SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage you to review and submit comments on the Environmental Assessment (EA) of our Integrated Natural Resource Management Plan (INRMP) for the Coast Guard Training Center in Cape May, New Jersey, and our draft Finding Of No Significant Impact (FONSI). If you do so, please include your name and address, identify the docket number (USCG-2002-13478), indicate the specific document and section of that document to which each comment applies, and give the reason for each comment. Please submit all comments and related material in an unbound format, no larger than 8½ by 11 inches, suitable for copying. If you would like to know that your submission reached us, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period.

Proposed Action

We have prepared an EA. The EA identifies and examines the reasonable alternatives and assesses their potential environmental impact. Our preferred alternative is to implement the Integrated Natural Resources Management Plan (INRMP).

We are requesting your comments on environmental concerns you may have related to the EA and the draft FONSI. This includes suggesting analyses and methodologies for use in the EA or possible sources of data or information not included in the EA. Your comments will be considered in preparing the complete EA.

Environmental Assessment and Draft Finding of No Significant Impact

The EA examines potential effects of the proposed action of implementing the INRMP on 20 resource areas: environmental setting, climate, air quality, noise, topography, geology, soils, water resources, wetlands, floodplain and coastal zones, aquatic habitat, riparian habitat, terrestrial ecosystems, fauna, endangered, threatened, and rare species, land use, facilities, hazardous and toxic materials, socioeconomic resources, and environmental justice. The INRMP integrates all aspects of natural resource management at TRACEN Cape May, and identifies management approaches that

would benefit local ecosystems. The INRMP was developed using an interdisciplinary approach that solicited information from a variety of Federal, state, and local agencies and groups. An INRMP Focus Group was formed, which included key Installation personnel and individuals from various agencies and groups that have an interest in TRACEN Cape May and the management of its resources. Agencies involved in the process include U.S. Fish and Wildlife Service and New Jersey Division of Fish and Wildlife Management. Proper utilization of this Plan for the conservation of natural resources should not impair the ability of the Installation to perform its mission(s).

The EA concluded that the implementation of the INRMP would not have a significant, adverse impact on the environment—resulting in the issuance of a draft Finding Of No Significant Impact (FONSI). An Environmental Impact Statement is not required prior to implementation of the proposed action.

Dated: October 10, 2002.

Commander, U.S. Coast Guard, Facilities Engineer, Coast Guard Training Center Cape May.
