

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) Ways to enhance the quality, utility, and clarity of the information collected; and

(d) Ways to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Section 4 of the Indian General Allotment Act of February 8, 1887 (43 U.S.C. 1740) provides that, if you are an eligible Indian you may apply for an allotment. To establish you are eligible, you must furnish documentation from the Bureau of Indian Affairs (BIA) showing you are an Indian who meets the requirements of the Act. If you are eligible, your minor child also qualifies to file for an allotment under the Act. You must apply to the BLM office having jurisdiction over the lands covered by your application.

BLM uses Form 2530-3 to collect the following information:

(1) The name and address of the applicant; if a minor child, the name, age of child, and the applicant's relationship to the child;

(2) The name of the Indian tribe to which the applicant belongs or is eligible to belong;

(3) A Certificate of Indian Blood from the BIA and the name of the recognized Indian tribe to which you claim membership of be eligible for membership to a recognized Indian tribe;

(4) A legal land description of the lands applied for (by township, range, meridian, section, subdivision, and State);

(5) A plan of development that describes the proposed agricultural or grazing land use and a description of the improvements that the applicant plans to place on the lands;

(6) Any allotments that the applicant received previously from BLM; and

(7) The applicant must certify their knowledge of the lands, is the person named in the BIA Certificate of Indian Blood, and makes true, accurate, and good faith statements on the application.

BLM uses the information to determine whether or not to issue an Indian allotment. Without this information, BLM would not be able to

properly administer Indian allotments on public lands and public domain lands within national forests.

Based upon BLM experience and recent tabulations of activity, we estimate it takes 2 hours to complete. The estimated number of responses per year is 6 and the total annual information burden is 12 hours.

Any member of the public may request and obtain, without charge, a copy of Form 2530-3 by contacting the person identified under **FOR FURTHER INFORMATION CONTACT**.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Title XI of the Alaska National Interest Lands Conservation Act of December 2, 1980, requires that the Departments of Agriculture, Interior, and Transportation use a consolidated form in connection with rights-of-way for transportation and utility. the Federal Land Policy and Management Act of 1976, the Mineral Leasing Act, and the regulations at 43 CFR 2800 and 43 CFR 2880 authorize BLM to use Form 299. BLM will use Form 299 to collect information to:

(1) Determine if the applicant qualifies for a right-of-way grant;

(2) Identify and communicate with the applicant on its right-of-way application;

(3) Identify the project location;

(4) Determine and compare existing and proposed land uses; and

(5) Determine if alternate routes and modes are available to the applicant on the right-of-way application.

Without this information, BLM would not be able to properly administer its right-of-way program.

Based upon BLM experience and recent tabulations of activity, we process approximately 5,066 applications each year. The public reporting information collection burden takes 25 hours to complete. The estimated number of responses per year is 5,066 and annual information burden is 126,650 hours.

Any member of the public may request and obtain, without charge, a copy of Form 299 by contacting the person identified under **FOR FURTHER INFORMATION CONTACT**.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Extension of Approved Information Collection, OMB Control Number 1004-0169

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Land Management (BLM) is requesting the Office of Management and Budget (OMB) to extend an existing approval to collect information from mining claimants concerning use and occupancy of their mining claims on public lands. The nonform information under 43 CFR 3715 authorizes BLM to manage the use and occupancy on public lands for developing the mineral deposits by mining claimants.

DATES: You must submit your comments to BLM at the address below on or before August 24, 2004. BLM will not necessarily consider any comments received after the above date.

ADDRESSES: You may mail comments to: Bureau of Land Management, (WO-630), Eastern States Office, 7450 Boston Blvd., Springfield, Virginia 22153.

You may send comments via Internet to: WOCComment@blm.gov. Please

include "Attn: 1004-0169" and your name and return address with your comments.

You may deliver comments to the Bureau of Land Management, Administrative Record, Room 401, 1620 L Street, NW., Washington, DC.

Comments will be available for public review at the L Street address during regular business hours (7:45 a.m. to 4:15 p.m.) Monday through Friday.

FOR FURTHER INFORMATION CONTACT: You may contact T. Scott Murrellwright on (202)785-6568 (Commercial or FTS). Persons who use a telecommunication device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) on 1-800-877-8330, 24 hours a day, seven days a week, to contact Mr. Murrellwright.

SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires that we provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) Ways to enhance the quality, utility, and clarity of the information collected; and

(d) Ways to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The General Mining Law (30 U.S.C. 612), Federal Land Policy and Management Act of 1976 (43 U.S.C. 1733), and the regulations under 43 CFR 3715 authorize BLM to manage use and occupancy of mining claims on public lands. The nonform information in the regulations under 43 CFR 3715 authorizes BLM to collect information concerning proposed mining development activities on public lands. Without this information, BLM would not be able to analyze and approve mining claimants' proposed use and occupancy activities.

Mining claimants planning to occupy their mining claims on public lands under the mining laws must submit the following information to BLM:

(1) A detailed map that identifies the site and shows the place of temporary and permanent structures for occupancy, the location of and reason for the structures intended to exclude

the public, and the location of reasonable public passage or access routes through or around the area adjacent to public lands;

(2) A written description of the proposed occupancy that describes in detail how the proposed occupancy is reasonably incident to mining and how the proposed occupancy meets the conditions of 43 CFR 3715.2 and 3715.2-1; and

(3) An estimate of the period of use of the structures which excludes the public and a schedule for removing them and reclaiming the lands when the operations end.

Based upon BLM experience with mining claims use and occupancy activity, we estimate the public reporting information collection burden takes 2 hours to complete. The respondents are mining claimants and operators of prospecting, exploration, mining, and processing operations. The estimated number of responses per year is 150 and the total annual burden is 300 hours. BLM will summarize all responses to this notice and include them in the request OMB approval. All comments will become a matter of public record.
