

Montana, (30) days from the date of publication in the **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:**

Steve Toth, Cadastral Surveyor, Branch of Cadastral Survey, Bureau of Land Management, 5001 Southgate Drive, P.O. Box 36800, Billings, Montana 59107-6800, telephone (406) 896-5121 or (406) 896-5009.

**SUPPLEMENTARY INFORMATION:** This survey was executed at the request of the U.S. Forest Service and was necessary to delineate Forest Service lands. The lands we surveyed are:

**Principal Meridian, Montana**

T. 6 S., R. 2 E.

The plat, in three sheets, representing the dependent resurvey of portions of the east boundary and subdivisional lines, the subdivision of section 26 and the survey of a portion of the Lee Metcalf Wilderness Boundary, Township 6 South, Range 2 East, Principal Meridian, Montana, was accepted April 9, 2004.

We will place copy of the plat, in 3 sheets, in the open files. They will be available to the public as a matter of information.

If BLM receives a protest against this survey, as shown on this plat, in three sheets, prior to the date of the official filing, we will stay the filing pending our consideration of the protest.

We will not officially file this plat, in three sheets, until the day after we have accepted or dismissed all protests and they have become final, including decisions or appeals.

Dated: April 9, 2004.

**Thomas M. Deiling,**

*Chief Cadastral Surveyor, Division of Resources.*

### Bureau of Reclamation

#### Operational Changes in Support of Lake Cascade Fishery Restoration, Boise Project, Payette Division, ID

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of cancellation.

**SUMMARY:** The Bureau of Reclamation (Reclamation) is canceling work on the environmental impact statement (EIS) for proposed operational changes at Lake Cascade, on the North Fork Payette River near Cascade, Idaho. Because of a potential for irrigation shortages, and a high probability of a reduction in salmon flow augmentation water as a

result of the proposal, both Reclamation and Idaho Department of Fish and Game (IDFG) decided that the draining of Lake Cascade is not a viable option for sport fish restoration. The notice of intent was published in the **Federal Register** (68 FR 41842, July 15, 2003).

**FOR FURTHER INFORMATION CONTACT:** Mr. Steve Dunn, Snake River Area Office at telephone 208-334-9844, or e-mail [sdunn@pn.usbr.gov](mailto:sdunn@pn.usbr.gov). TTY users may call 208-334-9844 by dialing 711 to obtain a toll free TTY relay.

**SUPPLEMENTARY INFORMATION:** In early 2003, IDFG requested that Reclamation consider draining Lake Cascade to assist in a fishery restoration project to help rebuild the Lake Cascade sport fishery. IDFG had determined that the presence of large numbers of northern pikeminnow and largescale suckers in the lake were a major cause of the decline of the important yellow perch and trout fishery and would prevent recovery of the fishery unless their number were significantly reduced. IDFG had analyzed different methods to remove and/or reduce the numbers of northern pikeminnow and largescale suckers. They concluded the most economical method, with the highest probability for success, would entail lowering the reservoir's water level as much as possible and utilizing a fish toxicant (rotenone) to kill any remaining fish. The reservoir would then be restocked with yellow perch, trout and other gamefish.

Preliminary analysis of the draining proposal identified the potential for significant environmental and socioeconomic effects, and Reclamation concluded that an EIS, because draining the lake would be considered a Federal action, would need to be prepared to comply with the National Environmental Policy Act of 1969. In July 2003, Reclamation published a Notice of Intent to prepare an EIS in the **Federal Register** and to conduct public scoping meetings. Scoping meetings were held in southwest Idaho in early August 2003, and written comments were accepted into September. Over 340 distinct comments were received and reviewed.

The first analysis needed for the proposal was a complete understanding of the physical and logistical aspects of draining Lake Cascade and the reservoir's subsequent refill. Information was needed on how the project would affect irrigation deliveries, salmon flow augmentation supplies, the reservoir conservation pool, river flows and other uses of the Payette River drainage. Reclamation water operations experts conducted

reservoir drawdown and refill studies in the fall of 2003 and recently presented their findings. Major findings of the water studies concluded that the reservoir could be drained to accommodate the fishery renovation proposed by IDFG, but with varying impacts to irrigation deliveries and salmon flow augmentation, depending on hydrologic conditions in the months and years following the drawdown.

The water studies indicated that under one of the drawdown scenarios studied, irrigation deliveries would have little chance of being impaired. Another drawdown scenario identified possible irrigation impacts in the first irrigation season following the drawdown if it was a very dry year, and possibly for more than one year in successive dry years.

However, salmon flow augmentation supplies were likely to be affected by all of the drawdown scenarios analyzed. Impacts would occur in the first augmentation season following the drawdown and potentially for several years afterward. Reclamation has committed to provide up to 427,000 acre-feet of flows, as a result of consultation under the Endangered Species Act, to aid in juvenile salmon migration in the Snake and Columbia Rivers. The Payette River annually supplies approximately one-third of the salmon flow augmentation from Idaho and provides irrigation water to more than 100,000 acres of farmland.

Dated: March 1, 2004.

### Bureau of Reclamation

#### California Bay-Delta Public Advisory Committee Public Meeting

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of meeting.

**SUMMARY:** In accordance with the Federal Advisory Committee Act, the California Bay-Delta Public Advisory Committee will meet on May 13, 2004. The agenda for the meeting will include consideration of subcommittee recommendations and discussion of the CALFED Science Program, the Finance Options Report, the Draft Program Plans, the Delta Improvements Package, and implementation of the CALFED Bay-Delta Program with State and Federal agency representatives.

**DATES:** The meeting will be held Thursday, May 13, 2004, from 9 a.m. to 5 p.m. If reasonable accommodation is needed due to a disability, please contact Pauline Nevins at (916) 445-5511 or TDD (800) 735-2929 at least 1 week prior to the meeting.

**ADDRESSES:** The meeting will be held at the California Bay-Delta Authority offices at 650 Capitol Mall 5th Floor, Bay-Delta Room, Sacramento, California.

**FOR FURTHER INFORMATION CONTACT:** Heidi Rooks, California Bay-Delta Authority, at (916) 445-5511, or Diane Buzzard, U.S. Bureau of Reclamation, at (916) 978-5022.

**SUPPLEMENTARY INFORMATION:** The Committee was established to provide recommendations to the Secretary of the Interior, other participating Federal agencies, the Governor of the State of California, and the California Bay-Delta Authority on implementation of the CALFED Bay-Delta Program. The Committee makes recommendations on annual priorities, integration of the eleven Program elements, and overall balancing of the four Program objectives of ecosystem restoration, water quality, levee system integrity, and water supply reliability. The Program is a consortium of State and Federal agencies with the mission to develop and implement a long-term comprehensive plan that will restore ecological health and improve water management for beneficial uses of the San Francisco/Sacramento and San Joaquin Bay Delta.

Committee and meeting materials will be available on the California Bay-Delta Authority Web site at <http://calwater.ca.gov> and at the meeting. This meeting is open to the public. Oral comments will be accepted from members of the public at the meeting and will be limited to 3-5 minutes.

(Authority: The Committee was established pursuant to the Department of the Interior's authority to implement the Fish and Wildlife Coordination Act, 16 U.S.C. 661 *et seq.*, the Endangered Species Act, 16 U.S.C. 1531 *et seq.*, and the Reclamation Act of 1902, 43 U.S.C. 371 *et seq.*, and the acts amendatory thereof or supplementary thereto, all collectively referred to as the Federal Reclamation laws, and in particular, the Central Valley Project Improvement Act, Pub. L. 102-575.)

Dated: April 1, 2004.

### Bureau of Reclamation

#### Glen Canyon Dam Adaptive Management Work Group (AMWG), Notice of Meeting

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Adaptive Management Program (AMP) was implemented as a result of the Record of Decision on the Operation of Glen Canyon Dam Final Environmental Impact Statement to comply with consultation requirements of the Grand Canyon Protection Act (Pub. L. 102-575) of 1992. The AMP provides an organization and process to ensure the use of scientific information in decisionmaking concerning Glen Canyon Dam operations and protection of the affected resources consistent with the Grand Canyon Protection Act. The AMP has been organized and includes a Federal advisory committee (AMWG), a technical work group (TWG), a monitoring and research center, and independent review panels. The TWG is a subcommittee of the AMWG and provides technical advice and information for the AMWG to act upon.

**Date and Location:** The TWG will conduct the following public meeting:

*Phoenix, Arizona—May 3 and 4, 2004.* The meeting will begin at 9:30 a.m. and conclude at 5 p.m. on the first day and will begin at 8 a.m. and conclude at noon on the second day. The meeting will be held at the Bureau of Indian Affairs—Western Regional Office, 2 Arizona Center, 400 N. 5th Street, Conference Room A (12th Floor), Phoenix, Arizona.

**Agenda:** The purpose of the meeting will be to begin development of the long-term experimental plan, and discuss the TWG Operating Procedures, ad hoc group updates, environmental compliance, and other administrative and resource issues pertaining to the AMP.

To allow full consideration of information by the TWG members, written notice must be provided to Dennis Kubly, Bureau of Reclamation, Upper Colorado Regional Office, 125 South State Street, Room 6107, Salt Lake City, Utah 84138; telephone (801) 524-3715; faxogram (801) 524-3858; e-mail at [dkubly@uc.usbr.gov](mailto:dkubly@uc.usbr.gov) (5) days prior to the meeting. Any written comments received will be provided to the AMWG and TWG members prior to the meeting.

**FOR FURTHER INFORMATION CONTACT:** Dennis Kubly, telephone (801) 524-

3715; faxogram (801) 524-3858; or via e-mail at [dkubly@uc.usbr.gov](mailto:dkubly@uc.usbr.gov).

Dated: April 6, 2004.

**Dennis Kubly,**

Chief, Adaptive Management Group,  
Environmental Resources Division, Upper  
Colorado Regional Office.

## DEPARTMENT OF JUSTICE

### Notice of Lodging of Consent Decree Pursuant to the Clean Water Act and the Resource Conservation and Recovery Act

Notice is hereby given that on March 24, 2004, a proposed consent Decree in *United States v. Caribbean Petroleum Refining, L.P.*, Civil Action No. 99-1171 (SEC), was lodged with the United States District Court for the District of Puerto Rico.

The proposed Consent Decree resolves the United States' claims on behalf of the U.S. Environmental Protection Agency ("EPA") for injunctive relief under the Clean Water Act and the Resource Conservation and Recovery Act ("RCRA"), subtitles C and I, against Caribbean Petroleum Refining, L.P. ("CPR"). Pursuant to the Consent Decree, CPR is required to comply with all terms and provisions, including the effluent limitations, of its NPDES Permit, comply with all CFR part 265, subparts G, H and K post closure care requirements for its Equalization Basin, including conducting groundwater monitoring or remediation pursuant to any EPA-approved groundwater plan, and comply with applicable requirements of Subtitle I of RCRA relating to underground storage tanks, including the federally enforceable Puerto Rico regulations provided at 40 CFR 282.102, that are applicable to all underground storage tanks located at the CPR Facility. In a prior, now final, settlement stipulation entered in CPR's bankruptcy proceeding, CPR agreed to pay a civil penalty of \$1.3 million over six years.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General of the Environment and Natural Resources Division, Department of Justice, Washington, DC 20530, and should refer to *United States v. Caribbean Petroleum Refining, L.P.*, Civil Action No. 99-1171 (SEC), D.J. Ref. 90-5-1-1-4058.

The proposed Consent Decree may be examined at the Office of the United
