

The Commission plans to publish the 2004 Web site update in July 2005, which will cover shifts in U.S. trade in 2004 compared with trade in 2003. Comments and suggestions regarding the Web site update to be completed in July 2005 are welcome in written submissions as specified below.

The ITC has changed the structure of this year's report, converting exclusively to a Web-based format (with added focus on sectoral issues) that can be accessed at <http://www.usitc.gov/tradeshifts/default.htm>. This new format includes links to ITC research and other resources allowing quick access to analyses and data, as well as links to other organizations that have related information. Future improvements also anticipate additional features, such as mid-year data and information updates. User feedback on the revised format is encouraged by providing access to the ITC online Reader Satisfaction Survey (http://reportweb.usitc.gov/reader_survey/readersurvey.html).

A CD-ROM version of the report containing 2003 data may be requested by contacting the Office of the Secretary at (202) 205-2000 or by fax at (202) 205-2104. Interested parties may also provide comments by downloading the survey form and business reply mailer for this publication from the Commission's Web site.

FOR FURTHER INFORMATION CONTACT:

Questions about the merchandise trade shifts information may be directed to the project leader, Heather Sykes, Office of Industries ((202) 205-3436). For information on the legal aspects, please contact William Gearhart, Office of General Counsel ((202) 205-3091). The media should contact Margaret O'Laughlin, Public Affairs Officer ((202) 205-1819). Hearing impaired individuals are advised that information on this matter can be obtained by contacting the TDD terminal on (202) 205-2648.

Background: The initial notice of institution of this investigation was published in the **Federal Register** of September 8, 1993 (58 F.R. 47287). The Commission expanded the scope of this investigation to cover services trade in a separate report, which it announced in a notice published in the **Federal Register** of December 28, 1994 (59 F.R. 66974). The merchandise trade report has been published in the current series under investigation No. 332-345 annually since September 1993. This year's Web-based format identifies the key trends affecting principal foreign markets and 10 major U.S. sectors. In addition, U.S. industry and market

profiles covering each sector for full-years 1999-2003, to include domestic consumption, production, employment, and import penetration, are provided for more than 250 major industry/commodity groups and subgroups examined in the study.

Written Submissions: No public hearing is planned. However, interested persons are invited to submit written comments or suggestions concerning the July 2005 report. All written submissions must conform with the provisions of section 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8); any submissions that contain confidential business information must also conform with the requirements of section 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 201.6). Section 201.8 of the rules require that a signed original (or a copy designated as an original) and fourteen (14) copies of each document be filed. In the event that confidential treatment of the document is requested, at least four (4) additional copies must be filed, in which the confidential information must be deleted. Section 201.6 of the rules require that the cover of the document and the individual pages clearly be marked as to whether they are the "confidential" or "nonconfidential" version, and that the confidential business information be clearly identified by means of brackets. All written submissions, except for confidential business information, will be made available for inspection by interested parties. In the public version of the report, however, the Commission will not publish confidential business information in a manner that could reveal the operations of the firm supplying the information. The Commission's rules do not authorize filing submissions with the Secretary by facsimile or electronic means, except to the extent permitted by section 201.8 of the Commission's Rules (19 CFR 201.8) (*see Handbook for Electronic Filing Procedures, ftp://ftp.usitc.gov/pub/reports/electronic_filing_handbook.pdf*). Persons with questions regarding electronic filing should contact the Secretary ((202) 205-2000 or edis@usitc.gov). To be assured of consideration by the Commission, written statements related to the Commission's report should be submitted to the Commission at the earliest practical date and should be received no later than the close of business on December 29, 2004. All submissions should be addressed to the Secretary, United States International

Trade Commission, 500 E Street, SW., Washington, DC 20436.

Issued July 28, 2004.

By order of the Commission.

Marilyn R. Abbott,

Secretary to the Commission.

BILLING CODE 7020-02-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Drummond Company, Inc.

[Docket No. M-2004-032-C]

Drummond Company, Inc., P.O. Box 10246, Birmingham, Alabama 35202-0246 has filed a petition to modify the application of 30 CFR 75.601 (Short circuit protection of trailing cables) to its Shoal Creek Mine (MSHA I.D. No. 01-02901) located in Jefferson County, Alabama. The petitioner requests a modification of the existing standard to permit the use of an alternative method for identifying circuit breakers and disconnecting devices. The petitioner proposes to mount the circuit breaker and corresponding receptacle on a panel in a manner that will maintain a physical relationship between the breaker and the receptacle; and to install two permanent labels on each panel that will indicate Circuit #1 and Circuit #2, etc., just above the circuit breaker and the corresponding receptacle that operates the circuit breaker. The petitioner has listed in this petition other procedures that would be followed for implementation of the proposed alternative method. The petitioner proposes to identify labeling on the trailing cable plugs that will indicate that the machine is attached to a particular cable; post signs in strategic locations on the power center that will indicate labeling requirements; provide specific training before the proposed alternative method is implemented to all miners who are designated to verify the instantaneous short circuit settings; and submit proposed revisions for its approved Part 48 training plan to the Coal Mine Safety and Health District Manager for the area in which the mine is located that will specify task training for miners designated to verify the labeling and short circuit settings. The petitioner asserts that the proposed

alternative method would provide at least the same measure of protection as the existing standard.

2. Drummond Company, Inc.

[Docket No. M-2004-033-C]

Drummond Company, Inc., P.O. Box 10246, Birmingham, Alabama 35202-0246 has filed a petition to modify the application of 30 CFR 75.904 (Identification of circuit breakers) to its Shoal Creek Mine (MSHA I.D. No. 01-02901) located in Jefferson County, Alabama. The petitioner requests a modification of the existing standard to permit the use of an alternative method for identifying circuit breakers and disconnecting devices. The petition proposes to mount the circuit breaker and corresponding receptacle on a panel in a manner that will maintain a physical relationship between the breaker and the receptacle; and to install two permanent labels on each panel that will indicate Circuit #1 and Circuit #2, etc., just above the circuit breaker and the corresponding receptacle that operates the circuit breaker. The petitioner has listed in this petition other procedures that would be followed for implementation of the proposed alternative method. The petitioner proposes to identify labeling on the trailing cable plugs that will indicate that the machine is attached to a particular cable; post signs in strategic locations on the power center that will indicate labeling requirements; provide specific training before the proposed alternative method is implemented to all miners who are designated to verify the instantaneous short circuit settings; and submit proposed revisions for its approved Part 48 training plan to the Coal Mine Safety and Health District Manager for the area in which the mine is located that will specify task training for miners designated to verify the labeling and short circuit settings. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

3. Warrior Coal, LLC

[Docket No. M-2004-034-C]

Warrior Coal, LLC, 57 J.E. Ellis Road, Madisonville, Kentucky 42431 has filed a petition to modify the application of 30 CFR 75.1103-4(a) (Automatic fire sensor and warning device systems; installation; minimum requirements) to its Cardinal Mine (MSHA I.D. No. 15-17216) located in Hopkins County, Kentucky. The petitioner requests a modification of the existing standard to permit the use of an alternative method of compliance for an automatic fire

sensor and warning device system to identify a fire within each belt flight. The petitioner proposes to install a low-level carbon monoxide detecting system as an early warning fire detection system in all belt entries where a monitoring system identifies a sensor location in lieu of identifying each belt flight. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

Request for Comments

Persons interested in these petitions are encouraged to submit comments via e-mail to comments@msha.gov, by fax at (202) 693-9441, or by regular mail to the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 1100 Wilson Boulevard, Room 2350, Arlington, Virginia 22209. All comments must be postmarked or received in that office on or before September 1, 2004. Copies of these petitions are available for inspection at that address.

Dated at Arlington, Virginia this 20th day of July 2004.

Marvin W. Nichols, Jr.,

Director, Office of Standards, Regulations, and Variances.

BILLING CODE 4510-43-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency has submitted to OMB for approval the information collection described in this notice. The public is invited to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted to OMB at the address below on or before September 1, 2004 to be assured of consideration.

ADDRESSES: Comments should be sent to: OMB Desk Officer for NARA, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-5167.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm

at telephone number 301-837-1694 or fax number 301-837-3213.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on May 13, 2004 (69 FR 26623-26624). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Request for and Record of Pass.

OMB number: 3095-0026.

Agency form number: NA Form 6006.

Type of review: Regular.

Affected public: Individuals or households, business or other for-profit organizations and institutions, and Federal government.

Estimated number of respondents: 1,300.

Estimated time per response: 3 minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 65 hours.

Abstract: The collection of information is necessary as a security measure to protect employees, information, and property in NARA facilities and to facilitate the issuance of passes. Use of the form is authorized by 44 U.S.C. 2104. Respondents who are contractors are given a building pass which expires at the end of each fiscal year; those who are volunteers are given a pass valid for 2 years. At the NARA College Park facility, individuals receive an access card with the pass that is electronically coded to permit access to secure zones ranging from a general nominal level to stricter access levels for classified records zones. The access card system is part of the security management system which meets the accreditation standards of the Government intelligence agencies for
