Sales Below Cost in the Home Market

As discussed in detail in the preliminary results, the Department disregarded home-market below-cost sales that failed the cost test.

Changes Since the Preliminary Results

Based on our analysis of the comments received, we have made certain changes in the margin calculation. See "Cost of Production and Constructed Value Calculation Adjustments for the Final Results" from Robert Greger to Neal Halper, Director, Office of Accounting and "Final Results Analysis Memorandum of SIBRA/CPFL/Urucum" from Katja Kravetsky and Brian Ellman to the File, both dated March 16, 2004.

Final Results of Review

As a result of our review, we determine that the following weighted-average margin exists for the collapsed parties SIBRA, CPFL, and Urucum for the period December 1, 2001, through November 30, 2002:

Manufacturer/exporter	Weighted-average percentage margin
SIBRA/CPFL/Urucum ...	13.02

Duty Assessment and Cash Deposit Requirements

The Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated an importer-specific assessment rate. The Department will issue appropriate assessment instructions directly to CBP within 15 days of publication of these final results of review. Further, the following deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of silicomanganese from Brazil entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for SIBRA/CPFL/Urucum will 13.02 percent; (2) for merchandise exported by producers or exporters that were previously reviewed or investigated, the cash deposit will continue to be the most recent rate published in the final determination or final results for which the producer or exporter received an individual rate; (3) if the exporter is not a firm covered in

this review, a prior review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the subject merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review, the cash deposit rate shall be 17.60 percent, the all-others rate established in the LTFV investigation. See *Notice of Final Determination of Sales at Less Than Fair Value: Silicomanganese from Brazil*, 59 FR 55432, (November 7, 1994). These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

Notification of Interested Parties

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during the review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO as explained in the administrative protective order itself. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

These final results of administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 16, 2004.

Jeffrey May,

Acting Assistant Secretary for Import Administration.
