The petitioner also states that vehicle identification number (VIN) plates that meet the requirements of 49 CFR part 565 have been affixed to non-U.S. certified 1989-1993 Honda VFR 400 and RVF 400 motorcycles.

Petitioner additionally contends that the vehicles are capable of being altered to meet the following standards, in the manner indicated below:

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment*: installation of headlamp bulbs, amber front side reflectors, and red rear side reflectors that conform to the requirements of the standard. The petitioner states that the vehicles are already equipped with a tail lamp system, a stop lamp system, a white license plate lamp, and turn signals that conform to the standard.

Standard No. 120 *Tire Selection and Rims for Vehicles other than Passenger Cars*: installation of a label showing that the tires and rims are in conformity with the requirements of the standard.

Standard No. 123 *Motorcycle Controls and Displays*: modification of the speedometer to read in miles per hour. The petitioner states that the vehicles are already equipped with a supplemental engine stop control on the right handlebar and other controls and displays that are in conformity with the requirements of the standard.

**ADDRESSES:** Comments should refer to the docket number and notice number, and be submitted to: Docket Management, Room PL 401, 400 Seventh St., SW., Washington, DC 20590. [Docket hours are from 9 a.m. to 5 p.m.]

#### SUPPLEMENTARY INFORMATION:

##### Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally

manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Where there is no substantially similar U.S.-certified motor vehicle, 49 U.S.C. 30141(a)(1)(B) permits a nonconforming motor vehicle to be admitted into the United States if its safety features comply with, or are capable of being altered to comply with, all applicable Federal motor vehicle safety standards based on destructive test data or such other evidence as NHTSA decides to be adequate.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.
