DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP04-34-000]

Columbia Gas Transmission Corporation; Notice of Intent To Prepare an Environmental Assessment for the Proposed Line 1278 Replacement Project and Request for Comments on Environmental Issues

January 21, 2004.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Line 1278 Replacement Project involving the replacement of 43.4 miles of its existing Line 1278 pipeline by Columbia Gas Transmission Corporation (Columbia) in Northampton, Monroe, and Pike Counties, Pennsylvania.¹ Columbia has indicated that it intends to replace about 10.7 miles of its Line 1278 pipeline in Bucks and Northampton Counties under its blanket certificate issued in Docket No. CP83-76-000. Construction would be done in two phases in 2004 and 2005 as described below. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" was attached to the project notice Columbia provided to landowners. This fact sheet addresses a number of typically asked questions including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet Web site (<http://www.ferc.gov>).

¹ Columbia's application was filed with the Commission under sections 7(b) and 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations.
