#### SUPPLEMENTARY INFORMATION:

##### Background

Codex was established in 1962 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Codex is the major international organization for protecting the health and economic interests of consumers and encouraging fair international trade in food. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to ensure that the world's food supply is sound, wholesome, free from adulteration, and correctly labeled. In the United States, USDA, FDA, and EPA manage and carry out U.S. Codex.

The Codex Ad Hoc Intergovernmental Task Force on Fruit and Vegetable Juices is tasked with revising and consolidating the existing Codex standards and guidelines for fruit and vegetable juices and related products. It is also tasked with revising and updating the methods of analysis and sampling for these products. The Committee is chaired by Brazil.

#### Issues To Be Discussed at the Public Meeting

The provisional agenda items and draft U.S. positions will be discussed during the public meeting:

Each issue listed will be fully described in documents distributed, or to be distributed, by the Brazilian Secretariat to the Meeting. Members of the public may access or request copies of these documents (*see ADDRESSES*).
