

■ 2. Add temporary § 165.T05–105 to read as follows:

§ 165.T05–105 Safety zone; Atlantic Intracoastal Waterway, Bogue Sound, NC.

(a) *Location.* The following area is a safety zone: All waters of the Atlantic Intracoastal Waterway, extending from Bogue Sound-New River Daybeacon 58 (LLNR 39210) southeast to Bogue Sound-New River Light 64 (LLNR 39230), Nautical Chart 11541, Intracoastal Waterway-NC-Neuse River to Myrtle Grove Sound.

(b) *Captain of the Port.* Captain of the Port means the Commanding Officer of the Marine Safety Office Wilmington, North Carolina, or any Coast Guard Commissioned, Warrant, or Petty Officer who has been authorized by the Captain of the Port to act on his/her behalf.

(c) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part, entry into this safety zone is prohibited unless authorized by the Captain of the Port. All vessel movement within the safety zone will be prohibited except as specifically authorized by the Captain of the Port. The general requirements of § 165.23 also apply to this regulation.

(2) Red warning flags or red warning lights will be displayed on towers located at both ends of the safety zone while firing exercises are in progress. The flags or lights will be displayed by 8 a.m. each day that this regulation is in effect, and will be removed at the end of firing exercises.

(3) A Coast Guard or Navy vessel will patrol each end of the safety zone to ensure the public is aware that firing exercises are in progress and that the firing area is clear of vessel traffic before weapons are fired.

(4) Vessels requiring entry into or passage through any portion of the safety zone must first request authorization from the Captain of the Port or the Coast Guard or U.S. Navy vessel on-scene. The Captain of the Port can be contacted at telephone number (800) 325-4965. The Coast Guard or U.S. Navy vessel may be contacted by radio on VHF Marine Band Radio, channels 13 (156.65 MHz) and 16 (156.8 MHz)

(d) *Effective period:* This regulation will be enforced from 8 a.m. on June 07, 2004, until 8 a.m. on July 16, 2004.

(e) The Captain of the Port will notify the public of changes in the status of this safety zone by Marine Safety Radio Broadcast on VHF Marine Band Radio, Channel 22 (157.1 MHz).

Dated: June 7, 2004.

Jane M. Hartley,

Captain, U.S. Coast Guard, Captain of the Port, Wilmington, NC.

DEPARTMENT OF AGRICULTURE

Forest Service

36 CFR Part 242

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 100

Subsistence Management Regulations for Public Lands in Alaska, Subpart D; Seasonal Adjustment—Afognak Bay

AGENCIES: Forest Service, USDA; Fish and Wildlife Service, Interior.

ACTION: Seasonal adjustment.

SUMMARY: This provides notice of the Federal Subsistence Board's in-season management action of closure for the Federal subsistence salmon fisheries in Afognak Bay. This action provides an exception to the Subsistence Management Regulations for Public Lands in Alaska, published in the **Federal Register** on February 3, 2004. Those regulations established seasons, harvest limits, methods, and means relating to the taking of fish and shellfish for subsistence uses during the 2004 regulatory year.

DATES: The Afognak Bay closure is effective June 12, 2004, through August 1, 2004.

FOR FURTHER INFORMATION CONTACT: Thomas H. Boyd, Office of Subsistence Management, U.S. Fish and Wildlife Service, telephone (907) 786-3888. For questions specific to National Forest System lands, contact Steve Kessler, Subsistence Program Leader, USDA—Forest Service, Alaska Region, telephone (907) 786-3592.

SUPPLEMENTARY INFORMATION:

Background

Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA) (16 U.S.C. 3111–3126) requires that the Secretary of the Interior and the Secretary of Agriculture (Secretaries) implement a joint program to grant a preference for subsistence uses of fish and wildlife resources on public lands in Alaska, unless the State of Alaska enacts and implements laws of general applicability that are consistent with ANILCA and that

provide for the subsistence definition, preference, and participation specified in Sections 803, 804, and 805 of ANILCA. In December 1989, the Alaska Supreme Court ruled that the rural preference in the State subsistence statute violated the Alaska Constitution and, therefore, negated State compliance with ANILCA.

The Department of the Interior and the Department of Agriculture (Departments) assumed, on July 1, 1990, responsibility for implementation of Title VIII of ANILCA on public lands. The Departments administer Title VIII through regulations at Title 50, Part 100, and Title 36, Part 242 of the Code of Federal Regulations (CFR). Consistent with Subparts A, B, and C of these regulations, as revised January 8, 1999 (64 FR 1276), the Departments established a Federal Subsistence Board to administer the Federal Subsistence Management Program. The Board's composition includes a Chair appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture; the Alaska Regional Director, U.S. Fish and Wildlife Service; the Alaska Regional Director, National Park Service; the Alaska State Director, Bureau of Land Management; the Alaska Regional Director, Bureau of Indian Affairs; and the Alaska Regional Forester, USDA Forest Service. Through the Board, these agencies participate in the development of regulations for Subparts A, B, and C, which establish the program structure and determine which Alaska residents are eligible to take specific species for subsistence uses, and the annual Subpart D regulations, which establish seasons, harvest limits, and methods and means for subsistence take of species in specific areas. Subpart D regulations for the 2003 fishing seasons, harvest limits, and methods and means were published on February 12, 2003 (68 FR 7276). Because this rule relates to public lands managed by an agency or agencies in both the Departments of Agriculture and the Interior, identical closures and adjustments would apply to 36 CFR part 242 and 50 CFR part 100.

The Alaska Department of Fish and Game (ADF&G), under the direction of the Alaska Board of Fisheries (BOF), manages sport, commercial, personal use, and State subsistence harvest on all lands and waters throughout Alaska. However, on Federal lands and waters, the Federal Subsistence Board implements a subsistence priority for rural residents as provided by Title VIII of ANILCA. In providing this priority, the Board may, when necessary, preempt State harvest regulations for

fish or wildlife on Federal lands and waters.

These adjustments are necessary because of the need to maintain the viability of salmon stocks in Afognak Bay based on in-season run assessments. These actions are authorized and in accordance with 50 CFR 100.19(d–e) and 36 CFR 242.19(d–e).

Afognak Bay

The strength of the Afognak Lake (Litnik) sockeye salmon run is determined by fish weir counts in the Afognak River and the estimated relative abundance of fish within the inner portion of Afognak Bay. All data and other relevant information indicate that to date the 2004 sockeye salmon escapement counts (5,854 fish) to the Afognak River drainage total 26 percent of the 9-year average (22,426 fish). The desired sockeye salmon escapement for this date would range from 9,267 to 13,900 fish. Total escapement is not expected to meet the lower end of the escapement goal (40,000 fish). In response to poor 2004 escapement numbers, at this time the Alaska Department of Fish and Game (ADF&G) has closed the Afognak Bay waters to sport and State subsistence fishery users targeting sockeye salmon. After consultation with subsistence users and ADF&G managers, closure of this Federally regulated subsistence fishery is the responsible course of action at this time, because all remaining sockeye salmon entering Afognak Bay are essential to achieve spawning escapement goals. This action is taken to ensure the conservation of the Afognak River sockeye salmon stock. Sockeye salmon escapement status into Afognak River will continue to be monitored by ADF&G on a daily basis. Should sockeye salmon escapement numbers show a significant increase suggesting escapement goals may be reached, the Federally regulated subsistence fishery for sockeye salmon may be reopened in this area.

The Board finds that additional public notice and comment requirements under the Administrative Procedure Act (APA) for these adjustments are impracticable, unnecessary, and contrary to the public interest. Lack of appropriate and immediate conservation measures could seriously affect the continued viability of fish populations and adversely impact future subsistence opportunities for rural Alaskans, and would generally fail to serve the overall public interest. Therefore, the Board finds good cause pursuant to 5 U.S.C. 553(b)(3)(B) to waive additional public notice and comment procedures prior to implementation of these actions and

pursuant to 5 U.S.C. 553(d)(3) to make this rule effective as indicated in the **DATES** section.

Conformance With Statutory and Regulatory Authorities

National Environmental Policy Act Compliance

A Final Environmental Impact Statement (FEIS) was published on February 28, 1992, and a Record of Decision on Subsistence Management for Federal Public Lands in Alaska (ROD) was signed April 6, 1992. The final rule for Subsistence Management Regulations for Public Lands in Alaska, Subparts A, B, and C (57 FR 22940, published May 29, 1992), implemented the Federal Subsistence Management Program and included a framework for an annual cycle for subsistence hunting and fishing regulations. A final rule that redefined the jurisdiction of the Federal Subsistence Management Program to include waters subject to the subsistence priority was published on January 8, 1999 (64 FR 1276).

Compliance With Section 810 of ANILCA

The intent of all Federal subsistence regulations is to accord subsistence uses of fish and wildlife on public lands a priority over the taking of fish and wildlife on such lands for other purposes, unless restriction is necessary to conserve healthy fish and wildlife populations. A Section 810 analysis was completed as part of the FEIS process. The final Section 810 analysis determination appeared in the April 6, 1992, ROD, which concluded that the Federal Subsistence Management Program, under Alternative IV with an annual process for setting hunting and fishing regulations, may have some local impacts on subsistence uses, but the program is not likely to significantly restrict subsistence uses.

Paperwork Reduction Act

The adjustment and emergency closures do not contain information collection requirements subject to Office of Management and Budget (OMB) approval under the Paperwork Reduction Act of 1995.

Other Requirements

The adjustments have been exempted from OMB review under Executive Order 12866.

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) requires preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations, or

governmental jurisdictions. The exact number of businesses and the amount of trade that will result from this Federal land-related activity is unknown. The aggregate effect is an insignificant economic effect (both positive and negative) on a small number of small entities supporting subsistence activities, such as boat, fishing gear, and gasoline dealers. The number of small entities affected is unknown; however, the effects will be seasonally and geographically limited in nature and will likely not be significant. The Departments certify that the adjustments will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act. Under the Small Business Regulatory Enforcement Fairness Act (5 U.S.C. 801 *et seq.*), this rule is not a major rule. It does not have an effect on the economy of \$100 million or more, will not cause a major increase in costs or prices for consumers, and does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Title VIII of ANILCA requires the Secretaries to administer a subsistence preference on public lands. The scope of this program is limited by definition to certain public lands. Likewise, the adjustments have no potential takings of private property implications as defined by Executive Order 12630.

The Service has determined and certifies pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 *et seq.*, that the adjustments will not impose a cost of \$100 million or more in any given year on local or State governments or private entities. The implementation is by Federal agencies, and no cost is involved to any State or local entities or Tribal governments.

The Service has determined that the adjustments meet the applicable standards provided in Sections 3(a) and 3(b)(2) of Executive Order 12988, regarding civil justice reform.

In accordance with Executive Order 13132, the adjustments do not have sufficient federalism implications to warrant the preparation of a Federalism Assessment. Title VIII of ANILCA precludes the State from exercising subsistence management authority over fish and wildlife resources on Federal lands. Cooperative salmon run assessment efforts with ADF&G will continue.

In accordance with the President's memorandum of April 29, 1994, "Government-to-Government Relations with Native American Tribal

Governments" (59 FR 22951), Executive Order 13175, and 512 DM 2, we have evaluated possible effects on Federally recognized Indian tribes and have determined that there are no effects. The Bureau of Indian Affairs is a participating agency in this rulemaking.

On May 18, 2001, the President issued Executive Order 13211 on regulations that significantly affect energy supply, distribution, or use. This Executive Order requires agencies to prepare Statements of Energy Effects when undertaking certain actions. As these actions are not expected to significantly affect energy supply, distribution, or use, they are not significant energy actions and no Statement of Energy Effects is required.

Drafting Information

Theodore Matuskowitz drafted this document under the guidance of Thomas H. Boyd, of the Office of Subsistence Management, Alaska Regional Office, U.S. Fish and Wildlife Service, Anchorage, Alaska. Dennis Tol, Alaska State Office, Bureau of Land Management; Rod Simmons, Alaska Regional Office, U.S. Fish and Wildlife Service; Bob Gerhard, Alaska Regional Office, National Park Service; Dr. Glenn Chen, Alaska Regional Office, Bureau of Indian Affairs; and Steve Kessler, USDA—Forest Service, provided additional guidance.

Authority: 16 U.S.C. 3, 472, 551, 668dd, 3101–3126; 18 U.S.C. 3551–3586; 43 U.S.C. 1733.

Dated: June 9, 2004.

Thomas H. Boyd,

Acting Chair, Federal Subsistence Board.

Dated: June 9, 2004.

Steve Kessler,

Subsistence Program Leader, USDA—Forest Service.

BILLING CODE 3410–11–P; 4310–55–P

further the business and competitive interests of the Postal Service. As such, the new Purchasing Manual reflects a fundamental change to Postal Service purchasing policies and procedures.

EFFECTIVE DATE: This final rule is effective on June 28, 2004. The incorporation by reference of the Purchasing Manual is approved by the Director of the Federal Register as of June 28, 2004.

FOR FURTHER INFORMATION CONTACT:

Michael J. Harris (202) 268–5653.

SUPPLEMENTARY INFORMATION: Issue 1 of the Purchasing Manual was issued on January 31, 1997. At that time, purchasing organizations were advised that, pending the updating of contract-writing systems, the purchasing organizations could determine, subject to specific limitations, when and to what extent they may adopt its policies and procedures. The Purchasing Manual then became fully effective on January 27, 2000. Subsequently, updated editions of the Purchasing Manual were issued on January 31, 2002 (Issue 2), and December 25, 2003 (Issue 3). The Purchasing Manual is published and available to all users on the World Wide Web at <http://www.usps.com/business>, and contains the Postal Service's purchasing policy.

It will be noted that on March 24, 2004 (69 FR 13786), the Postal Service published a proposed rule in the **Federal Register** entitled "Purchasing of Property and Services". In this document, the Postal Service proposed to amend its regulations in order to implement the acquisition portions of its *Transformation Plan* (April 2000) and the similar recommendations of the President's Commission on the United States Postal Service (July 2003) as they relate to the acquisition of property and services. That earlier, ongoing rulemaking is proceeding separately and independently, and should not be considered to be a part of this current notice.

The new U.S. Postal Service Purchasing Manual contains a complete revision of the Postal Service's purchasing regulations, replacing the former USPS Publication 41, U.S. Postal Service Procurement Manual. Following is a brief discussion of some of the major policy changes. This is followed by a chapter-by-chapter explanation of the relevant changes, as reflected in the new Purchasing Manual.

To ensure close cooperation between all of the parties involved in the purchasing process, the new Purchasing Manual mandates that contracting officers work with their business partners in groups known as purchasing

teams. These teams determine the business priorities of the particular purchase, and enter into business arrangements which reflect the business objectives of the USPS. Whenever appropriate, purchasing professionals are encouraged to prequalify suppliers who have a proven track record of integrity, quality, and on-time performance. Prequalification, which has been used by the Postal Service since 1988, ensures quality contract performance while enhancing competition and maintaining our historical commitment to providing opportunity to the best suppliers.

In the interests of furthering purchasing uniformity and consistency, the Purchasing Manual establishes a general purchasing process containing elements common to all Postal Service purchases. The Purchasing Manual also adopts and emphasizes the proven commercial buying practices of the Postal Service's private sector counterparts and competitors. These changes will save many hours of administrative effort and improve purchasing lead time.

The Purchasing Manual encourages the use of oral presentations to obtain a clear and succinct understanding of a supplier's technical proposal. Oral presentations can provide a better understanding of suppliers' technical abilities and also significantly reduce the time it takes to complete a purchase. Communications with suppliers during the purchasing process have also been enhanced by allowing discussions during any stage of the process.

The Purchasing Manual also consolidates and makes uniform Postal Service purchases of supplies, services, equipment, facility design, construction, and mail transportation. It emphasizes commonalities among the differing commodities—purchasing best value, prequalifying suppliers, using commercial approaches whenever appropriate—while at the same time recognizing the Postal Service's unique needs and the areas in which they differ.

The Purchasing Manual reflects a complete reorganization of the Procurement Manual. It now has 9 chapters rather than the previous 12, and much material has been moved from one chapter or section to another.

The Purchasing Manual replaces the Postal Service Procurement Manual, which was incorporated by reference in the Code of Federal Regulations (*see* 39 CFR 601.100). A copy of the Purchasing Manual will be provided to the Director, Office of the Federal Register. The Purchasing Manual is available for

POSTAL SERVICE

39 CFR Parts 211 and 601

Establishment of the Purchasing Manual To Replace the Procurement Manual; Incorporation by Reference

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: The Postal Service has issued completely revised purchasing regulations, replacing the former U.S. Postal Service Procurement Manual with a new Postal Service Purchasing Manual. The Purchasing Manual focuses on using the purchasing process to
