[Docket No. FAA-2002-14075; Airspace Docket No. 02-AAL-07]

Establishment of Class E Airspace; Wasilla, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes new Class E airspace extending upward from 700 feet above the surface at Wasilla, AK. The FAA has developed a new Standard Instrument Approach Procedure (SIAP) for the Wasilla Airport. Class E airspace upward from 700 feet above the surface is necessary

to ensure that Instrument Flight Rules (IFR) operations remain within controlled airspace when executing the new SIAP. The intended effect of this rule is to provide adequate controlled airspace for IFR operations at Wasilla Airport, Wasilla, AK.

EFFECTIVE DATE: 0901 UTC, March 20, 2003.

SUPPLEMENTARY INFORMATION:**History**

On October 7, 2002, a proposal to revise part 71 of the Federal Aviation Regulations (14 CFR part 71) to add Class E airspace at Wasilla, AK, was published in the **Federal Register** (67 FR 62410-62412) on October 7, 2002. The FAA has developed a new Standard Instrument Approach Procedure (SIAP) for the Wasilla Airport. The approach is designated *Area Navigation (Gobal Positioning System) (RNAV GPS) Runway 3, original*. The new Class E airspace is necessary to contain aircraft executing the *RNAV (GPS) Runway 3* approach within controlled airspace. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No public comments have been received, thus, the rule is adopted as written.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 of FAA Order 7400.9K, *Airspace Designations and Reporting Points*, dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be added to the Order.

The Rule

This revision to 14 CFR part 71 establishes new Class E airspace upward from 700 feet above the surface at Wasilla, Alaska. Additional Class E airspace is established to contain aircraft executing a new SIAP and will be depicted on aeronautical charts for pilot reference. The intended effect of this rule is to provide adequate

controlled airspace for IFR operations at Wasilla Airport, Wasilla, Alaska.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

SUPPLEMENTARY INFORMATION:

Before Commissioners: Pat Wood, III,
Chairman; William L. Massey, and
Nora Mead Brownell.

Correction of Final Rule

On May 16, 2002, the Commission issued Order No. 626, a Final Rule that provided for electronic filing of FERC Form No. 1 and the elimination of certain designated schedules in FERC Form Nos. 1 and 1-F.¹ In this correction, the Commission is correcting its Final Rule and identifying what designated lines and schedules in Form

No. 1-F (Form 1-F), principally in the Comparative Balance Sheet and the Statement of Income for the Year, should be retained or eliminated.

The following schedules or parts of schedules are eliminated from Form 1-F:

[sbull] Data on Security Holders and Voting Powers (Part X, P. 18).

(Nonmajor utilities should continue to report Data on Officers and Directors (Part XI, P. 18), however.)

[sbull] Number of Electric Department Employees (P. 323).

The Commission corrects the Final Rule by not eliminating the following from the Form 1-F: Nonutility Property (121, P. 110); Capital Stock Subscribed, Capital Stock Liability for Conversion, Premium on Capital Stock, and Installments Received on Capital Stock (252, P. 112); Discount on Capital Stock (254, P. 112); Particulars Concerning Certain Income Deduction and Interest Charges (340, P. 117); Electric Distribution Meters and Line Transformers (429, lines 63 & 65, P. 206); and Allowance for Borrowed Funds Used During Construction in Construction Overheads—Electric (217, P. 8). These line items contain accounts reflected in the Commission's Uniform System of Accounts that are needed to provide an accurate and complete reporting of a utility's accounting for transactions and events, and to provide relevant non-financial information related to its operations.

By the Commission.

Linwood A. Watson, Jr.,

Deputy Secretary.

Oil and Gas and Sulphur Operations in the Outer Continental Shelf— Document Incorporated by Reference—API RP 14C

AGENCY: Minerals Management Service
(MMS), Interior.

ACTION: Corrections to final regulations.

SUMMARY: This document contains corrections to the final regulations published on August 9, 2002 (67 FR 51757). The final rule related to updating one document incorporated by reference in regulations governing oil, gas, and sulphur operations in the Outer

Continental Shelf (OCS). The final rule updated the American Petroleum Institute (API) Recommended Practice (RP) 14C document to the Seventh Edition, March 2001. The new edition allows lessees to use updated industry standard technologies while operating in the OCS. The corrections being made are non-substantive and are necessary for clarification purposes only.

EFFECTIVE DATE: September 9, 2002.

FOR FURTHER INFORMATION CONTACT:
Wilbon A. Rhome, (703) 787-1587.

SUPPLEMENTARY INFORMATION:

Background

The final regulations that are the subject of these corrections revised the incorporated-by-reference API document RP 14C, for Analysis, Design, Installation and Testing of Basic Surface Safety Systems for Offshore Production Platforms, to incorporate the new Seventh Edition of API RP 14C. MMS determined that:

[sbull] Incorporating into regulations the Seventh Edition that specifies a reduced testing frequency will not jeopardize the use of the best and safest technologies.

[sbull] The changes between the old and new editions represent new industry standard technology and will not impose undue cost on the offshore oil and gas industry.

[sbull] The changes to our regulations will eliminate the need for industry to request certain departures from the regulations.

Based on the determinations, the final rulemaking incorporated the new Seventh Edition of API RP 14C. The final rule also made corresponding revisions to the appropriate regulatory sections that reference API RP 14C.

The 30 CFR part 250 regulations incorporate many industry standards. Section 250.198 describes our documents incorporated by reference policy and procedures, and meets the **Federal Register** (FR) legal requirements for incorporating documents by reference. Section 250.198 also provides a complete list of all incorporated documents and the corresponding regulatory cites.

The legal department of the FR reviews all Final Rulemaking actions when they incorporate documents by reference into agencies' regulations. Upon review of the final rule that is the subject of this correction, the FR legal department advised us that whenever our regulations cite a document incorporated by reference, the regulation must refer readers to § 250.198. The FR specified that the statement "incorporated by reference as specified in § 250.198" be inserted
