

shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Comment Date: July 23, 2004.

Magalie R. Salas,

Secretary.

[FR Doc. E4-1654 Filed 7-26-04; 8:45 am]

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 1979]

Wisconsin Public Service Corporation; Notice of Authorization for Continued Project Operation

July 2, 2004.

On June 21, 2002, Wisconsin Public Service Corporation, licensee for the Alexander Project No. 1979, filed an application for a new or subsequent license pursuant to the Federal Power Act (FPA) and the Commission's regulations. Project No. 1979 is located on the Wisconsin River in Lincoln County, Wisconsin.

The license for Project No. 1979 was issued for a period ending June 30, 2004. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year to year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 1979 is issued to Wisconsin Public Service Corporation for a period effective July 1, 2004, through June 30, 2005, or until the

issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before July 1, 2005, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to section 15 of the FPA, notice is hereby given that Wisconsin Public Service Corporation is authorized to continue operation of the Alexander Project No. 1979 until such time as the Commission acts on its application for subsequent license.

Magalie R. Salas,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP04-349-000 and CP04-356-000]

Columbia Gas Transmission Corporation; Notice of Intent To Prepare an Environmental Assessment for the Proposed Columbia Pavonia Storage Wells 8901 and 12446 Project and the Pavonia Storage Wells 3731 and 12447 Project and Request for Comments on Environmental Issues

July 2, 2004.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of Columbia Gas Transmission Corporation's (Columbia) Pavonia Storage Wells 8901 and 12446 Project and Wells 3731 and 12447 Project in Ashland County, Ohio. For the facilities in Docket No. CP04-349-000, Columbia would plug and abandon Well 8901 by replacement because corrosion threatens the integrity of the well. A new storage well would be drilled and designated as Well 12446. For the facilities in Docket No. CP04-356-000, Columbia would plug and abandon Well 3731 by replacement because the well has developed excessive water production and cannot be economically repaired. The new storage well would be designated as Well 12447. Columbia would also abandon by removal the associated interconnecting pipeline and

related facilities for the old wells and construct new interconnecting pipeline and appurtenances associated with the new wells. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" was attached to the project notice Columbia provided to landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet Web site (www.ferc.gov).

Summary of the Proposed Project

In Docket No. CP04-349-000

Columbia proposes to:

- Plug and abandon Well 8901;
- Abandon by removal all equipment on well line SL-W8901. This would include about 23 feet of 4-inch diameter pipeline, 18 feet of 3-inch-diameter pipeline, 90 feet of 6-inch-diameter pipeline, a 35-barrel steel holding tank, a 16-inch vertical drip, a 4-inch tie-in valve setting, and the existing 4-inch tie-in valve setting for Line SL-W9623;
- Drill new storage Well 12446;
- Construct 75 feet of 6-inch-diameter well line designated as SL-W12446 and 90 feet of 4-inch-diameter well line designated as SL-W9623; and
- Construct a 6-inch orifice meter run, a 6-inch tie-in valve setting, and a 4-inch tie-in valve setting.

In Docket No. CP04-356-000

Columbia proposes to:

- Plug and abandon Well 3731;
- Abandon by removal all equipment on well line SL-W3731. This would include about 20 feet of 3-inch-diameter pipeline, 20 feet of 4-inch-diameter pipeline, and a drip;
- Drill new storage Well 12447;
- Construct 165 feet of 4-inch-diameter pipeline designated as Well Line SL-W12447;

- Construct a 4-inch orifice meter run and a 16-inch vertical drip.

The location of the projects' facilities is shown in appendix 1.¹

Nonjurisdictional Facilities

No nonjurisdictional facilities would be built as a result of the proposed project.

Land Requirements for Construction

In Docket No. CP04-349-000, the well abandonment and construction of the new well and related pipeline facilities would disturb about 2.4 acres of land. Following construction, about 2.9 acres of land would be maintained as pipeline right-of-way or aboveground facility sites. Similarly, in Docket No. CP04-356-000, the well abandonment and construction of the new well and related pipeline facilities would disturb about 5.1 acres of land. Following construction, about 8.7 acres of land would be maintained as pipeline right-of-way or aboveground facility sites.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us² to discover and address concerns the public may have about proposals. This process is referred to as "scoping." The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this Notice of Intent, the Commission requests public comments on the scope of the issues it will address in the EA. All comments received are considered during the preparation of the EA. State and local government representatives are encouraged to notify their constituents of this proposed action and encourage them to comment on their areas of concern.

The EA will discuss impacts that could occur as a result of the construction and operation of the proposed project under these general headings:

- Geology and soils

- Land use
- Water resources, fisheries, and wetlands
- Cultural resources
- Vegetation and wildlife
- Air quality and noise
- Endangered and threatened species
- Hazardous waste
- Public safety

We will also evaluate possible alternatives to the proposed projects or portions of the projects, and make recommendations on how to lessen or avoid impacts on the various resource areas.

Our independent analysis of the issues will be in the EA. Depending on the comments received during the scoping process, the EA may be published and mailed to Federal, state, and local agencies, public interest groups, interested individuals, affected landowners, newspapers, libraries, and the Commission's official service list for this proceeding. A comment period will be allotted for review if the EA is published. We will consider all comments on the EA before we make our recommendations to the Commission.

To ensure your comments are considered, please carefully follow the instructions in the public participation section beginning below.

Currently Identified Environmental Issues

We have already identified several issues that we think deserve attention based on a preliminary review of the proposed facilities and the environmental information provided for the project. This preliminary list of issues may be changed based on your comments and our analysis.

- One federally listed endangered or threatened species, the Indiana bat, may exist in the project area.
- Cultural resources may be affected in the project area.
- Nearby residences may be affected by well drilling noise.
- Two private water wells near the project area could potentially be affected.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the projects. By becoming a commentator, your concerns will be addressed in the EA and considered by the Commission. You should focus on the potential environmental effects of the proposal, alternatives to the proposal (including alternative locations/routes), and measures to avoid or lessen environmental impact. The more

specific your comments, the more useful they will be. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your letter to: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426.
- Label one copy of the comments for the attention of Gas Branch 2.
- Reference Docket Nos. CP04-349-000 and CP04-356-000.
- Mail your comments so that they will be received in Washington, DC on or before August 2, 2004.

Please note that we are continuing to experience delays in mail deliveries from the U.S. Postal Service. As a result, we will include all comments that we receive within a reasonable time frame in our environmental analysis of this project. However, the Commission strongly encourages electronic filing of any comments or interventions or protests to this proceeding. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link and the link to the User's Guide. Before you can file comments you will need to create a free account which can be created on-line."

If you do not want to send comments at this time but still want to remain on our mailing list, please return the Information Request (Appendix 3). If you do not return the Information Request, you will be taken off the mailing list.

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding known as an "intervenor." Intervenor play a more formal role in the process. Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must provide 14 copies of its filings to the Secretary of the Commission and must send a copy of its filings to all other parties on the Commission's service list for this proceeding. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) (see appendix 2).³ Only

¹ The appendices referenced in this notice are not being printed in the **Federal Register**. Copies of all appendices, other than appendix 1 (maps), are available on the Commission's Web site at the "eLibrary" link or from the Commission's Public Reference and Files Maintenance Branch, 888 First Street, NE., Washington, DC 20426, or call (202) 502-8371. For instructions on connecting to eLibrary refer to the last page of this notice. Copies of the appendices were sent to all those receiving this notice in the mail.

² "We", "us", and "our" refer to the environmental staff of the Office of Energy Projects (OEP).

³ Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion on filing comments electronically.

intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Environmental Mailing List

This notice is being sent to individuals, organizations, and government entities interested in and/or potentially affected by the proposed project. It is also being sent to all identified potential right-of-way grantors.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC or on the FERC Internet Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number excluding the last three digits in the Docket Number field. Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. Go to www.ferc.gov/esubscribenow.htm.

Finally, public meetings or site visits will be posted on the Commission's calendar located at <http://www.ferc.gov/EventCalendar/EventsList.aspx> along with other related information.

Magalie R. Salas,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Application To Amend Project Boundary and Soliciting Comments, Motions To Intervene, and Protests

July 2, 2004.

Take notice that the following application has been filed with the Commission and is available for public inspection:

a. *Application Type:* Amendment to remove project lands from the project boundary.

b. *Project No.:* 2452-171.

c. *Date Filed:* June 28, 2004.

d. *Applicant:* Consumers Energy Company.

e. *Name of Project:* Hardy Project.

f. *Location:* The project is located on the Muskegon River in Newaygo and Mecosta Counties, Michigan.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791a-825r.

h. *Applicant Contact:* Robert M. Neustifter, Consumers Energy Company, Room EP11-233, One Energy Plaza, Jackson, MI 49201, (517) 788-2974, FAX: (517) 788-1682, e-mail: rmneustifter@cmsenergy.com or William A. Schoenlein, Consumers Energy Company, Director of Hydro Operations, 330 Chestnut Street, Cadillac, MI 49601, (231) 779-5505, e-mail: waschoenlein@cmsenergy.com.

i. *FERC Contact:* Any questions on this notice should be addressed to Diane M. Murray at (202) 502-8838, or e-mail address: diane.murray@ferc.gov.

j. *Deadline for filing comments and or motions:* July 22, 2004.

k. *Description of Request:* Consumers Energy Company is seeking Commission authorization to sell a 6.0-acre parcel located in the extreme southeast corner of section 28, T. 13 N., R. 11 W., Michigan Meridian, in Newaygo County, MI, to Big Prairie Township as a site for a new Township fire and rescue station.

l. *Locations of the Application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, P-2452, to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances

related to this or other pending projects. For assistance, call 1-866-208-3676 or e-mail FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", OR "MOTION TO INTERVENE", as applicable, and the Project Number (P-2452) of the particular application to which the filing refers. All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

p. Agency Comments—Federal, State, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

q. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link.

Magalie R. Salas,

Secretary.
