

Study. All sites associated with the Vicksburg Campaign Trail would be linked in a formally designated VCT Initiative. As with Alternative B, Alternative C would seek to protect some nationally significant (Tier One) sites by addition to the National Park System.

Environmentally Preferred

Alternative. Alternative A would generally not meet NEPA's goals. It allows for significant, irreplaceable historic resources to be degraded or lost. While both Alternatives B and C would contribute substantially to meeting the NEPA goals, Alternative C is the environmentally preferred alternative. Alternative C would achieve the most at preserving important historic and cultural aspects of our national heritage along the Vicksburg Campaign Trail, as well as providing for greater enhancement of the visitor experience than Alternative B.

DATES: As part of its efforts to comply with NEPA, gather input from the public, determine which issues to address in the EIS, and inform the public, agencies, and stakeholders of its ideas and options for the Vicksburg Campaign Trail, the NPS conducted a series of public scoping meetings in 2002. Meetings were conducted at the following locations and dates: Helena, Arkansas—March 4, 2002, Grenada, Mississippi—March 5, 2002, Jackson, Mississippi—March 6, 2002, Tallulah, Louisiana—March 7, 2002, Baton Rouge, Louisiana—March 8, 2002, Dover, Tennessee—May 29, 2002, Murray, Kentucky—May 29, 2002, and Pickwick Landing State Park, Tennessee—May 30, 2002. Copies of the Draft Environmental Impact Statement will be available at the following locations: Vicksburg National Military Park, 3201 Clay Street, Vicksburg, Mississippi 39183; Shiloh National Military Park, 1055 Pittsburg Landing Road, Shiloh, Tennessee 38376; Arkansas Post National Memorial, 1741 Old Post Road, Gillet, Arkansas 72005; and, Fort Donelson National Battlefield, P.O. Box 434, 174 National Cemetery Drive, Dover, Tennessee 37058.

This Feasibility Study will be published on the Web at <http://planning.nps.gov/plans1.cfm>.

ADDRESSES: Comments on the Vicksburg Campaign Trail Feasibility Study Draft Environmental Impact Statement should be directed to Bill Koning, National Park Service, Denver Service Center, P.O. Box 25287, 12795 W. Alameda Parkway, Denver, Colorado 80225-0287.

FOR FURTHER INFORMATION CONTACT: Requests for information concerning the feasibility study and DEIS should be directed to Superintendent, Vicksburg

National Military Park, 3201 Clay Street, Vicksburg, Mississippi 39183, (601) 636-0583, or Bill Koning, National Park Service, Denver Service Center, P.O. Box 25287, 12795 W. Alameda Parkway, Denver, Colorado 80225-0287, (303) 969-2390.

SUPPLEMENTARY INFORMATION: On July 4, 1863, after an eight-month campaign and siege, heavily-fortified Vicksburg, Mississippi capitulated to Federal forces commanded by General Ulysses S. Grant. This surrender gave the Union control of the Lower Mississippi River and effectively cut the Confederate States of America in half. It was regarded by many at the time, including President Abraham Lincoln, as one of the pivotal events of that great conflict; contemporary Civil War historians continue to regard it in that light. Grant's monumental campaign to capture the "Gibraltar of the Confederacy" is seen by military historians as a brilliant logistical exhibition, encompassing long and difficult flanking maneuvers, cavalry raids, pitched battles, naval engagements, and siege warfare. Grant's triumph at Vicksburg paved the way for his subsequent battles at Chattanooga in November 1863, and then—as commander of all Union armies—at the Wilderness and Petersburg. Ultimately, it made possible his eventual election as President of the United States.

In November 2000, Pub. L. 106-487 authorized a feasibility study of the preservation of Civil War battlefields along the Vicksburg Campaign Trail. The task is to examine and evaluate a variety of sites in states associated with the Civil War events of the Vicksburg Campaign. The feasibility study was to be completed within three years and was to examine a large number and wide variety of sites in Arkansas, Louisiana, Mississippi, and Tennessee. A technical correction is pending before Congress to add the Commonwealth of Kentucky to the study. Each site would be evaluated for national significance, as well as the suitability and feasibility of adding it to the National Park System. The DEIS now available for public review and comment analyzes the potential environmental effects of different management options for the sites found to be eligible for inclusion in the National Park System.

The legislation also directed (a) a review of current NPS programs, policies, and criteria to determine the most appropriate means of preservation; (b) evaluations for the establishment of a site and management entity consisting of a unit of government or private non-profit organization; and (c)

recommendations to the states regarding the management, preservation, and interpretation of natural, cultural and historical resources associated with the various sites. Furthermore, the legislation directed that partnerships among Federal, state, and local governments, regional entities, and the private sector be identified to provide an effective means of preserving specific battlefield sites. Finally, the legislation required that methods of ensuring continued local involvement in the management of battlefield sites be explored.

Anonymous comments will not be considered. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety. However, individual respondents may request that we withhold their names and addresses from the public record, and we will honor such requests to the extent allowed by law. If you wish to withhold your name and/or address, you must state that request prominently at the beginning of your comment. Please note that due to public disclosure requirements, the NPS, if requested, may have to make the names and addresses of those who submit written comments public.

The responsible official for this DEIS is the Regional Director, National Park Service, Southeast Region, 100 Alabama Street, SW., Atlanta, Georgia 30303.

Bureau of Reclamation

Change in Discount Rate for Water Resources Planning

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of change.

SUMMARY: The Water Resources Planning Act of 1965 and the Water Resources Development Act of 1974 require an annual determination of a discount rate for Federal water resources planning. The discount rate

for Federal water resources planning for fiscal year 2004 is 5.625 percent. Discounting is to be used to convert future monetary values to present values.

DATES: This discount rate is to be used for the period October 1, 2003, through and including September 30, 2004.

FOR FURTHER INFORMATION CONTACT:

James R. Handlon, Economist, Office of Program and Policy Services, Washington DC 20240; telephone: (202) 513-0603.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the interest rate to be used by Federal agencies in the formulation and evaluation of plans for water and related land resources is 5.625 percent for fiscal year 2004.

This rate has been computed in accordance with Section 80(a), Pub. L. 93-251 (88 Stat. 34) and 18 CFR 704.39, which: (1) Specify that the rate shall be based upon the average yield during the preceding fiscal year on interest-bearing marketable securities of the United States which, at the time the computation is made, have terms of 15 years or more remaining to maturity (average yield is rounded to nearest one-eighth percent); and (2) provide that the rate shall not be raised or lowered more than one-quarter of 1 percent for any year. The Treasury Department calculated the specified average to be 4.893 percent. Rounding this average yield to the nearest one-eighth percent is 4.875 percent, which exceeds the permissible one-quarter of 1 percent change from fiscal year 2003 to 2004. Therefore, the change is limited to one-quarter of 1 percent.

The rate of 5.625 percent shall be used by all Federal agencies in the formulation and evaluation of water and related land resources plans for the purpose of discounting future benefits and computing costs or otherwise converting benefits and costs to a common time basis.

Editorial Note: This document was received in the Office of the Federal Register on April 21, 2004.

Dated: November 3, 2003.

Roseann Gonzales,
Acting Deputy Director, Office of Program and Policy Services.
