

additional disclosure would be advisable. The survey and its tabulated results can be obtained by sending an electronic request to the Dockets Management Branch (address above). The results of that survey showed that, in general, SGEs were willing to tolerate greater disclosure of the financial interests than FDA had been providing.

Second, OLC concluded that section 505(n)(4) of the act required meaningful public disclosure that will adequately enable a reasonable person to understand the nature of the conflict and the degree to which it could be expected to influence the recommendations the SGE will make.

III. General Matters Waivers Excluded

Unlike advisory committee meetings to consider particular matters relating to particular products, committee meetings to consider more general matters do not have a unique impact on any personal or imputed financial interests. Such matters are likely to affect classes of similarly situated products and manufacturers to the same extent. Matters of such general applicability give no particular advantage to any individual manufacturer. Therefore, it is recognized that participation in committee meetings to consider general matters poses less risk of a conflict of interest. For that reason, FDA will continue to address committees considering general matters in a way that reflects these inherent differences. FDA will continue its global screening process for each general matter meeting, but in the public's interest of time and utility, it will read an abbreviated statement concerning conflicts of interest.

IV. Significance of Guidance

The draft guidance entitled "Guidance on Disclosure of Conflicts of Interest for Special Government Employees Participating in FDA Product Specific Advisory Committees" is being issued as a level 1 draft guidance consistent with FDA's good guidance practices regulation (21 CFR 10.115). This draft guidance represents the agency's current thinking on this topic. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

V. Comments

Interested persons may submit to the Dockets Management Branch (address above) written or electronic comments on the draft guidance to ensure adequate

consideration in preparation of the final guidance document by March 14, 2002. However, interested persons may submit written or electronic comments at any time. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. The draft guidance and received comments are available for public examination in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

VI. Electronic Access

Persons with access to the Internet may obtain the draft guidance document at <http://www.fda.gov/oc/guidance/advisorycommittee.html>.

SUPPLEMENTARY INFORMATION: For Fiscal Year 2002, OSM expects to award up to 2.7 million dollars to eligible not-for-profit groups to undertake actual construction projects to clean up streams impacted by acid mine drainage. The maximum award amount for each cooperative agreement normally will be \$100,000. The cooperative agreements will have a performance period of two years. The funds primarily are to be used for the construction phase of the project; however, any cost (administrative or construction) associated with the completion of the project is allowable. The requested OSM funding should be the final amount necessary to complete the project. There must be demonstrated public support for the project.

Eligible applicants are not-for-profit, established organizations with IRS 501(c)(3) status. Applicants must have other partners, contributing either the funding or in-kind services needed to complete the project.

Projects in the following States are eligible: Alabama, Illinois, Indiana, Iowa, Kentucky, Maryland, Missouri, Ohio, Oklahoma, Pennsylvania, Tennessee, Virginia and West Virginia. Projects must meet eligibility criteria for

coal projects outlined in Section 404 of the Surface Mining Control and Reclamation Act of 1977:

Lands and water eligible for reclamation or drainage abatement expenditures under this title are those which were mined for coal or which were affected by such mining, wastebanks, coal processing, or other coal mining processes * * * and abandoned or left in an inadequate reclamation status prior to the date of enactment of this Act [August 3, 1977], and for which there is no continuing reclamation responsibility under State or other Federal laws.

The project must produce tangible results, e.g., fishery restored, stream miles improved, educational and community benefits, pollutants removed from the streams. There must be a plan to address any ongoing operation/maintenance considerations.

Two copies of a complete application should be submitted to the appropriate Appalachian Clean Streams Coordinator identified under **ADDRESSES** and **FURTHER INFORMATION**. Awards are subject to the availability of funds. Applications will receive technical and financial management reviews.

Dated: January 15, 2002.

Glenda Owens,

Acting Director, Office of Surface Mining Reclamation and Enforcement.
