Proposed Amendment of Restricted Area R-2303A and R-2303B, Fort Huachuca, AZ

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This action proposes to amend the designated time of use for restricted area R-2303A (R-2303A) and R-2303B, Fort Huachuca, AZ. Increased training requirements at Fort Huachuca have resulted in a regular need for restricted airspace usage up to 1700 hours Monday through Friday. This proposed modification would not change the current boundaries or activities conducted in R-2303 A and B. **DATES:** Comments must be received on or before March 10, 2003.

Background

Restricted airspace at Fort Huachuca, AZ, dates back to the 1960's. The current designated time of use for the restricted area was based on past use. The U.S. Army requested this change since increased training requirements have resulted in a regular need for restricted airspace usage up to 1700 hours Monday through Friday. The restricted areas hours of use during the past several years has been routinely extended from 1600 hours to 1700 hours by the issuance of a Notice to Airmen (NOTAM).

The Proposal

The FAA is proposing an amendment to 14 Code of Federal Regulations (CFR) part 73 to amend the designated time of use for R-2303A and R-2303B Fort Huachuca, AZ. Specifically, this action proposes to change the designated time of use for R-2303 A and B from "Monday-Friday 0700-1600 local time," to "Monday-Friday 0700-to 1700 local time." The U.S. Army has proposed this modification to better accommodate increased training requirements at Fort Huachuca. This action would not change the current boundaries or activities conducted within R-2303A and B.

Section 73.48 of part 73 of the Federal Aviation Regulations was republished in FAA Order 7400.8K dated September 26, 2002.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when

promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subjected to the appropriate environmental analysis in accordance with FAA Order 1050.1D, Policies and Procedures for Considering Environmental Impacts, prior to any FAA final regulatory action.

Background on Viticultural Areas

ATF's Authority

The Federal Alcohol Administration Act (FAA Act) at 27 U.S.C. 205(e) requires that alcohol beverage labels provide the consumer with adequate information regarding a product's identity, while prohibiting the use of deceptive information on such labels. The FAA Act also authorizes ATF to issue regulations to carry out the Act's provisions.

Regulations in 27 CFR Part 4, Labeling and Advertising of Wine, allow the establishment of definitive viticultural areas and the use of their names as appellations of origin on wine labels and in wine advertisements. Title 27 CFR Part 9, American Viticultural
