The exchange would provide CWPCo with additional land to provide pedestrian access to the project and also provide additional land to buffer the existing wetlands. CWPCo requests that the project boundary be changed to include the 9.18 acres, and to remove the 19.28 acres conveyed to Mr. Berry from the project.

"e-filing" link. The Commission strongly encourages electronic filings. Please include the project number (P-516-374) on any comments or motions filed.

The Commission's rules of practice and procedure require all interveners filing a document with the Commission to serve a copy of that document on each person in the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

The Commission has ordered a remediation of the project's dam that will necessitate a drawdown of Lake Murray for several years. The dam remediation project will create conditions that are not representative of the conditions under which the project normally operates and render meaningless any relicensing studies pursued under such conditions. SCE&G filed a notice of intent to relicense the project on August 30, 2002.
