children living in communities near hazardous waste sites, and (4) provide an evidence base for planning and conducting interventions in affected communities.

In year one, we will pilot test the scale in at least 100 children in two age groups (5th and 9th grade levels) at one or more test sites. We will also conduct semi-structured interviews or focus groups to determine whether additional variables need to be included in the scale. During the second and third years of the project, we will use the scale to screen up to 4,700 children in communities at or near hazardous waste sites. We will then, hopefully, be able to plan effective interventions and to further predict and explain levels of stress in children living around hazardous waste sites. There is no cost to respondents.

Respondents	Number of respondents	Number of responses/respondent	Average burden/response (in hours)	Total burden (in hours)
Children 10–17 years old	5,000	1	30/60	2,500
Total				2,500

Dated: October 8, 2002.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Notice of Allotment Percentages to States for Child Welfare Services State Grants

AGENCY: Administration on Children, Youth and Families, Administration for Children and Families, Department of Health and Human Services.

ACTION: Biennial publication of allotment percentages for States under the Title IV–B subpart 1, Child Welfare Services State Grants Program.

SUMMARY: As required by section 421(c) of the Social Security Act (42 U.S.C. 621(c)), the Department is publishing the allotment percentage for each State under the Title IV–B subpart 1, Child Welfare Services State Grants Program. Under section 421(a), the allotment percentages are one of the factors used in the computation of the Federal grants awarded under the Program.

EFFECTIVE DATE: The allotment percentages shall be effective for Fiscal Years 2004 and 2005.

FOR FURTHER INFORMATION CONTACT: Doris Lee, Office of Grants Management, Office of Administration, Administration for Children and Families, 330 C Street, SW., Washington, DC 20201.

SUPPLEMENTARY INFORMATION: The allotment percentage for each State is determined on the basis of paragraphs (b) and (c) of section 421 of the Act. These figures are available on the ACF homepage on the internet: <http://www.acf.dhhs.gov/programs/cb/>. The allotment percentage for each State is as follows:

State	Allotment percentage
Alabama	59.69

State	Allotment percentage
Alaska	49.52
Arizona	57.35
Arkansas	62.49
California	46.25
Colorado	45.06
Connecticut	30.53
Delaware	47.05
District of Columbia	34.80
Florida	52.23
Georgia	52.61
Hawaii	52.22
Idaho	59.49
Illinois	45.81
Indiana	54.25
Iowa	55.24
Kansas	53.35
Kentucky	59.24
Louisiana	60.30
Maine	56.54
Maryland	42.71
Massachusetts	36.91
Michigan	50.50
Minnesota	45.84
Mississippi	64.32
Missouri	53.73
Montana	61.16
Nebraska	52.79
Nevada	49.96
New Hampshire	44.28
New Jersey	37.19
New Mexico	62.62
New York	41.19
North Carolina	54.57
North Dakota	58.04
Ohio	52.41
Oklahoma	59.34
Oregon	53.34
Pennsylvania	49.87
Rhode Island	50.58
South Carolina	59.08
South Dakota	56.33
Tennessee	55.53
Texas	52.99
Utah	60.36
Vermont	53.66
Virginia	47.22
Washington	46.96
West Virginia	62.87
Wisconsin	51.93
Wyoming	52.72
American Samoa	70.00
Guam	70.00
N. Mariana Islands	70.00
Puerto Rico	70.00
Virgin Islands	70.00

Dated: October 9, 2002.

Joan Ohl,

Commissioner, Administration on Children,
Youth and Families.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 01N–0589]

Agency Information Collection Activities; Announcement of OMB Approval; Extralabel Drug Use in Animals

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a collection of information entitled “Extralabel Drug Use in Animals” has been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995.

FOR FURTHER INFORMATION CONTACT: Denver Presley, Office of Information Resources Management (HFA–250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–1472.

SUPPLEMENTARY INFORMATION: In the *Federal Register* of May 14, 2002 (67 FR 34456), the agency announced that the proposed information collection had been submitted to OMB for review and clearance under 44 U.S.C. 3507. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. OMB has now approved the information collection and has assigned OMB control number 0910–0325. The approval expires on September 30, 2005. A copy of the supporting statement for this information collection is available on the Internet at <http://www.fda.gov/ohrms/dockets>.

Dated: October 9, 2002.

Margaret M. Dotzel,

Associate Commissioner for Policy.
