ENVIRONMENTAL PROTECTION AGENCY**40 CFR Parts 52 and 81**

[Docket No.: AK–04–001; FRL–7777–1]

Approval and Promulgation of Implementation Plans: State of Alaska; Anchorage Carbon Monoxide Nonattainment Area; Designation of Areas for Air Quality Planning Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: In this action, the EPA is approving the State of Alaska carbon monoxide (CO) maintenance plan for the Anchorage nonattainment area. EPA is also redesignating the Anchorage area from nonattainment to attainment for the National Ambient Air Quality Standard (NAAQS) for CO.

DATES: This final rule is effective on July 23, 2004.

ADDRESSES: EPA has established a docket for this action under Docket ID No. AK–04–001. Publicly available docket materials are available in hard copy at the EPA, Region 10, Office of Air, Waste and Toxics, 1200 Sixth Avenue, Seattle WA. This Docket facility is open from 8:30–4:00, Monday through Friday, excluding legal holidays. The Docket telephone number is (206) 553–4273.

FOR FURTHER INFORMATION CONTACT: Connie L. Robinson, Office of Air, Waste and Toxics (OAQ–107), EPA Region 10, 1200 Sixth Avenue, Seattle WA, 9810; telephone number: (206) 553–1086; fax number: (206) 553–0110; e-mail address: robinson.connie@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document, wherever “we,” “us,” or “our” is used, we mean the EPA. Information is organized as follows:

- I. Background
- II. Public Comments on the Proposed Action
- III. Final Action
- IV. Statutory and Executive Order Reviews

I. Background

On May 10, 2004, EPA published in the **Federal Register**, a proposal to approve the Anchorage, Alaska CO maintenance plan SIP revision and to redesignate the Anchorage CO nonattainment area to “attainment” for CO. See 69 FR 25869.

The action to redesignate the Anchorage, Alaska nonattainment area to attainment for CO is based on valid monitoring data and projections of ambient air quality made in the

maintenance demonstration that accompanies the maintenance plan. Air quality data shows that it has not recorded a violation of the primary or secondary CO air quality standards since 1996. EPA believes the area will continue to meet the National Ambient Air Quality Standards (NAAQS or standards) for CO for at least 10 years beyond this redesignation, as required by the Act.

A detailed description of our action to approve the Anchorage, Alaska CO maintenance plan and redesignation request was published in a proposed rulemaking in the **Federal Register** on May 10, 2004 (69 FR 25869).

II. Public Comments on the Proposed Action

EPA provided a 30-day review and comment period and solicited comments on our proposal published in the May 10, 2004, **Federal Register**. No comments were received for the proposed rulemaking. EPA is now taking final action on the SIP revision consistent with the published proposal.

III. Final Action

EPA is taking final action to approve the Anchorage CO Maintenance Plan and to redesignate the Anchorage CO nonattainment area to attainment. Alaska has demonstrated compliance with the requirements of section 107(d)(3)(E) based on information provided by the Municipality of Anchorage and contained in the Alaska SIP and Anchorage, Alaska CO maintenance plan. A Technical Support Document on file at the EPA Region 10 office contains a detailed analysis and rationale in support of the redesignation of Anchorage’s CO nonattainment area to attainment.

IV. Statutory and Executive Order Reviews

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this
