SUPPLEMENTARY INFORMATION:

What Is the OSHA Training Institute?

The OSHA Training Institute in Des Plaines, Illinois, is the primary training provider of the Occupational Safety and

Health Administration. It conducts more than 80 short-term courses and seminars covering OSHA standards, policies, and procedures for persons responsible for enforcing or directly supporting the OSH Act, for private sector employers and employees, and Federal personnel from agencies other than OSHA. The OSHA Training Institute's primary responsibility is to Federal and State compliance officers and State consultation program staff. Private sector personnel and Federal personnel from agencies other than OSHA receive training from the OSHA Training Institute on a space available basis.

Why Was the OSHA Training Institute Education Centers Program Established?

By the early 1990's, requests for training from Federal and State compliance officers, State consultation program staff, private sector personnel, and Federal personnel from agencies other than OSHA had increased beyond the capacity of the OSHA Training Institute to meet the demand. In addition, resources of the OSHA Training Institute had not increased at a rate that could keep up with the demand. As the number of students from Federal and State personnel engaged in enforcement or consultation increased, opportunities for training for private sector personnel and Federal personnel from agencies other than OSHA remained static or decreased.

In order to meet the increased demand for its courses, the OSHA Training Institute selected 12 nonprofit organizations to conduct OSHA Training Institute courses for private sector personnel and Federal personnel from agencies other than OSHA. These organizations were selected through nationwide or regional competitions.

Which Organizations Are Currently OSHA Training Institute Education Centers?

The current OSHA Training Institute Education Centers are: Keene State College, Manchester, New Hampshire; Niagara County Community College, Lockport, New York; Building and Construction Trades Department AFL-CIO/Center to Protect Workers' Rights/The George Meany Center for Labor Studies/West Virginia Safety and Health Extension, Washington, DC; Georgia Technical Research Institute, Atlanta, Georgia; Eastern Michigan University/United Auto Workers, Ypsilanti, Michigan; University of Minnesota/Minnesota Safety Council/University of Cincinnati, Minneapolis, Minnesota; Northern Illinois University/Construction Safety Council/National
