

regarding the potential impact on state and federal laws, and on consumers of the removal of the foreclosure and rental default notices exception from the ESIGN Act would assist in this evaluation.

The ESIGN Section 103 Evaluation

The ESIGN Act directs the Assistant Secretary of Communications and Information to conduct an evaluation of the exceptions set out in section 103 of the Act to determine whether the exceptions continue to be necessary for the protection of consumers, and to submit a report to Congress on the results of the evaluation no later than June 30, 2003. The Assistant Secretary for Communications and Information is the chief administrator of NTIA. As the President's principal advisor on telecommunications policies pertaining to the Nation's economic and technological advancement, NTIA is the executive branch agency responsible for developing and articulating domestic and international telecommunications policy.

The ESIGN section 103 evaluation is intended to examine the current status of federal and state regulations that govern, and industry practices among companies that issue notices for residential default, foreclosure, and eviction in preparation for a report to Congress on whether this exception remains necessary to protect consumers. This evaluation is not a review or analysis of federal and state regulations and rules relating to residential default, foreclosure, or eviction notices for the purpose of recommending changes to those regulations but to advise Congress of the current state of law, practice, and procedure regarding this issue. Comments filed in response to this Notice should not be considered to have a connection with or impact on ongoing specific federal and state procedures or rulemaking proceedings concerning residential default, foreclosure, and eviction notices.

Invitation to Comment

NTIA requests that all interested parties submit written comments on any issue of fact, law, or policy that may assist in the evaluation required by section 103(c). We invite comments on ESIGN generally that assists in evaluating the narrower issues associated with residential default, foreclosure, and eviction notices as governed by the substantive law in these areas. The following questions are intended to provide guidance as to the specific subject areas to be examined as a part of the evaluation. Commenters are invited to discuss any relevant issue,

regardless of whether it is identified below.

1. Provide information regarding federal, state, and municipal regulations, laws, and ordinances that require written notice to consumers for residential defaults, foreclosures, and evictions.

2. Provide state Uniform Electronic Transactions Act (UETA) provisions that require written notice to consumers by excluding housing foreclosure, repossession, and default notices from the provisions of the statute.

3. Describe state or federal regulations, other than UETA or ESIGN laws, that require residential default, foreclosure, and eviction notices to be provided in written form or to be excluded from the operation of ESIGN or the applicable state UETA.

4. Provide information regarding federal, state, and municipal laws or regulations that allow notice to consumers regarding residential defaults, foreclosures, and evictions in an electronic format.

5. Discuss the impact that the removal of the residential default, foreclosure, and eviction notices exception from ESIGN, to allow mortgage or rental companies to send notices by electronic methods mail, may have on consumers and on federal or state consumer protection policies.

6. If it is necessary to retain the residential default, foreclosure, or eviction notices exception to the ESIGN requirements, discuss the interest that this exception continues to serve or protect.

7. Discuss the methods that are available for consumer protection, if the residential default, foreclosure, and eviction notices exception to ESIGN is eliminated from the statute. Describe the methods that may be used to verify:

- a. the notice was sent and/or received;
- b. the security of the transmission; and
- c. the recipient has the capability of receiving and reading the notice.

8. What effect, if any, would the elimination of the residential default, foreclosure, and eviction notices exception to ESIGN have on the mission of federal and state agencies and organizations that have regulatory authority over the process and service of notice of default, eviction and foreclosure?

Please provide copies of studies, reports, opinions, research or other empirical data referenced in the responses.
