OMB Control Number: 3060-0967.

Title: Section 79.2, Accessibility of Programming Providing Emergency Information.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Individuals or households; Not-for-profit institutions; and State, local, or tribal governments.

Number of Respondents: 100.

Estimated Time per Response: 1 to 2 hours.

Frequency of Response: On occasion reporting requirements; Third party disclosure.

Total Annual Burden: 210 hours.

Total Annual Cost: \$18,000.

Privacy Impact Assessment: Yes.

Needs and Uses: 47 CFR 79.2 of the Commission's rules are designed to ensure that persons with hearing and visual disabilities have access to the critical details of emergency information. The Commission adopted the rules to assist persons with hearing disabilities on April 14, 2000, in the Second Report and Order in MM Docket No. 95-176. The Commission modified the rules to assist persons with visual disabilities on July 21, 2000, in the *Report and Order* in MM Docket No. 99-339. Because the Commission adopted its rules for persons with different disabilities at different times, it has previously provided separate Paperwork Reduction Act submissions for them as follows: Rules for persons with hearing disabilities are associated with OMB Control No. 3060-0945; and rules for persons with visual disabilities are associated with OMB Control No. 3060-0967. Because both sets of rules, however, make use of the same complaint procedure, which triggers the need for the submission, the Commission now consolidates its submission. 47 CFR 79.2(c) requires that complaints be transmitted to the Commission, and that each complaint include following: The name of the video programming distributor at issue; the date and time of the omission of the emergency information; and the type of

emergency. The Commission then notifies the video programming distributor, which must reply within 30 days. This revised information collection also includes a Privacy Impact Assessment to comply with OMB Memorandum M-03-22 (September 26, 2003).

OMB Approval Number: 3060-0698.

Title: Amendment of the Commission's Rules to Establish a Radio Astronomy Coordination Zone in Puerto Rico, ET Docket No. 96-2.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Businesses or other for-profit entities; Not for profit institutions; and State, local, or tribal government.

Number of Respondents: 515.

Estimated Time per Response: 35 minutes (avg.) (multiple responses annually).

Frequency of Response: On occasion reporting requirements; Third party disclosure.

Total Annual Burden: 300 hours.

Total Annual Costs: None.

Privacy Impact Assessment: No Impact(s).

Needs and Uses: On October 15, 1997, the FCC released a Report and Order, ET Docket No. 96-2, RM-8165, FCC 97-347, that established a Coordination Zone for new and modified radio facilities in various communications services that cover the islands of Puerto Rico, Desecheo, Mona, Vieques, and Culebra within the Commonwealth of Puerto Rico. The coordination zone and notification procedures enable the Arecibo Radio Astronomy Observatory to receive information needed to assess whether an applicant's proposed operations will cause harmful interference to the Arecibo Observatory's operations, which also promotes efficient resolution of coordination problems between the applicants and the Arecibo Observatory.

OMB Control Number: 3060-0029.

Title: Application for TV Broadcast Station License, FCC Form 302-TV.

Form Number: FCC 302-TV.

Type of Review: Revision of currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents: 200.

Estimated Hours per Response: 1 to 2 hours.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 500.

Total Annual Cost: \$203,000.

Privacy Impact Assessment: No impact(s).

Needs and Uses: Licensees and permittees of TV broadcast stations are required to file FCC Form 302-TV to obtain a new or modified station license, and/or to notify the Commission of certain changes in the licensed facilities of these stations. The Commission revised the FCC 302-TV in June 2001 to facilitate electronic filing by replacing narrative exhibits with the use of certifications and an engineering technical box. The Commission also deleted and narrowed overly burdensome questions. The FCC 302-TV has been supplemented with detailed instructions to explain processing standards and rule interpretations to help ensure that applicants certify accurately. These changes streamlined the Commission's processing of FCC 302-TV applications. FCC staff use the data to confirm that the station has been built to terms specified in the outstanding construction permit, and to update FCC station files. Data are then extracted from FCC 302-TV for inclusion in the subsequent license to operate the station.

Licensees/permittees use FCC Form 301 to apply for authority to construct a new commercial AM, FM, or TV broadcast station or to make changes to the existing facilities of such a station. In addition, FM licensees/permittees may use Form 301 to request upgrades on adjacent and co-channels, modifications to adjacent channels of the same class, and downgrades to adjacent channels without first submitting a petition for rulemaking. Applicants using this "one step" process must demonstrate that a suitable site exists, which complies with allotment standards, *i.e.*, minimal distance separation and city-grade coverage, and is suitable for tower construction. Commercial broadcast licensees must file Form 301 for a construction permit to receive
