FOR FURTHER INFORMATION CONTACT:

Jennifer Jefferies or Patrick Opay, (301)713–2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

The purpose of the proposed study is to conduct research on the impacts of the hydroelectric facility's activities on shortnose sturgeon in the Connecticut River as part of the Holyoke Hydroelectric Project (FERC No. 2004) license renewal. Limited evidence suggests that shortnose sturgeon may migrate downstream during high flow events; however, information is lacking with regards to time of year or time of day that the migration might occur. To address these objectives, the researchers are requesting authorization to conduct three projects. In the first project, 30 captively bred juvenile sturgeon would be externally tagged with a radio tag, released into the canal, tracked and recaptured after exiting the canal. In the second project, 20 adult sturgeon would be captured annually for four years via trawls and gillnets, measured, weighed, tagged with PIT and external radio tags, released and tracked. In the third project, 200 eggs and larvae would be captured via D-nets and preserved to evaluate spawning behavior. This permit would be authorized for five years from date of issuance.

Dated: August 12, 2004.

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

SUPPLEMENTARY INFORMATION:

I. Abstract

A service provided by the USPTO is the acceptance and preservation for two

years of a "disclosure document" as evidence of the date of conception of an invention. A disclosure document is a paper disclosing an invention, signed by the inventor or inventors, and submitted to the USPTO. The document should contain a clear and complete explanation of the manner and process of making and using the invention in sufficient detail to enable a person having ordinary knowledge in the field of the invention to make and use the invention. The disclosure document request must be accompanied by a separate signed cover letter stating that it is submitted by, or on behalf of, the inventor, and requesting that the material be received into the Disclosure Document Program. These documents will be kept in confidence by the USPTO without publication in accordance with 35 U.S.C. 122(b).

The disclosure document will be preserved by the USPTO for two years after its receipt, and then destroyed unless it is referred to in a separate letter in a related patent application filed within the two year period. The disclosure document is not a patent application, and the date of its receipt in the USPTO will not become the effective filing date of any patent application subsequently filed.

The information supplied to the USPTO by an applicant seeking to prove the date of conception for an invention is used by the USPTO as evidence of the date of conception of an invention.

There is one form associated with this information collection, Form PTO/SB/

BILLING CODE 3510-16-P

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Request for Public Comments on Commercial Availability Petition under the United States - Caribbean Basin Trade Partnership Act (CBTPA)

August 16, 2004.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Request for public comments concerning a petition for a determination that certain woven, 100 percent cotton, napped fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the CBTPA.

SUMMARY: On August 12, 2004, the Chairman of CITA received a petition from Sandler, Travis & Rosenberg, P.A., on behalf of Picacho, S.A., alleging that certain woven, 100 percent cotton, napped fabrics, of the specifications detailed below, classified in subheading 5209.31.60.50 of the Harmonized Tariff Schedule of the United States (HTSUS), cannot be supplied by the domestic industry in commercial quantities in a timely manner. The petition requests that shirts, trousers, nightwear, robes,

dress gowns and woven underwear of such fabrics assembled in one or more CBTPA beneficiary countries be eligible for preferential treatment under the CBTPA. CITA hereby solicits public comments on this petition, in particular with regard to whether these fabrics can be supplied by the domestic industry in commercial quantities in a timely manner. Comments must be submitted by September 2, 2004 to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001, United States Department of Commerce, 14th and Constitution, N.W., Washington, D.C. 20230.

Janet E. Heinzen, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3400.

SUPPLEMENTARY INFORMATION:

Authority: Section 213(b)(2)(A)(v)(II) of the CBERA, as added by Section 211(a) of the CBTPA; Section 6 of Executive Order No. 13191 of January 17, 2001.

BACKGROUND:

The CBTPA provides for quota- and duty-free treatment for qualifying textile and apparel products. Such treatment is generally limited to products manufactured from yarns or fabrics formed in the United States. The CBTPA also provides for quota- and duty-free treatment for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more CBTPA beneficiary countries from fabric or yarn that is not formed in the United States, if it has been determined that such fabric or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner. In Executive Order No. 13191, the President delegated to CITA the authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the CBTPA and directed CITA to establish procedures to ensure appropriate public participation in any such determination. On March 6, 2001, CITA published procedures that it will follow in considering requests. (66 FR 13502).

On August 12, 2004, the Chairman of CITA received a petition on behalf of Picacho, S.A., alleging that certain woven, 100 percent cotton, napped fabrics, of the specifications detailed below, classified HTSUS subheading 5209.31.60.50, cannot be supplied by the domestic industry in commercial quantities in a timely manner and requesting quota- and duty-free treatment under the CBTPA for certain apparel articles that are cut and sewn in

one or more CBTPA beneficiary countries from such fabrics.

Specifications:

Fabric 1	
Petitioner Style No:	62BU1600240A
HTS Subheading:	5209.31.60.50
Fiber Content:	100% Cotton
Weight:	291.5 g/m ²
Width:	160 centimeters cuttable
Thread Count:	24.41 warp ends per centimeter; 16.53 filling picks per centimeter; total: 40.94 threads per square centimeter
Yarn Number:	Warp: 25.4 metric, ring spun; filling: 10.16 metric, open end spun; overall average yarn number: 14.04 metric (Piece) dyed; napped on both sides, sanforized
Fabric 2	
Petitioner Style No:	62BU1600240B
HTS Subheading:	5209.31.60.50
Fiber Content:	100% Cotton
Weight:	305 g/m ²
Width:	160 centimeters cuttable
Thread Count:	24.41 warp ends per centimeter; 18.11 filling picks per centimeter; total: 42.52 threads per square centimeter
Yarn Number:	Warp: 25.4 metric, ring spun; filling: 10.16 metric, open end spun; overall average yarn number: 13.95 metric (Piece) dyed; napped on both sides, sanforized
Finish:	(Piece) dyed; napped on both sides, sanforized

The petitioner emphasizes that the fabrics must be napped on both sides, that the yarn sizes and thread count, and consequently, the weight of the fabrics must be exactly or nearly exactly as specified or the fabrics will not be suitable for their intended uses. The warp yarns must be ring spun in order to provide the additional tensile strength required to offset the degrading effects of heavy napping on both sides. The filling yarns must be open end spun to provide required loft and softness.

CITA is soliciting public comments regarding this request, particularly with respect to whether these fabrics can be supplied by the domestic industry in commercial quantities in a timely manner. Also relevant is whether other fabrics that are supplied by the domestic industry in commercial quantities in a timely manner are substitutable for the fabric for purposes of the intended use. Comments must be received no later than September 2, 2004. Interested persons are invited to submit six copies of such comments or information to the Chairman, Committee for the Implementation of Textile Agreements, room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, DC 20230.

If a comment alleges that these fabrics can be supplied by the domestic industry in commercial quantities in a
