Title: Longitudinal Assessment of CSR Implementation and Outcomes (LACIO).

Frequency: Annually.

Affected Public: State, local or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 4,380.

Burden Hours: 2,567.

Abstract: This evaluation assesses the accomplishments of the CSR program in implementing school reform and thereby improving student achievement. The evaluation also makes a preliminary assessment of the conditions influencing the sustainability of reforms once federal support ends. The evaluation uses a variety of data sources to understand the complex interplay of state policies, school district, educational support, and CSR school conditions affecting CSR implementation and outcomes. The

major evaluation questions are: (1) To what extent have CSR-supported schools made gains on state assessments in comparison to gains for schools in the same state with similar characteristics; (2) How effective is CSR support for reform; and (3) How have district policies and state policies affected CSR implementation and comprehensive school reform. A mixed method approach will be used to collect appropriate data for addressing each evaluation question. The methods include mail surveys of 400 CSR-program and 40 non-CSR program schools, telephone surveys of 50 districts and 20 states, and a case study inquiry of 30 "sites" to provide data on vertical slices of the CSR program (each "site" comprises a CSR school and comparison school, as well as the district, state, and support infrastructure in which the schools operate). Evaluators will be able to link information from these various sources in order to provide policymakers and other stakeholders with coherent findings.
