Protective Equipment Export License Jurisdiction

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: This rule revises the Commerce Control List to conform the description of certain protection and detection equipment to that found in the Wassenaar Arrangement List of Dual Use Goods and Technologies (the Dual Use List), to impose national security and anti-terrorism license requirements on those items, and to impose antiterrorism controls on certain items that are excluded from the Dual Use List.

DATES: This rule is effective May 6, 2004.

FOR FURTHER INFORMATION CONTACT: Scott Hubinger, Office of Chemical and Biological Controls and Treaty Compliance, telephone: (202) 482-5223, e-mail shubinge@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

The Commerce Control List (15 CFR part 744, supp. 1) (CCL) contains entries called Export Control Classification Numbers (ECCNs) and is used in determining whether a license from the Bureau of Industry and Security (BIS) is required for certain exports and reexports. It also describes some items that are subject to the export licensing jurisdiction of the Directorate of Defense Trade Controls (DTC), U.S. Department of State. In general, DTC has export licensing authority over items that have been specifically designed, developed, configured, adapted, or modified for military application and do not have predominantly civil applications or that have significant military or intelligence applications. BIS generally has export licensing authority over items having

predominantly civil uses even if they also may be used by the military. Prior to publication of this rule ECCN 1A004 referred readers to the DTC controls with regard to "[p]rotective and detection equipment and components, not specially designed for military use."

This rule revises ECCN 1A004 to emulate entry 1.A.4 on the Wassenaar Arrangement List of Dual Use Goods and Technologies, including an exclusion note from that entry. This rule applies national security (NS2) and antiterrorism (AT1) controls to items covered by ECCN 1A004, including gas masks, filter canisters, decontamination equipment, protective suits, gloves and shoes specially designed or modified for defense against biological agents or radioactive materials adapted for use in war or chemical warfare agents, and certain nuclear, chemical, and biological detection systems. The national security controls require a license for export or reexport to all destinations except Country Group A:1 and cooperating countries as listed in 15 CFR part 740, supp. No. 1.

This rule also creates a new ECCN 1A995 that imposes antiterrorism controls (AT1) on personal radiation monitoring dosimeters and equipment limited by design or function to protect against hazards specific to civil industries, such as mining, quarrying, agriculture, pharmaceuticals, medical, veterinary, environmental, waste management, or to the food industry that are excluded from 1A004. The antiterrorism controls require a license for export or reexport to countries designated by the Secretary of State as state sponsors of international terrorism. New ECCN 1A995 includes a note that items for protection against chemical or biological agents that are consumer goods, packaged for retail sale or personal use and medical products are excluded from 1A995, and are EAR99. EAR99 items are not listed in any specific entry on the Commerce Control List, but are subject to other provisions of the EAR, including those that impose a license requirement based on recipient or end-use, those that apply to embargoed destinations, the prohibitions on violating denial orders, and export clearance requirements.

The antiterrorism controls imposed by this rule are new foreign policy controls. As required by the Export Administration Act of 1979, as amended (the Act), a report on the imposition of these controls was delivered to Congress on April 27, 2004.

Although the Act expired on August 20, 2001, Executive Order 13222 of August 17, 2001 (3 CFR, 2001 Comp. 783 (2002)), as extended by the Notice

of August 7, 2003 (68 FR 47833, August 11, 2003), continues the Export Administration Regulations in effect under the International Emergency Economic Powers Act. BIS continues to carry out the provisions of the Act, as appropriate and to the extent permitted by law, pursuant to Executive Order 13222.

Savings Clause

Exports and reexports that did not require a license prior to publication of this rule and for which this rule imposes a new license requirement may be made without a license if the items being exported or reexported were on dock for loading, on lighter, laden aboard an exporting carrier, or en route aboard a carrier to a port of export pursuant to actual orders for export or reexport on May 20, 2004, and exported or reexported on or before June 7, 2004. Any such exports or reexports not actually made before midnight on June 7, 2004, require a license in accordance with this rule.

Rulemaking Requirements

1. This rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This rule involves collections of information subject to the PRA. These collections have been approved by the Office of Management and Budget (OMB) under control number 0694-0088, "Multi-Purpose Application," which carries a burden hour estimate of 40 minutes to prepare and submit electronically and 45 minutes to submit manually form BIS-748P. Send comments regarding these burden estimates or any other aspect of these collections of information, including suggestions for reducing the burden, to David Rostker, OMB Desk Officer, by e-mail at david_rostker@omb.eop.gov or by fax to 202.395.285; and to the Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044.

3. This rule does not contain policies with federalism implications as this term is defined in Executive Order 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C.

553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States (Sec. 5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under 5 U.S.C. 553 or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Therefore, this rule is being issued in final form.

Rulemaking Requirements

1. The final rule has been determined to be not significant for purposes of E.O. 12866.
