**Notice of Receipt of Conveyance of Mineral Interest Application**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of minerals segregation.

**SUMMARY:** The reserved federally-owned mineral interest, in the private lands described in this notice, aggregating approximately 160 acres, are segregated and made unavailable for filings under the general mining laws and the mineral leasing laws. The segregation is in response to an application for mineral conveyance under section 209 of the Federal Land Policy and Management

Act of October 21, 1976 (43 U.S.C. 1719).

The reserved Federal mineral interests will be conveyed in whole or in part upon completion of a mineral examination. The purpose is to allow consolidation of surface and subsurface minerals ownership where there are no known mineral values or in those instances where the Federal mineral interest reservation interferes with or precludes appropriate nonmineral development and such development is a more beneficial use of the land than the mineral development. Upon publication of this notice of segregation in the **Federal Register** as provided in 43 CFR 2720.1-1(b), the mineral interests owned by the United States in the lands covered by the mineral conveyance application are segregated to the extent that they will not be subject to appropriation under the public land laws, including the mining and mineral leasing laws. The segregative effect shall terminate upon: Final rejection of the mineral conveyance application; or February 2, 2006, whichever occurs first. If the United States issues a patent or deed of such mineral interest, the mineral interest will no longer be subject to the public land laws, including the mining leasing laws.

**SUPPLEMENTARY INFORMATION:**

**Background.**—On October 17, 1984, the Department of Commerce issued an antidumping duty order on imports of barium chloride from China (49 FR 40635). Following five-year reviews by Commerce and the Commission, effective March 10, 1999, Commerce issued a continuation of the antidumping duty order on imports of barium chloride from China (64 FR 42654, August 5, 1999). The Commission is now conducting a second review to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited

review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

**Definitions.**—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The *Subject Country* in this review is China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In its original determination, the Commission defined the Domestic Like Product as crystalline and anhydrous barium chloride, excluding high purity barium chloride. In its expedited five-year review determination, the Commission found that the appropriate definition of the Domestic Like Product was the same as Commerce's scope: all barium chloride, whether crystalline or anhydrous. For purposes of this notice, you should consider the Domestic Like Product to be all barium chloride, whether crystalline or anhydrous.

(4) The *Domestic Industry* is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. In its original determination, the Commission defined the Domestic Industry as producers of crystalline and anhydrous barium chloride, excluding producers of high purity barium chloride. In its expedited five-year review determination, the Commission defined the Domestic Industry as all domestic producers of barium chloride. For purposes of this notice, you should consider the Domestic Industry to be all domestic producers of barium chloride.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

**Participation in the Review and Public Service List.**—Persons, including industrial users of the Subject Merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21

days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

Former Commission employees who are seeking to appear in Commission five-year reviews are reminded that they are required, pursuant to 19 CFR 201.15, to seek Commission approval if the matter in which they are seeking to appear was pending in any manner or form during their Commission employment. The Commission is seeking guidance as to whether a second transition five-year review is the "same particular matter" as the underlying original investigation for purposes of 19 CFR 201.15 and 18 U.S.C. 207, the post employment statute for Federal employees. Former employees may seek informal advice from Commission ethics officials with respect to this and the related issue of whether the employee's participation was "personal and substantial." However, any informal consultation will not relieve former employees of the obligation to seek approval to appear from the Commission under its rule 201.15. For ethics advice, contact Carol McCue Verratti, Deputy Agency Ethics Official, at 202-205-3088.

**Limited Disclosure of Business Proprietary Information (BPI) Under an Administrative Protective Order (APO) and APO Service List.**—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this review available to authorized applicants under the APO issued in the review, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the review. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

**Certification.**—Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with this review must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and

investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

**Written Submissions.**—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is March 23, 2004. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct an expedited or full review. The deadline for filing such comments is April 16, 2004. All written submissions must conform with the provisions of sections 201.8 and 207.3 of the Commission's rules and any submissions that contain BPI must also conform with the requirements of sections 201.6 and 207.7 of the Commission's rules. The Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means, except to the extent permitted by section 201.8 of the Commission's rules, as amended, 67 FR 68036 (November 8, 2002). Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the review you do not need to serve your response).

**Inability To Provide Requested Information.**—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determination in the review.
