2. *Report title:* Weekly Report of Assets and Liabilities for Large U.S. Branches and Agencies of Foreign Banks.

Agency form number: FR 2069

OMB Control number: 7100–0030

Frequency: Weekly

Reporters: U.S. branches and agencies of foreign banks

Annual reporting hours: 14,560 hours

Estimated average hours per response: 4.00 hours

Number of respondents: 70

General description of report: This information collection is voluntary (12 U.S.C. § 248(a)(2) and 3105(a)(2)).

Individual respondent data are regarded as confidential under the Freedom of Information Act (5 U.S.C. § 552(b)(4)).

Abstract: The FR 2416, FR 2644, and the Weekly Report of Assets and Liabilities for Large U.S. Branches and Agencies of Foreign Banks (FR 2069; OMB No. 7100–0030) are referred to collectively as the bank credit reports. The FR 2416 is a detailed balance sheet that covers domestic offices of large U.S.–chartered commercial banks. The FR 2644 collects less-detailed information on investments, loans, total assets, and several memoranda items, covering domestic offices of small U.S.–chartered commercial banks. The FR 2069 is a detailed balance sheet that covers large U.S. branches and agencies of foreign banks. The bank credit reports are collected as of each Wednesday.

These three voluntary reports are mainstays of the Federal Reserve's reporting system from which data for analysis of current banking developments are derived. The FR 2416 is used on a stand-alone basis as the "large domestic bank series." The FR 2644 collects sample data, which are used to estimate universe levels using data from the quarterly commercial bank Consolidated Reports of Condition and Income (FFIEC 031 and 041; OMB No. 7100–0036) (Call Report). Data from the bank credit reports, together with data from other sources, are used for constructing weekly estimates of bank credit, of sources and uses of bank funds, and of a balance sheet for the banking system as a whole.

The Federal Reserve publishes the data in aggregate form in the weekly H.8 statistical release, Assets and Liabilities of Commercial Banks in the United States, which is followed closely by other government agencies, the banking industry, the financial press, and other users. This release provides a balance sheet for the banking industry as a whole and data disaggregated by its

large domestic, small domestic, and foreign-related components.

Current actions: Federal Reserve has approved the proposed changes to the FR 2416: (1) Split other assets into two items, (2) split other liabilities into two items, and (3) combine three memoranda items breaking out U.S. Treasury securities. The Federal Reserve has approved the proposed changes to the FR 2644: (1) Split other loans secured by real estate into two items, (2) add an item for net due from own foreign offices, and (3) add an item for net due to own foreign offices. The Federal Reserve has approved the proposed changes to the FR 2069: (1) Combine items for federal funds purchased with banks and other borrowed money owed to banks and (2) combine items for federal funds purchased with others and other borrowed money owed to others.

These proposed changes to the FR 2416, FR 2644, and FR 2069 will be effective with the reports for June 2, 2004.

Board of Governors of the Federal Reserve System, March 19, 2004.

Jennifer J. Johnson,

Secretary of the Board.

Communication and Technical Assistance Support for HIV/AIDS Prevention Programs; Notice of Intent To Fund Single Eligibility Award

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2004 funds for a cooperative agreement program for support of CDC HIV related policies and programs by facilitating communication and problem solving with State and territorial health department HIV/AIDS Directors and providing technical assistance (TA) to them. The Catalog of Federal Domestic Assistance number for this program is 93.941.

B. Eligible Applicant

Assistance will be provided only to the National Alliance of State and Territorial AIDS Directors (NASTAD). No other applications are solicited or will be accepted.

NASTAD is the appropriate and only qualified agency to provide the services specified under this cooperative agreement because:

- The activities supported under this cooperative agreement can only be provided by an organization that formally represents the interests of the HIV/AIDS Program Directors of State and territorial health departments.
- NASTAD is the only officially established organization that represents the State and Territorial AIDS Directors in all 50 States and all U.S. Territories.

NASTAD was formed by the States to represent their interests to other government agencies.

- NASTAD draws upon its membership to provide input on the development and implementation of HIV policies and programs. It is able to facilitate multi-jurisdictional involvement on these issues. NASTAD regularly keeps its members informed about relevant issues.

- NASTAD members provide peer-to-peer assistance on the implementation of new policies and programs. These members share their experience so other State programs can benefit.

C. Funding

Approximately \$1,368,662 is available in FY 2004 to fund this award. It is expected that the award will begin on or before April 1, 2004, and will be made for a 12-month budget period within a project period of up to 5 years. Funding estimates may change.
