

and telephone number, a statement of the interests represented and the issues of interest to the applicant, and a detailed description of the applicant's knowledge and qualifications to serve on the Committee. The application should further be supported by a statement indicating a willingness to serve on the Committee for a 2 year period of time; a commitment to attend three 1-day meetings per year in Washington, DC at the applicant's own expense; and a commitment to work on at least one working group. Members will have an initial and continuing obligation to disclose any interests in, or connections to, persons or entities that are, or will be, regulated by or have interests before the Commission.

After the applications have been reviewed, the Commission will publish a notice in the **Federal Register** announcing the appointment of the Committee members and the first meeting date of the Committee. It is anticipated that the first Committee meeting will take place on April 11, 2003.

Federal Communications Commission.

K. Dane Snowden,

Chief, Consumer & Governmental Affairs Bureau.

Wireless Telecommunications Bureau Seeks To Verify ITFS, MDS, and MMDS License Status and Pending Applications; Requests for Extension of Response Date Filed by Troutman Sanders LLP and the Wireless Communications Association International/The National ITFS Association

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Federal Communications Commission (FCC) extends the time until February 3, 2003 for all Instructional Television Fixed Service, Multipoint Distribution Service, and Multichannel Multipoint Distribution Service licensees to respond to the October 18, 2002 *Public Notice* requiring all Instructional Television Fixed Service (ITFS), Multipoint Distribution Service (MDS), and Multichannel Multipoint Distribution Service (MMDS) (collectively, the "Services") licensees

and applicants to verify licensing information and associated technical data, and submit required corrections.

FOR FURTHER INFORMATION CONTACT:

Legal Matters: contact John J. Schauble, Chief, Policy and Rules Branch, Public Safety and Private Wireless Division, at (202) 418-0680.

For all questions regarding data corrections, and how to file those corrections, contact the Licensing Support Hotline at 1-888-225-5322 and select option 2.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Order*, DA 02-3371, released on December 5, 2002. The full text of this document is available for inspection and copying during normal business hours in the Federal Communications Commission Reference Center, 445 12th Street, SW., Washington, DC 20554. The complete text may be purchased from the Federal Communications Commission's copy contractor, Qualex International, 445 12th Street, SW., Room CY-B402, Washington, DC 20554. The full text may also be downloaded at: <http://www.fcc.gov>. Alternative formats are available to persons with disabilities by contacting Brian Millin at (202) 418-7426 or TTY (202) 418-7365 or at bmillin@fcc.gov.

1. On October 18, 2002, 67 FR 69010, November 14, 2002, the Wireless Telecommunications Bureau (WTB or Bureau) required all Instructional Television Fixed Service (ITFS), Multipoint Distribution Service (MDS), and Multichannel Multipoint Distribution Service (MMDS) (collectively, the "Services") licensees and applicants in the Services to review licensing information and associated technical data. Specifically, licensees and applicants in the Services were required to verify the available information concerning their licenses and applications, make any necessary corrections concerning that data, and, under certain circumstances, submit corrections or responses to that data by December 17, 2002.

2. On November 25, 2002, the law firm of Troutman Sanders LLP requested a sixty-day extension of time, on behalf of several wireless cable clients, to comply with the *BLS License Inventory Public Notice*. On November 27, 2002, the Wireless Communications Association International and the National ITFS Association (WCA/NIA) jointly filed a similar request. For the reasons stated below, the FCC grants the requests in part and extends the time to respond to the *BLS License Inventory Public Notice* until February 3, 2003.

3. In their requests, Troutman Sanders and WCA/NIA argue that the process of reviewing the FCC's licensing records regarding the Services and preparing corrections is taking far longer than the Bureau anticipated because the vast majority of records require corrections or additional information. WCA/NIA assert that there are a limited number of people with the necessary experience with the MDS and ITFS licensing processes to evaluate the FCC's licensing records, determine whether corrections are needed, and prepare the necessary changes. WCA/NIA also represent that many ITFS licensees will be closed from the middle of December through the middle of January because of the holiday season.

4. Although the FCC does not routinely grant extensions of time, the importance of ensuring that the FCC's licensing records are accurate, and the challenges that licensees and applicants in the Services are facing, indicate that an extension of the December 17, 2002 deadline is appropriate. The FCC does not believe, however, that a sixty-day extension is warranted. In this connection, the FCC notes that electronic application filing has been suspended in the Services. The FCC is concerned that delays in the verification of licensing data and submission of corrections could unduly hinder the Bureau's efforts towards developing accurate licensing records and resuming electronic filing in the Services in an expeditious and efficient manner. Based upon the record before us, the FCC believes the current extension of time would be sufficient to allow licensees and applicants to respond to the *BLS License Inventory Public Notice* and provide any needed corrections. The February 3, 2003 date is beyond the mid-December to mid-January timeframe in which WCA/NIA identified that many ITFS licensees are closed for business. As a result of this extension, licensees and applicants in the Services will have had over 100 days to review the FCC's licensing records and prepare any necessary corrections and responses.

I. Ordering Clauses

5. Pursuant to section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and § 1.46 of the FCC's rules, 47 CFR 1.46, that the requests filed by Troutman Sanders LLP on November 24, 2002 and by the Wireless Communications Association International and the National ITFS Association on November 27, 2002 are granted to the extent stated herein and are otherwise denied in all other respects.

6. Pursuant to section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and § 1.46 of the FCC's rules, 47 CFR 1.46, and that the time for licensees and applicants to respond to the *BLS License Inventory Public Notice* is extended until February 3, 2003.

7. This action is taken under delegated authority pursuant to §§ 0.131 and 0.331 of the FCC's rules, 47 CFR 0.131, 0.331.

Federal Communications Commission.

FEDERAL COMMUNICATIONS COMMISSION

[DA 02-3372]

Clarifies Public Notice Relating to Verification of ITFS, MDS, and MMDS License Status and Pending Applications

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: This document clarifies two issues relating to a Federal Communications Commission (FCC) Public Notice released on October 18, 2002 requiring all Instructional Television Fixed Service (ITFS), Multipoint Distribution Service (MDS), and Multichannel Multipoint Distribution Service (MMDS) (collectively, the "Services") licensees and applicants to review licensing information and associated technical data.

ADDRESSES: Federal Communications Commission 445 12th Street, SW., TW-A325, Washington, DC 20554. See **SUPPLEMENTARY INFORMATION** for filing instructions.

FOR FURTHER INFORMATION CONTACT: Legal Matters: contact John J. Schauble, Chief, Policy and Rules Branch, Public Safety and Private Wireless Division, at (202) 418-0680.

For all questions regarding data corrections, and how to file those corrections, contact the Licensing Support Hotline at 1-888-225-5322 and select option 2.

SUPPLEMENTARY INFORMATION: This is a summary of the Federal Communications Commission's *Public Notice*, DA 02-3372, released on December 5, 2002. The full text of this document is available for inspection and copying during normal business

hours in the Federal Communications Commission Reference Center, 445 12th Street, SW., Washington, DC 20554. The complete text may be purchased from the Federal Communications Commission's copy contractor, Qualex International, 445 12th Street, SW., Room CY-B402, Washington, DC 20554. The full text may also be downloaded at: www.fcc.gov. Alternative formats are available to persons with disabilities by contacting Brian Millin at (202) 418-7426 or TTY (202) 418-7365 or at bmillin@fcc.gov. Licensees and applicants should visit <http://wireless.fcc.gov/services/itfs&mds/licensing/inventory.html> in order to review the tables. For all questions regarding technical aspects of public access to BLS data, contact the FCC Technical Support Hotline: Call 202-414-1250 (TTY 202-414-1255) or e-mail to ulscmm@fcc.gov. The hotline is available Monday through Friday 8 a.m. to 6 p.m. Eastern Time. All calls to the hotline are recorded.

On October 18, 2002, 67 FR 69529, November 18, 2002, the Wireless Telecommunications Bureau (WTB) issued a public notice requiring all Instructional Television Fixed Service (ITFS), Multipoint Distribution Service (MDS), and Multichannel Multipoint Distribution Service (MMDS) (collectively, the "Services") licensees and applicants to review licensing information and associated technical data. Licensees and applicants are required to verify the available information concerning their licenses and applications, make any necessary corrections concerning that data, and, under certain circumstances, submit corrections or responses to that data by February 3, 2003. By this public notice, WTB clarifies two issues relating to the *BLS License Inventory Public Notice*.

First, with respect to licenses in the Services, if a licensee believes that all information pertaining to a license (including both the license tables and the additional technical information available at <http://wireless.fcc.gov/services/itfs&mds/licensing/inventory.html>) is accurate, the licensee is not required to submit a response with respect to that license. With respect to pending applications filed prior to March 25, 2002, however, a response is required even if all the information relating to that pending application is correct. Specifically, the applicant must: (1) affirm, in writing, within sixty days of the release of this public notice, that continued processing of the application is requested, by contacting the FCC at the addresses listed below, and (2) submit a copy of

the application with the written affirmation request.

If the information requested is being sent via United States Postal Service, licensees and applicants must use the following address: Federal Communications Commission, MDS/ITFS Database Corrections, 1270 Fairfield Road, Gettysburg, PA 17325.

Correspondence sent by overnight mail couriers (e.g., Federal Express, United Parcel Service, Airborne), hand-delivery or messenger must be addressed to: Federal Communications Commission, MDS/ITFS Database Corrections, 1120 Fairfield Road, Gettysburg, PA 17325.

Second, ITFS licensees and applicants are not required to verify data relating to receive sites. The FCC notes that ITFS licensees are currently prohibited from registering new receive sites. Moreover, while receive sites registered prior to September 17, 1998 are still entitled to interference protection, most such receive sites receive protection because they are located within the thirty-five mile protected service area of the ITFS station. Under those circumstances, and given the fact that many ITFS stations have a large number of registered receive sites, the FCC concludes that it would be unduly burdensome to require ITFS licensees to verify data relating to receive sites at this time. The FCC encourages ITFS licensees with grandfathered receive sites outside the thirty-five mile protected service area to review the data relating to receive sites and to submit corrections if the data does not accurately reflect the receive site, as registered with the FCC on September 17, 1998. The FCC nonetheless note that the prohibition on registering new ITFS receive sites remains in effect.
