RIN 1120-AB17

Bureau of Prisons Emergencies

AGENCY: Bureau of Prisons, Justice.

ACTION: Interim final rule.

SUMMARY: The Bureau of Prisons (Bureau) makes this interim final rule to clarify that, when there is an institutional or system-wide Bureau emergency which the Director or designee, such as a Warden, considers a threat to human life or safety, the Director or designee may suspend the operation of the rules in this chapter as necessary to handle the emergency. This rule clarifies that the Director may suspend Bureau rules as needed in light of any emergency affecting the Bureau, and the Warden may do so to deal with emergencies at the institution level. This rule change clarifying the Director's authority to modify Bureau rules to handle emergencies is especially necessary in light of the recent terrorist attacks, threats to national security, threats of anthrax surrounding mail processing, and other events occurring on and after September 11, 2001.

DATES: This rule is effective April 16, 2003. Comments are due by June 16, 2003.

ADDRESSES: Rules Unit, Office of General Counsel, Bureau of Prisons, 320

First Street, NW., Washington, DC 20534.

FOR FURTHER INFORMATION CONTACT:

Sarah Qureshi, Office of General Counsel, Bureau of Prisons, phone (202) 307-2105.

SUPPLEMENTARY INFORMATION: The Bureau makes this interim final rule to clarify that, when there is an institutional or system-wide Bureau emergency which the Director or designee, such as a Warden, considers a threat to human life or safety, the Director or designee may suspend the operation of the rules in this chapter as necessary to handle the emergency. This rule clarifies that the Director may suspend Bureau rules as needed in light of any emergency affecting the Bureau, and the Warden may do so to deal with emergencies at the institution level. This rule change clarifying the Director's authority to modify Bureau rules to handle emergencies is especially necessary in light of the recent terrorist attacks, threats to national security, threats of anthrax surrounding mail processing, and other events occurring on and after September 11, 2001.

Previously, 28 CFR 501.1 stated that, when there is an institutional emergency which the Warden considers a threat to human life or safety, the Warden may suspend the operation of the rules contained in this chapter to the extent he deems necessary to handle the emergency. The rule also required the Warden to notify the Director within eight hours of any suspension of rules under this section. This rule change simply clarifies that the authority to suspend operation of Bureau rules to handle an institutional or system-wide Bureau emergency originates with the Director.

To provide additional safeguards against indefinite suspension of Bureau rules, this rule also requires that, if the Warden suspends operation of the rules, the Warden must, within eight hours of the suspension, notify the Director by providing written documentation which (1) Describes the institutional emergency that threatens human life or safety; and (2) explains why suspension of the rules is necessary to handle the institutional emergency.

Also, if the Warden does not provide the Director with written justification for suspension every 30 days, or if the Director so chooses for any other reason, suspension of the rules to handle the institutional emergency ceases.

Administrative Procedure Act

This rule relates to a matter of agency management or personnel, and is

This rule will not result in the expenditure by State, local and tribal governments, in the aggregate, or by the private sector, of \$100,000,000 or more in any one year, and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions

of the Unfunded Mandates Reform Act of 1995.

Small Business Regulatory Enforcement Fairness Act of 1996

This rule is not a major rule as defined by § 804 of the Small Business Regulatory Enforcement Fairness Act of 1996. This rule will not result in an annual effect on the economy of \$100,000,000 or more; a major increase in costs or prices; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based companies to compete with foreign-based companies in domestic and export markets.

(ii) Sets forth reasons why suspension of the rules is necessary to handle the institutional emergency.

(2) *Submitting certification to Director of continuing emergency.* 30 days after the Warden suspends operation of the rules, and every 30 days thereafter, the Warden must submit to the Director written certification that an institutional emergency threatening human life or safety and warranting suspension of the rules continues to exist. If the Warden does not submit this certification to the Director, or if the Director so orders at any time, the suspension of the rules will cease.

Revisions to the Arizona State Implementation Plan and California State Implementation Plan, Maricopa County Environmental Services Department and Bay Area Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing a limited approval and limited disapproval of revisions to the Maricopa County Environmental Services Department portion of the Arizona State Implementation Plan (SIP) and the Bay Area Air Quality Management District portion of the California SIP. This action was proposed in the **Federal Register** on June 5, 2002, and concerns volatile organic compound (VOC) emissions from solvent cleaning operations. Under authority of the Clean Air Act as amended in 1990 (CAA or the Act), this action simultaneously approves a local rule that regulates these emission sources and directs Arizona and California to correct rule deficiencies.

EFFECTIVE DATE: This rule is effective on May 16, 2003.

ADDRESSES: You can inspect copies of the administrative record for this action at EPA's Region IX office during normal business hours. You can inspect copies of the submitted SIP revisions at the following locations:

SUPPLEMENTARY INFORMATION: Throughout this document, "we," "us" and "our" refer to EPA.

I. Proposed Action

On June 5, 2002 (67 FR 38630), EPA proposed a limited approval and limited disapproval of the following rules that were submitted for incorporation into the Arizona and California SIPs.

TABLE 1.—SUBMITTED RULES

Local agency	Rule #	Rule title	Revised	Submitted
MCESD	331	Solvent Cleaning	04/07/99	08/04/99
BAAQMD	8-16	Solvent Cleaning Operations	09/15/98	03/28/00

We proposed a limited approval because we determined that these rules improve the SIP and are largely consistent with the relevant CAA requirements. We simultaneously proposed a limited disapproval because some rule provisions conflict with section 110 and part D of the Act. The provisions in MCESD rule 331 include the following:

- The provisions of this rule exempt sources that are not necessarily covered by another federally approved rule.
- Subsections of this rule provide methods of determining capture efficiency, but do not refer to EPA's January 9, 1995, guidance document, *Guidelines for Determining Capture Efficiency*, describing calculation procedures.
- Sections II and III of the appendix to this rule do not clarify which and

how standards are adjusted for boiling point.

- Section I-6 of the appendix to this rule raise the threshold limit from 10.75 sq ft to 13 sq ft for additional control without adequately justifying this relaxation.

The provisions in BAAQMD rule 8-16 include the following:

- Section 8-16-501.2 allows facility-wide make-up solvent recording on an annual basis, which is not sufficient to ensure that the rule is enforceable pursuant to CAA section 110(a)(2)(A).
- Rule 8-16 contains a number of incorrect section references that may result in enforcement ambiguity.

Our proposed action contains more information on the basis for this rulemaking and on our evaluation of the submittal.

II. Public Comments and EPA Responses

EPA's proposed action provided a 30-day public comment period. During this period, we did not receive any comments.

III. EPA Action

No comments were submitted that change our assessment of the rules as described in our proposed action. Therefore, as authorized in sections 110(k)(3) and 301(a) of the CAA, EPA is finalizing a limited approval of the submitted rules. This action incorporates the submitted rules into the Arizona and California SIPs, respectively, including those provisions identified as deficient. As authorized under section 110(k)(3), EPA is simultaneously finalizing a limited disapproval of the rules. As a result,
