

- Physical overhead, consulting, and other indirect costs including rent and depreciation on land, buildings and equipment;

- Agency management and supervisory costs;
- Costs of enforcement, research and establishment of regulations and guidance;

- Use of electronic data processing equipment to collect and maintain information, *i.e.*, the actual cost of the service, including computer search time, runs and printouts; and

- Any other direct or indirect costs related to the provision of services.

The current fee structure of \$10.00 for each self-query by a practitioner,

provider, or supplier was announced in a **Federal Register** notice on March 3, 2000 (65 FR 11589). Based on the above criteria and our analysis of operational costs and the comparative costs of the various methods for filing and paying for queries, the Department is now lowering the self-query fee by two dollars—from \$10.00 to \$8.00.

When an authorized self-query is submitted for information by a practitioner, provider, or supplier, the appropriate total fee will be \$8.00 multiplied by the number of individuals or organizations about whom the information is being requested.

In order to minimize administrative costs, the Department will continue to accept payment for self-queries only by credit card. The HIPDB accepts Visa, MasterCard, and Discover. To submit queries, practitioners, providers, and suppliers must use the HIPDB Web site at <http://www.npdb-hipdb.com>.

The Department will continue to review user fees periodically for the HIPDB, and will revise such fees as necessary. Any future changes in fees and their effective date will be announced through notice in the **Federal Register**.

Examples

Query method	Fee per name in query, by method of payment	Examples
Self-query	\$8.00	10 self-queries: 10 × \$8.00 = \$80.00.
