

SUPPLEMENTARY INFORMATION: On July 28, 2004, we published a notice in the **Federal Register** (69 FR 45023) proposing an extension of project period and waiver in order to—

(1) Enable the Secretary to provide additional funds to the currently funded center for an additional 12-month period until August 30, 2005; and

(2) Request comments on the proposed extension and waiver.

There are no differences between the notice of proposed extension of project period and waiver and this notice of final extension of project period and waiver.

Public Comment

In the notice of proposed extension of project period and waiver, we invited comments. Eleven parties submitted comments in agreement with the proposal to extend the grant period of the current grantee. We did not receive any comments opposing the proposed extension of project period and waiver. Generally, we do not address technical and other minor changes, as well as suggested changes the law does not authorize us to make. Moreover, we do not address comments that do not express views on the substance of the notice of proposed extension of project period and waiver.

Waiver of Delayed Effective Date

The Administrative Procedure Act requires that a substantive rule shall be published at least 30 days before its effective date, except as otherwise provided for good cause (20 U.S.C. 553(d)(3)). During the 15-day public comment period on the notice of proposed extension of project period and waiver, eleven parties submitted comments in support of the proposed extension and waiver. There were no objections received on the proposed extension and waiver, and therefore, no substantive changes have been made. For this reason, and in order to make a timely continuation grant to the entity affected, the Secretary has determined that a delayed effective date is not required.

Background: On March 3, 1999, the Department published a notice in the **Federal Register** (64 FR 10352) inviting applications for a new award for a Center for Students With Disabilities Involved With and at Risk of Involvement With the Juvenile Justice System (Center) for fiscal year (FY) 1999. Based on that notice, the Department made one award for a period of 60 months to the University of Maryland to establish and operate the Center to provide guidance and assistance to States, schools, justice

programs, families, and communities in designing, implementing, and evaluating comprehensive educational programs, based on research validated practices, for students with disabilities at risk of involvement or involved in the juvenile justice system. The Center focuses on three broad areas: (1) Prevention programs, (2) educational programs, and (3) reintegration or transition programs. The Center addresses these three areas through research, training, and technical assistance and dissemination. The Department is seeking additional support for a competition to be held in FY 2005, which would continue the work of the Center. However, the current grant period for the Center ends on August 31, 2004.

In order to ensure that the work of the Center will continue until a new award can be made, the Secretary waives 34 CFR 75.250 and 75.261(a) and issues a continuation award to the existing grantee for an additional twelve-month period.

The Center will continue dissemination and technical assistance activities including:

(a) Preparation and dissemination of information materials designed to increase awareness of and use of research validated practices to a variety of audiences (*e.g.*, educators, justice personnel, mental health personnel, judges, policymakers, families, and other service providers).

(b) Providing for information exchanges between researchers and practitioners who direct model programs and those seeking to design or implement model programs.

The Center will continue training activities including:

Funding at least three graduate students who have concentrations in special education or criminal justice to work as project research assistants for the Center. These students will assist with project facilitation and the Center's research and evaluation of programs.

The Center will also complete additional research activities as appropriate.

Regulatory Flexibility Act Certification

The Secretary certifies that the extension of the project period and waiver will not have a significant economic impact on a substantial number of small entities. The only entity that would be affected is the Center for Students With Disabilities Involved With and at Risk of Involvement With the Juvenile Justice System.

Paperwork Reduction Act of 1995

This extension of project period and waiver does not contain any information collection requirements.

Intergovernmental Review

This program is not subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79.

Electronic Access to This Document: You may view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Adobe Portable Document Format (PDF) on the Internet at the following site: <http://www.ed.gov/news/fedregister>.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC04-542-000; FERC-542]

Commission Information Collection Activities, Proposed Collection; Comment Request; Extension

August 20, 2004.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice.

SUMMARY: In compliance with the requirements of Section 3506(c) (2) (a) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), the Federal Energy Regulatory Commission (Commission) is soliciting public comment on the specific aspects of the information collection described below.

DATES: Comments on the collection of information are due by October 18, 2004.

ADDRESSES: Copies of the proposed collection of information can be

obtained from and written comments may be submitted to the Federal Energy Regulatory Commission, Attn: Michael Miller, Office of the Executive Director, ED-30, 888 First Street NE., Washington, DC 20426. Comments may be filed either in paper format or electronically. Those parties filing electronically do not need to make a paper filing. For paper filings, the original and 14 copies of such comments should be submitted to the Office of the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426 and refer to Docket No. IC04-542-000.

Documents filed electronically via the Internet must be prepared in WordPerfect, MS Word, Portable Document Format, or ASCII format. To file the document, access the Commission's Web site at <http://www.ferc.gov> and click on "Make an E-filing," and then follow the instructions for each screen. First time users will have to establish a user name and password. The Commission will send an automatic acknowledgement to the sender's e-mail address upon receipt of comments.

All comments may be viewed, printed or downloaded remotely via the Internet

through FERC's homepage using the *eLibrary* link. For user assistance, contact FERCOnlineSupport@ferc.gov or toll-free at (866)208-3676 or for TTY, contact (202) 502-8659.

FOR FURTHER INFORMATION CONTACT:

Michael Miller may be reached by telephone at (202) 502-8415, by fax at (202) 273-0873, and by e-mail at michael.miller@ferc.gov.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC-542 "Gas Pipeline Rates: Rate Tracking (OMB No. 1902-0042) is used by the Commission to implement the statutory provisions of Title IV of the Natural Gas Policy Act (NGPA), 15 U.S.C. 3301-3432, and Sections 4, 5 and 16 of the Natural Gas Act (NGA) (P.L. 75-688)(15 U.S.C. 717-717w). These statutes empower the Commission to collect natural gas transmission cost information from interstate natural gas transporters for the purpose of verifying that these costs which are passed on to pipeline customers, are just and reasonable. Interstate natural gas pipelines are required by the Commission to track their transportation associated costs to allow for the Commission's review and

where appropriate, approval of the pass through of these cost to pipeline customers. Most of these FERC-542 tracking filings are monthly accountings of the cost of fuel or electric power necessary to operate compressor stations. Others track the costs of (1) Gas Research Institute fees; (2) annual charges of various types, and (3) other types of rate adjustments.

Tracking filings may be submitted at any time or on a regularly scheduled basis in accordance with the pipeline company's tariff. Filings may be either: (1) Accepted; (2) suspended and set for hearing; (3) suspended, but not set for hearing; or (4) suspended for further review, such as technical conference or some other type of Commission action. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR Part 154, §§ 154.4, 154.7, 154.101, 154.107, 154.201, 154.207-154.209 and 154.401-154.403.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1)×(2)×(3)
57	3	140	23,940

The estimated total cost to respondents is \$1,233,658 (23,940 hours divided by 2,080 hours per employee per year times \$107,185 per year average salary (including overhead) per employee (rounded off)).

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs

include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology

e.g. permitting electronic submission of responses.

Linda Mitry,

Acting Secretary.
