### Transfer of Voluntary Inspection of Egg Products Regulations

**AGENCY:** Food Safety and Inspection Service and Agricultural Marketing Service, USDA.

**ACTION:** Final rule, with an opportunity to comment.

**SUMMARY:** The Food Safety and Inspection Service (FSIS) and the Agricultural Marketing Service (AMS) are transferring the regulations governing the voluntary inspection of egg products from 7 CFR part 55 to 9 CFR part 592 to reflect that this program has been transferred to FSIS. This transfer occurred at the time the Secretary of Agriculture delegated all functions under the Egg Products Inspection Act to the Administrator of FSIS. FSIS is updating the regulations to better reflect current inspection practices. FSIS is providing the public with an opportunity to comment on the clarity and technical accuracy of the amended regulations.

**DATES:** This rule is effective January 12, 2004. Please submit comments by February 11, 2004.

**ADDRESSES:** Submit one original and two copies of written comments to the FSIS Docket Room, Docket #01-031F, U.S. Department of Agriculture, Food Safety and Inspection Service, Room 102, Cotton Annex, 300 12th Street, SW., Washington, DC 20250-3700. All comments submitted in response to this

proposal will be available for public inspection in the Docket Room between 8:30 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** For further information, contact Lynn Dickey, Ph.D., Director, Regulations and Petitions Policy Staff, Office of Policy and Program Development, FSIS, U.S. Department of Agriculture, Room 112, Cotton Annex, 300 12th Street, SW., Washington, DC 20250-3700, (202) 720-5627, fax number (202) 690-0486.

#### SUPPLEMENTARY INFORMATION:

##### Background

FSIS and AMS are transferring the regulations governing the voluntary inspection of egg products from 7 CFR part 55 to 9 CFR part 592. Several years ago, the Secretary of Agriculture delegated to the FSIS Administrator all functions under the Egg Products Inspection Act (21 U.S.C. 1041, *et seq.*). On December 31, 1998, the regulations governing the mandatory inspection of egg products were transferred from Title 7 to Title 9 of the CFR (63 FR 72352). The regulations governing the voluntary inspection of egg products were not transferred and remained in 7 CFR part 55. However, FSIS provides the voluntary inspection of egg products under the Agriculture Marketing Act of 1946, as amended (7 U.S.C. 1621 *et seq.*). This rule transfers the regulations in 7 CFR part 55 to 9 CFR 592.

Further, FSIS is updating the regulations to better reflect current inspection practices. The Agency is eliminating any references to grading, which the Agency does not perform, and deleting any mention of licensing.

To improve the marketing of egg products, FSIS provides a voluntary egg products inspection program on a fee for service basis. Egg products may be certified as acceptable for identification with the inspection mark according to class, quality, quantity, and condition. Voluntary egg products inspection service is used for certification to Federal, State, and Commercial Item Specifications requirements. Examples of such specifications include those of the USDA Commodity Purchase Program (needy family and school lunch programs), the Department of Defense, exports, and of other government institutions (Veterans Administration hospitals and State hospitals and prisons). Voluntary inspection may also

include certification of further processed egg products that are not amenable to the EPIA, *e.g.*, fully cooked egg patties or omelets.

#### Final Rule With an Opportunity To Comment

FSIS and AMS have determined that the notice and comment and delayed effective date requirements of the Administrative Procedure Act (5 U.S.C. 533(b) and (d)) do not apply to this final rule. The amendments made by this rule reflect FSIS' responsibilities regarding voluntary egg products inspection and technical and minor changes made to the regulations. Therefore, FSIS and AMS conclude that good cause exists to find that notice and public procedure are unnecessary, and they are issuing these amendments as a final rule, effective upon publication.

Because the transfer of the regulations has necessitated making a number of changes to the regulations, FSIS is providing the public with an opportunity to comment on the clarity and technical accuracy of the amended regulations. The Agency requests that those with comments submit them during the 30 days that follow publication of the rule.

#### Executive Order 12866 and Regulatory Flexibility Act

Because this final rule has been determined to be not significant, the Office of Management and Budget (OMB) did not review it under Executive Order 12866.

The Administrator, FSIS, has determined that this final rule will not have a significant economic impact, as defined by the Regulatory Flexibility Act (5 U.S.C. 601), on a substantial number of small entities.

Small establishments and plants will not be affected adversely by the transfer of the voluntary inspection of egg products regulations because there are no costs or change in services associated with this rule.

#### Economic Effects

The transfer of the Voluntary Egg Products Inspection regulations from Title 7 to Title 9 will not impose any costs to consumers, industry, or any Federal, State, or local government agency. FSIS has been conducting the voluntary inspection of egg products under 7 CFR 55 for several years.

**Executive Order 12988**

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. This final rule: (1) preempts State and local laws and regulations that are inconsistent with this rule; (2) has no retroactive effect; and (3) does not require administrative proceedings before parties may file suit in court challenging this rule.

**Additional Public Notification**

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to better ensure that minorities, women, and persons with disabilities are aware of this final rule, FSIS will announce it and make copies of this **Federal Register** publication available through the FSIS Constituent Update. FSIS provides a weekly Constituent Update, which is communicated via Listserv, a free e-mail subscription service. In addition, the update is available on-line through the FSIS web page located at <http://www.fsis.usda.gov>. The update is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and any other types of information that could affect or would be of interest to our constituents/stakeholders. The constituent Listserv consists of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals that have requested to be included. Through the Listserv and web page, FSIS is able to provide information to a much broader, more diverse audience than would otherwise be possible.

For more information contact the Congressional and Public Affairs Office, at (202) 720-9113. To be added to the free e-mail subscription service (Listserv) go to the "Constituent Update" page on the FSIS Web site at <http://www.fsis.usda.gov/oa/update/update.htm>. Less than 8-hour schedules may be requested and will be approved if inspection program personnel are available. Clock hours of daily operations need not be specified in the request, although as a condition of continued approval, the hours of operation shall consist of a continuous 10-hour period per day (excluding but not to exceed 1 hour for lunch), 4 consecutive days per week, within the administrative workweek, Sunday through Saturday for each full shift required. **§ 592.150 When an application may be rejected.**

(a) Any application for service may be rejected by the Administrator:

(1) Whenever the applicant fails to meet the requirements of the regulations in this part prescribing the conditions under which the service is made available;

(2) Whenever the product is owned by or located on the premises of a person currently denied the benefits of the Act;

(4) Where the Administrator determines that the application is an attempt on the part of a person currently denied the benefits of the Act to obtain service;

(5) Whenever the applicant, after an initial survey has been made in accordance with Part 590, fails to bring the plant, facilities, and operating procedures into compliance with the regulations in this part within a reasonable period of time;

(6) Notwithstanding any prior approval whenever, before inauguration of service, the applicant fails to fulfill commitments concerning the inauguration of the service;

(7) When it appears that to perform the services specified in this part would not be to the best interests of the public welfare or of the Government; or

(8) When it appears to the Administrator that prior commitments of the Department necessitate rejection of the application.

(b) Each such applicant shall be promptly notified by registered mail of the reasons for the rejection. A written petition for reconsideration of such rejection may be filed by the applicant with the Administrator if postmarked or delivered within 10 days after receipt of notice of the rejection. Such petition shall state specifically the errors alleged to have been made by the Administrator in rejecting the application. Within 20 days following the receipt of such a petition for reconsideration, the Administrator shall approve the application or notify the applicant by registered mail of the reasons for the rejection thereof.

**§ 592.160 When an application may be withdrawn.**

An application for service may be withdrawn by the applicant at any time before the service is performed upon payment, by the applicant, of all expenses incurred by the Agency in connection with such application.

**§ 592.170 Order of service.**

Service shall be performed, insofar as practicable, in the order in which applications therefor are made except that precedence may be given to any application for an appeal.

**§ 592.180 Suspension of plant approval.**

(a) Any plant approval pursuant to the regulations in this part may be suspended for:

(1) Failure to maintain plant and equipment in a satisfactory state of repairs;

(2) The use of operating procedures that are not in accordance with the regulations in this part; or

(3) Alterations of buildings, facilities, or equipment that cannot be approved in accordance with the regulations in this part.

(b) During such period of suspension, inspection service shall not be rendered. However, the other provisions of the regulations in this part pertaining to providing service will remain in effect unless service is terminated in accordance with the terms thereof. If the plant facilities or methods of operation are not brought into compliance within a reasonable period of time to be specified by the Administrator, the application and service shall be terminated. Upon termination of service in an official plant pursuant to the regulations in this part, the plant approval shall also become terminated, and all labels, seals, tags, or packaging material bearing official identification shall, under the supervision of a person designated by the Administrator, either be destroyed, or if to be used at another

location, modified in a manner acceptable to the Agency.

**Denial of Service**

**§ 592.200 Debarment.**

**[Docket No. AO-368-A30; DA-01-08-PNW]**

#### **Milk in the Pacific Northwest Marketing Area; Interim Order Amending the Order**

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Interim final rule.

**SUMMARY:** This order amends the *Producer milk* provision of the Pacific Northwest milk marketing order to eliminate the ability to simultaneously pool the same milk on the order and on a State-operated order that provides for marketwide pooling. More than the required number of producers on the Pacific Northwest order have approved the issuance of the interim order as amended.

**EFFECTIVE DATE:** February 1, 2004.

**SUPPLEMENTARY INFORMATION:** This administrative rule is governed by the provisions of sections 556 and 557 of title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12866.

This interim rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with the rule.

The Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may request modification or exemption from such order by filing with the

Department a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with the law. A handler is afforded the opportunity for a hearing on the petition. After a hearing, the Department would rule on the petition. The Act provides that the District Court of the United States in any district in which the handler is an inhabitant, or has its principal place of business, has jurisdiction in equity to review the Department's ruling on the petition, provided a bill in equity is filed not later than 20 days after the date of the entry of the ruling.

#### **Small Business Consideration**

In accordance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Agricultural Marketing Service has considered the economic impact of this action on small entities and has certified that this interim rule will not have a significant economic impact on a substantial number of small entities. For the purpose of the Regulatory Flexibility Act, a dairy farm is considered a "small business" if it has an annual gross revenue of less than \$750,000, and a dairy products manufacturer is a "small business" if it has fewer than 500 employees.

For the purposes of determining which dairy farms are "small businesses", the \$750,000 per year criterion was used to establish a production guideline of 500,000 pounds per month. Although this guideline does not factor in additional monies that may be received by dairy producers, it should be an inclusive standard for most "small" dairy farmers. For purposes of determining a handler's size, if the plant is part of a larger company operating multiple plants that collectively exceed the 500-employee limit, the plant will be considered a large business even if the local plant has fewer than 500 employees.

In the Pacific Northwest Federal milk order, 805 of the 1,164 dairy producers (farmers), or about 69 percent, whose milk was pooled under the Pacific Northwest Federal milk order at the time of the hearing, April 2002, would meet the definition of small businesses. On the processing side, 9 of the 20 milk plants associated with the Pacific Northwest milk order during April 2002 would qualify as "small businesses," constituting about 45 percent of the total.

Based on these criteria, at least 69 percent of the producers in the order would be considered as small businesses. The adoption of the proposed pooling standard serves to
