Notice is hereby given that on April 7, 2004 a proposed consent Decree in *United States v. In this action, the United States sought the recovery of costs incurred and to be incurred by the United States in response to releases or threatened releases of hazardous substances at and from the Eureka Mills NPL site located in Eureka, Utah (the "Site"). The Hansen Companies' settlement is based on the limited financial resources available to the Companies and Mr. Spenst Hansen. The Decree provides for various in-kind contributions of materials like clean water and soil necessary to implement the clean up, allows EPA to construct response action structures on the Hansen Company properties, and provides for operation and maintenance of response action structures by the Hansen Companies.
