

justifiable, and consistent with the intended use of cooperative agreement funds?

V.2. Review and Selection Process

Applications will be reviewed for completeness by the Procurement and Grants Office (PGO) staff, and for responsiveness by the National Center for Infectious Diseases. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified that their application did not meet submission requirements.

An objective review panel will evaluate complete and responsive applications according to the criteria listed in the "V.1. Criteria" section above.

In addition, the following factors may affect the funding decision: Funding preference will be given to countries where resources are currently limited and influenza surveillance is not well established due to lack of resources and where there have been problems with avian influenza outbreaks posing threats to human health either in their country or surrounding countries. This would include countries in the following geographic region: Asia

V.3. Anticipated Announcement and Award Dates

Anticipated Award Date: August 1, 2004.

VI. Award Administration Information

VI.1. Award Notices

Successful applicants will receive a Notice of Grant Award (NGA) from the CDC Procurement and Grants Office. The NGA shall be the only binding, authorizing document between the recipient and CDC. The NGA will be signed by an authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application.

Unsuccessful applicants will receive notification of the results of the application review by mail.

VI.2. Administrative and National Policy Requirements

45 CFR Part 74 and Part 92 For more information on the Code of Federal Regulations, see the National Archives and Records Administration at the following Internet address: <http://www.access.gpo.gov/nara/cfr/cfr-table-search.html>.

Improving the Effectiveness of the Diagnosis and Treatment of Tuberculosis and Multi-Drug Resistant Tuberculosis in the Philippines; Notice of Intent to Fund Single Eligibility Award

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2004 funds for a cooperative agreement program to support and ensure the implementation of tuberculosis (TB) control activities that are designed to develop, establish, and coordinate systems and procedures to address the obstacles to achieving control of TB and multi-drug resistant tuberculosis (MDR-TB). The Catalog of Federal Domestic Assistance number for this program is 93.116.

B. Eligible Applicant

Assistance will be provided only to Makati Medical Center (MMC) located in Manila, the Philippines.

The MMC is the only qualified organization that has the technical and administrative capacity to conduct the specific set of activities requested to support CDC TB and MDR-TB prevention and control activities in the Philippines under this cooperative agreement because:

1. The MMC is uniquely positioned, in terms of legal authority, ability, track record, infrastructure and credibility in the Philippines to develop and support TB and MDR-TB control activities in both public and non-governmental organization sites throughout the country.

2. The MMC has already established a framework and mechanisms to develop and implement TB and MDR-TB treatment and control activities in the Philippines, enabling it to immediately become engaged in the activities listed in this announcement.

3. The MMC has demonstrated its ability to coordinate and implement TB treatment and control activities

including MDR-TB and TB/HIV co-infection within the country.

4. The MMC has a unique and unparalleled relationship with the Department of Health (DOH), NTP, the Tropical Disease Foundation (TDF), and the PhilCAT, based on a rich history of collaboration.

5. The MMC Directly Observed Treatment Short Course (DOTS) Clinic has been in existence since February 1999, in response to the need for public-private partnership in the management of TB patients in the Philippines. The clinic is a collaboration of the MMC and TDF representing the private sector, and the DOH and Barangay San Lorenzo (BSL) representing the public sector.

6. The MMC was approved as the first pilot project worldwide to undertake DOTS-Plus by the Green Light Committee (GLC), a subgroup of the Scientific Working Group on Multi-Drug Resistant Tuberculosis of the WHO. The MMC DOTS-Plus clinic is the only facility in the Philippines providing treatment to MDR-TB patients.

7. The MMC has the ability to collect information, train staff and advocate for policy based on the experiences learned implementing DOTS-Plus activities.

8. The specific services that the MMC will deliver are directly associated with, and compliment, other ongoing CDC

prevention strategies and activities in the Philippines.

C. Funding

Approximately \$100,000 is available in FY 2004 to fund this award. It is expected that the award will begin on or before June 1, 2004, and will be made for a 12-month budget period within a project period of up to five years. Funding estimates may change.
