BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

Regional Advisory Committees; Request for Nomination of Members

AGENCY: Office of Elementary and Secondary Education, U.S. Department of Education.

What Is the Purpose of This Notice?

The purpose of this notice is to give the public the opportunity to nominate candidates for positions on 10 regional advisory committees that will be chartered by the Secretary.

What Is the Role of the Regional Advisory Committees?

Section 206 of the Educational Technical Assistance Act of 2002 ("the Act") requires the establishment of the committees to advise the Secretary on the educational needs of each of 10 geographic regions. The committees will conduct educational needs assessments in their respective regions, and will submit reports on the assessment results to the Secretary. The educational needs identified by the committees will be considered by the Secretary in establishing priorities for a new program of comprehensive centers described in section 203 of the Act and for regional educational laboratories authorized in section 174 of the Education Sciences Reform Act of 2002. The comprehensive centers and regional educational laboratories will provide technical assistance to State educational agencies, school districts and schools to help them implement the goals and programs of the Elementary and Secondary Education Act of 1965, as reauthorized by the No Child Left Behind Act of 2002, and use the best research and proven practices in their school improvement efforts.

How Will the Regional Advisory Committees Assess Educational Needs?

Each regional advisory committee will conduct a variety of activities, including virtual meetings, to obtain information from individuals, agencies and organizations in the region regarding the region's educational needs and how those needs would be most effectively addressed. Governors, chief State school officers and State staff, school district educators, public and charter school administrators, teachers and parents, regional education service providers, researchers, and business representatives would be among those asked to participate in the assessment.

What Is the Composition of Each Regional Advisory Committee?

Each committee will reflect a balanced representation of the States in the region and will not have more than one representative from each State educational agency in the region. In addition, the total number of local educational agency representatives, parents, and practicing educators will be greater than the total number of State educational agency representatives, higher education representatives, business representatives and researchers on the committee. The committees will vary in size but, on average, may have about 12 members.
