

the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than November 18, 2002.

BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[ATSDR-186]

Availability of the Draft Online Learning Program, The Public Health Assessment Process and the Community, Public Comment Release

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Notice of availability and request for public comment on the draft online learning program, The Public Health Assessment Process and the Community. This program was developed to provide community members with information about the ATSDR public health assessment process through interactive learning using the Internet. The program also provides a tool that ATSDR's cooperative agreement partners (agents of ATSDR) can use to introduce new staff members to concepts used in the public health assessment process and to facilitate communications with community members when discussing the public health assessment process.

SUMMARY: ATSDR conducts public health assessments to evaluate whether people have come in contact with

hazardous substances released into the environment and whether contact with the substances has affected the health of those people exposed to the hazardous substances.

The process used to conduct public health assessments includes gathering information from community members about how they might have come in contact with hazardous substances released into the environment and the concerns they have about the effect of the substances on their health. In addition to information gathered from community members, ATSDR also evaluates environmental data pertaining to a particular release, evaluates toxicologic and epidemiologic data relevant to exposures, and evaluates existing health outcome data if appropriate. Recommendations might be made to eliminate or reduce exposure to harmful levels of hazardous substances that have been released into the environment. The online learning program provides information on the basic concepts used by ATSDR staff and agents of ATSDR in conducting public health assessments.

This online learning program is intended to assist community members in understanding the ATSDR public health assessment process and to provide additional information concerning the process that may not be available through other forums. Because interaction with community members is a critical component of the public health assessment process, ATSDR believes that public comments may help us improve the quality of the program. All comments received during the public comment period will be considered when making improvements to the program.

Availability: The draft online program, The Public Health Assessment Process and the Community, will be available to the public on or about October 15, 2002. The close of the comment period will be 60 days from the date of publication of this notice in the **Federal Register** and will be indicated on the first page of the Web site. Comments received after close of the public comment period will be considered at the discretion of ATSDR based upon what is deemed to be in the best interest of the general public.

ADDRESSES: Requests for more information about accessing the online learning program should be sent to Chief, Program Evaluation, Records, and Information Services Branch; Agency for Toxic Substances and Disease Registry; 1600 Clifton Road, NE, MS E-56; Atlanta, GA 30333. The online learning program may be accessed at the ATSDR

home page Training section at www.atsdr.cdc.gov/training/public-health-assessment-overview/.

Comments may be submitted online through the "Feedback" section of the program, which is accessible through a link at the top of each page. You may also send written comments and supporting documents to the address provided in the previous paragraph. Comments should be received by the end of the comment period. All written comments and data submitted in response to this notice and the draft online learning program should bear the docket control number ATSDR-186.

FOR FURTHER INFORMATION CONTACT:

Information may be obtained by contacting Bob Kay, telephone (404) 498-0382, ATSDR (Mailstop E-56) or Gail Godfrey, telephone (404) 498-0432, (Mailstop E-32), 1600 Clifton Road, NE, Atlanta, Georgia 30333, or call toll free 1-888-42-ATSDR, 1-888-422-8737.

You may also e-mail Bob Kay at bkay@cdc.gov or Gail Godfrey at ggodfrey@cdc.gov.

SUPPLEMENTARY INFORMATION: ATSDR is mandated to conduct public health assessments under section 104(i) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) [42 U.S.C. 9604(i)] and the Resource Conservation and Recovery Act (RCRA) [42 U.S.C. 6939a(c)].

The general procedures for the conduct of public health assessments are included in the ATSDR Final Rule on Health Assessments and Health Effects Studies of Hazardous Substances Releases and Facilities (55 FR 5136, February 13, 1990, codified at 42 CFR part 90).

Areas emphasized in the online learning program include community involvement, exposure assessment, weight-of-evidence approaches to decision making, and developing public health action plans to address any public health hazards found during investigations.

The online learning program may be used by individuals to learn more about the public health assessment process, by community groups during meetings, and by individuals and groups as a communication tool when discussing concerns with the public health assessment team assigned to a site in their community. The program may also be used by agents of ATSDR to introduce new staff to the concepts of

the public health assessment process and as a tool to stimulate communications with community members.

This notice announces the projected availability of the draft online learning program. The program has undergone extensive internal review.

ATSDR encourages the public's participation and comment on the further development of this online learning program.

Dated: October 18, 2002.

Agency for Toxic Substances and Disease Registry

[ATSDR-188]

Availability of Final Toxicological Profiles

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of seven updated final toxicological profiles of priority hazardous substances comprising the fourteenth set prepared by ATSDR.

FOR FURTHER INFORMATION CONTACT: Ms. Franchetta Stephens, Division of Toxicology, Agency for Toxic Substances and Disease Registry, Mailstop E-29, 1600 Clifton Road, NE., Atlanta, Georgia 30333, telephone 1-888-422-8737 or (404) 498-0720.

SUPPLEMENTARY INFORMATION: The Superfund Amendments and Reauthorization Act (SARA) (Pub. L. 99-499) amends the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund) (42 U.S.C. 9601 *et seq.*) by establishing certain requirements for ATSDR and the U.S. Environmental Protection Agency (EPA) with regard to hazardous substances which are most commonly found at facilities on the CERCLA National Priorities List (NPL). Among these

statutory requirements is a mandate for the Administrator of ATSDR to prepare toxicological profiles for each substance included on the priority lists of hazardous substances. These lists identified 275 hazardous substances that ATSDR and EPA determined pose the most significant potential threat to human health. The availability of the revised list of the 275 priority substances was announced in the **Federal Register** on October 25, 2001 (66 FR 54014). For prior versions of the list of substances see **Federal Register** notices dated April 17, 1987 (52 FR 12866); October 20, 1988 (53 FR 41280); October 26, 1989 (54 FR 43619); October 17, 1990 (55 FR 42067); October 17, 1991 (56 FR 52166); October 28, 1992 (57 FR 48801); February 28, 1994 (59 FR 9486); April 29, 1996 (61 FR 18744); November 17, 1997 (62 FR 61332) and October 21, 1999 (64 FR 56792).

Notice of the availability of drafts of these seven updated toxicological profiles for public review and comment was published in the **Federal Register** on October 11, 2000, (65 FR 60444), with notice of a 90-day public comment period for each profile, starting from the actual release date. Following the close of the comment period, chemical-specific comments were addressed, and where appropriate, changes were incorporated into each profile. The public comments and other data submitted in response to the **Federal Register** notices bear the docket control number ATSDR-162. This material is available for public inspection at the Division of Toxicology, Agency for Toxic Substances and Disease Registry, 1825 Century Boulevard, Atlanta, Georgia, (not a mailing address) between 8 a.m. and 4:30 p.m., Monday through Friday, except legal holidays.

Availability

This notice announces the availability of seven updated final toxicological profiles comprising the fourteenth set prepared by ATSDR. The following toxicological profiles are now available through the U.S. Department of Commerce, National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161, telephone 1-800-553-6847. There is a charge for these profiles as determined by NTIS.
